Purpose: 30 CFR 75.1714-8 authorizes the collection of this information. MSHA maintains an inventory of all reported SCSR information to assure the effectiveness of evacuation plans and emergency evacuations. In addition, such an inventory will assist in targeting SCSR recalls to specific mines. The use of this form will facilitate SCSR inventory information transfer from mine operators to MSHA. MSHA may not sponsor or endorse products.

Burden Statement: Public reporting burden for this collection of information is estimated from 2 hours to 6 hours depending on the size of the mine per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection information. Persons are not required to respond to this collection of information unless it displays a currently valid OMB Control Number. The DOL offers no pledge of confidentiality in association with these information collections. As a practical matter, the DOL would only release this information in accordance with the provisions of the Freedom of Information Act (5 U.S.C. § 552); the Privacy Act (5 U.S.C. § 552a); and attendant regulations, 29 C.F.R. parts 70 and 71. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: **U.S. Department of Labor, Mine Safety and Health Administration, Office of Standards, Regulations, and Variances, 200 Constitution Avenue NW, Room C3522 Washington, DC 20210. DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.**
