The Pension Benefit Guaranty Corporation (PBGC) is making a change that is not material to the currently approved instructions for payment of termination premiums.

PBGC administers the pension plan termination insurance program under title IV of ERISA. Section 4006(a)(7) of ERISA provides for a "termination premium" (in addition to the flat-rate and variable-rate premiums under sections 4006(a)(3) and (8)) that is payable for 3 years following certain distress and involuntary plan terminations. PBGC's regulations on Premium Rates (29 CFR part 4006) and Payment of Premiums (29 CFR part 4007) implement the termination premium. In general, the termination premium applies where a single-employer plan terminates in a distress termination under section 4041(c) of ERISA or in an involuntary termination under section 4042 of ERISA after 2005. The same termination premium is payable each year, starting shortly after the termination date or after the conclusion of bankruptcy proceedings in certain cases. Sections 4007.3 and 4007.13(b) of the premium payment regulation require the filing of termination premium information and payments with PBGC. The termination premium and related information must be filed by a person liable for the termination premium. The persons liable for the termination premium are contributing sponsors and members of their controlled groups.

PBGC uses Form T for payment of the termination premium and its corresponding instructions to inform filers how to complete the form. For plan years beginning on or after 01/01/2026, PBGC is removing from the Form T instructions the option for filers to make termination premium payments by paper check. Filers will make termination premium payments either through My Plan Administration Account (My PAA, PBGC's secure web-based application for submitting and paying premium filings), Pay.gov or by direct ACH debit from their bank. These changes conform with Executive Order 14247, which directs federal agencies to phase out the use of paper checks for payments to and from the public, subject to limited exceptions.

Additionally, PBGC proposes other editorial revisions to the section of the Form T instruction addressing where to file and pay, to improve clarity.

The proposed changes to the information collection will not increase the hour or cost burden.

The foregoing changes are shown below in red and blue:
