

program is slightly more than \$45.00. TSA is rounding down to a set fee of \$45.00. The \$45.00 fee applies per individual, per 10-day use (provided the individual can successfully verify their identity for each use during the 10-day period).⁵

As noted above, TSA has updated the fee development report that provides a detailed discussion of the TSA Confirm.ID program's expected costs, updated expected population, and updated fee determination. A copy of the fee development report can be accessed at TSA.gov. In addition to this notice, TSA will publish additional information regarding the TSA Confirm.ID program at TSA.gov. TSA may update this fee and availability of the program in the future through publication of a notice in the **Federal Register**. Collection of the fee will begin when TSA announces that individuals may register for the TSA Confirm.ID program at TSA.gov.

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[OMB Control Number 1010-0176; Docket ID: BOEM-2025-0003]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Renewable Energy on the Outer Continental Shelf and Alternate Uses of Existing Facilities on the Outer Continental Shelf

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM, we) proposes this information collection request (ICR) to renew Office of Management and Budget (OMB) Control Number 1010-0176 with revisions.

DATES: Comments must be received by the OMB desk officer no later than January 2, 2026.

ADDRESSES: Submit your written comments on this ICR to the OMB's

desk officer for the Department of the Interior at www.reginfo.gov/public/do/PRAMain. From the www.reginfo.gov/public/do/PRAMain landing page, find this information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function. Please provide a copy of your comments by parcel delivery service or U.S. mail to the BOEM Information Collection Clearance Officer Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference OMB Control Number 1010-0176 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT:

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside of the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provides the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period on the proposed ICR was published on April 25, 2025 (90 FR 17442). BOEM received 3 comments. One comment suggested reviewing the collection for safety concerns. Another comment recommended transitioning to all green energy. Another commenter supported clean and natural energy and did not want Georgia impacted with drilling. These comments do not change the purpose of or need for the ICR, nor do they affect the cost or hour burden.

As part of our continuing effort to reduce paperwork and respondent burdens, we again invite the public and other Federal agencies to comment on this revised information collection. We are especially interested in public comments addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of BOEM's functions, including whether or not the information will have practical utility;

(2) What can BOEM do to ensure that this information is processed and used in a timely manner?

(3) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(4) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(5) How might BOEM minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record and will be available for public review on www.reginfo.gov. BOEM will include or summarize each comment in its ICR to OMB for approval.

You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time. Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). Your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior's (DOI) FOIA implementing regulations (43 CFR part 2) and applicable law.

For BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained your comment that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm.

BOEM will make available for public inspection, in their entirety, all comments submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses.

⁵ The same period of use was provided in the November Notice.

BOEM protects proprietary information in accordance with FOIA, DOI's implementing regulations (43 CFR part 2), and 30 CFR 581.7.

Abstract: The ICR addresses the paperwork requirements in the regulations under 30 CFR parts 585 and 586 issued pursuant to the Outer Continental Shelf Lands Act (OCS Lands Act), as amended (43 U.S.C. 1331 *et seq.*). The OCS Lands Act at subsection 8(p) (43 U.S.C. 1337(p)) authorizes the Secretary of the Interior to issue leases, easements, or rights-of-way on the OCS for activities that produce or support production, transportation, or transmission of energy from sources other than oil and gas, including renewable energy. Subsection 8(p) directs the Secretary to issue any necessary regulations to carry out the OCS renewable energy program.

The Secretary delegated this authority to BOEM. BOEM issued regulations for OCS renewable energy activities at 30 CFR parts 585 and 586. This notice concerns the reporting and recordkeeping elements required by these regulations.

Respondents are parties interested in obtaining a lease or grant for renewable energy activities on the OCS; lessees and grantees submitting plans for commercial and noncommercial renewable energy projects on the OCS, and, if such plans are approved, constructing, operating, maintaining, and decommissioning those projects; and applicants for, or holders of, rights-of-use and easement for alternate uses of existing facilities on the OCS.

BOEM must ensure that these activities are carried out in a manner that provides for, among other things, safety, protection of the environment, and consideration of other OCS users. In order to execute its duties, BOEM requires information regarding potential purchasers of leases, grants, and rights-of-way; their proposed activities; their financial assurance instruments to ensure accrued obligations are met; and their payments to the U.S. Treasury.

BOEM uses forms to collect information to ensure proper and efficient administration of OCS renewable energy leases and grants and to document the financial responsibility of lessees and grantees. Forms BOEM-0002, BOEM-0003, BOEM-0004, and BOEM-0006 are used, respectively, by renewable energy entities on the OCS to assign a grant interest, assign a lease interest, relinquish a lease or grant, and designate an operator. Form BOEM-0005 is used to document a surety's

guarantee of lessees' and grantees' performance. BOEM maintains the submitted forms as official lease and grant records.

The current approved annual burdens for OMB Control Number 1010-0176 are equal to 9,876 burden hours, 200 annual responses, and \$1,908,000 non-hour costs. BOEM is updating the overall burdens for this OMB control number. This update reflects recent increases in development activity and a more realistic assessment of conditional approvals that have increased the number and scope of compliance requirements compared to previous estimates.

BOEM sets conditions of approval for activities on the OCS to ensure compliance with regulations and project-specific requirements. BOEM has several projects under current leases that recently entered the planning phase; these annual burden hours were not counted in the last ICR renewal. BOEM is increasing the annual burden hours to reflect the increase related to the terms and conditions of approval of these projects. The adjustments to the numbers in the burden table for this revision are estimates based on BOEM's knowledge and expertise of the industry and requirements associated with offshore wind projects.

During the public outreach in 2025, industry representatives noted that annual burden hours were undercounted for requirements that support monitoring activities, training, survey efforts, and monthly status reporting. In addition, representatives shared that non-labor costs were undercounted, including those requirements associated with studies and vessel-supported activities.

As noted in the 60-day notice, BOEM is also rolling the annual burdens under OMB Control Number 1010-0195 into this revision of 1010-0176. In 2023 and 2024, BOEM had two final rules tied to 30 CFR 585 and 586 (88 FR 6376 and 89 FR 42602). BOEM used two OMB-approved control numbers, 1010-0176 and 1010-0195, to account for the information collections under those rules. Now, with this ICR, BOEM will consolidate these information collections under OMB Control Number 1010-0176 and will discontinue 1010-0195.

This ICR increases annual burdens by 71,228 hours to a total of 81,104 hours, based on BOEM's recent collection of data and information.

On January 20, 2025, the Presidential Memorandum "Temporary Withdrawal

of All Areas on the Outer Continental Shelf from Offshore Wind Leasing and Review of the Federal Government's Leasing and Permitting Practices for Wind Projects" was issued. With the hold on wind leasing, BOEM will likely see a decrease in annual burden hours on future renewals of OMB Control Number 1010-0176. In this ICR, BOEM accounts for the leases moving through the approval process.

Title of Collection: 30 CFR part 585, Renewable Energy on the Outer Continental Shelf and 586, Alternate Uses of Existing Facilities on the Outer Continental Shelf.

OMB Control Number: 1010-0176.

Form Numbers:

- BOEM-0002, "Outer Continental Shelf (OCS) Renewable Energy Assignment of Grant;"
- BOEM-0003, "Assignment of Record Title Interest in Federal OCS Renewable Energy Lease;"
- BOEM-0004, "Outer Continental Shelf (OCS) Renewable Energy Lease or Grant Relinquishment Application;"
- BOEM-0005, "Outer Continental Shelf (OCS) Renewable Energy Lessee's, Grantee's, and Operator's Bond;" and
- BOEM-0006, "Outer Continental Shelf (OCS) Renewable Energy Lease or Grant Designation of Operator."

Type of Review: Revision of a currently approved information collection.

Respondents/Affected Public: Companies interested in renewable energy-related uses on the OCS and holders of leases and grants under 30 CFR parts 585 and 586.

Total Estimated Number of Annual Responses: 483 responses.

Total Estimated Number of Annual Burden Hours: 81,104 hours.

Respondent's Obligation: Mandatory or required to retain or obtain a benefit.

Frequency of Collection: On occasion or annually.

Total Estimated Annual Non-hour Cost Burden: \$43,198,584 non-hour cost burden.

The following table details the individual components and estimated hour burdens. In calculating the burdens, BOEM recognized that some of the required information collections are incurred by respondents in the normal course of their activities, like compiling and maintaining business records. BOEM considers some of the information collection activities to be usual and customary business practices and excluded those activities from its account in estimating the burden.
