ENGLISH	We estimate that it will take 90 minutes per survey response for youth. If you have comments regarding this estimate or any other aspect of the survey, including suggestions for reducing the time needed to respond, send them to: Keenan Dworak-Fisher, Director, National Longitudinal Surveys at bls_pra_public@bls.gov. The U.S. Office of Management and Budget (OMB) has approved the questionnaire and has assigned 1220-xxxx as the study's control number. This control number expires on xx/xx/xxxx. You are not required to respond to the collection of information unless it displays a currently valid OMB control number.
SPANISH	Estimamos que los(as) jóvenes tardarán 90 minutos en responder la encuesta. Si tienes comentarios sobre esta estimación o cualquier otro aspecto de la encuesta, incluidas sugerencias para reducir el tiempo necesario para responder, envíalos a esta dirección: Keenan Dworak-Fisher, director de encuestas longitudinales nacionales a bls_pra_public@bls.gov. La oficina de administración y presupuesto de los estados unidos (OMB, por sus siglas en inglés) ha aprobado el cuestionario y le ha asignado 1220-xxxx como número de control del estudio. Este número de control vence el xx/xx/xxxx. No es un requisito que respondas a la recopilación de información si no tiene un número de control de OMB válido y vigente.

ENGLISH	Now, I would like to ask you some questions about school. We define a school as one that offers an academic diploma or degree, such as an elementary school, high school, college or university, or graduate school leading to a degree. Please include home schooling as well. Not included here are training programs at technical institutes, or license trade programs unless the credits are transferable and could count toward an academic diploma or degree. We will ask about these types of institutes and programs later in the interview. Are you currently attending or enrolled in school? If you are out of school for an illness or injury, or on a school break, such as summer, spring, or winter break, but plan to return to school when the break is over, please consider yourself as enrolled in school. 1. YES 0. NO
SPANISH	Ahora, quisiera hacerte algunas preguntas sobre la escuela. Definimos una “escuela” como un instituto que ofrece un diploma o título académico, como una escuela primaria, secundaria/preparatoria, terciaria, una universidad o una escuela de posgrado que conduce a un título. Incluye también la escolaridad en casa. Aquí no se incluyen los programas de capacitación en institutos técnicos o los programas de oficios comerciales, a menos que los créditos sean transferibles y puedan contar para un diploma o título académico. Más adelante, en la entrevista, haremos preguntas sobre este tipo de institutos y programas. ¿Asistes, en la actualidad, a una escuela o estás matriculado(a)? Si no asistes a la escuela por una enfermedad o lesión, o en un receso escolar, como las vacaciones de verano, primavera o invierno, pero planeas regresar a la escuela cuando terminen las vacaciones, considérate matriculado(a) en la escuela. 1. HELP TEXT (ENG)	Traditional public school: Regular public schools that provide standard classes, like math, science, and language arts. Charter school: Schools that are publicly funded but are not part of the public school system. These schools have more flexibility to try different teaching methods or types of classes than regular public schools. Magnet school: Schools that focus on specific areas of study, like science and math schools, arts schools, or foreign language schools. Technical or vocational high school: A high school that focuses on preparing students for jobs. Private schools: Schools that rely on private funding or charge tuition. Private schools may or may not be affiliated with a specific religion (e.g., Catholic schools). Early college high school: Schools where students simultaneously complete requirements for a high school diploma, while earning an associate degree or up to 2 years of college credit Online school: A school where students complete their work entirely over the internet. Schools that offer online classes in addition to regular in-person classes, or occasionally have remote school days should not be included under online schools. Alternative school: A school that offers a curriculum designed to provide nontraditional education to students -- for example, to students at risk of school failure or dropping out of traditional schools. Home school: A type of schooling where students are taught at home, often by parents or other guardians. Schools in detention or rehabilitation: Schools attended while at a detention or rehabilitation center.
HELP TEXT (SPAN)	Escuela pública tradicional: escuelas públicas regulares que ofrecen clases estándar, como Matemáticas, Ciencias y Artes del Lenguaje. Escuela chárter: escuelas financiadas con fondos públicos pero que no forman parte del sistema de escuelas públicas. Estas escuelas tienen más flexibilidad para probar diferentes métodos de enseñanza o tipos de clases que las escuelas públicas regulares. Escuela magnet: escuelas que se enfocan en áreas específicas de estudio, como escuelas de ciencias y matemáticas, escuelas de arte o escuelas de idiomas extranjeros. Escuela secundaria/preparatoria técnica o vocacional: una escuela secundaria/preparatoria que se enfoca en preparar a estudiantes para un trabajo. Escuelas privadas: escuelas que dependen de fondos privados o cobran matrícula. Las escuelas privadas pueden o no estar afiliadas a una religión específica (por ejemplo, escuelas católicas). Escuela universitaria temprana: escuelas donde los estudiantes deben completar simultáneamente los requisitos para obtener un diploma de escuela

	secundaria/preparatoria mientras obtienen un título técnico (AS) o hasta 2 años de crédito universitario. Escuela por internet: una escuela en la que los estudiantes completan su trabajo solo a través de Internet. Las escuelas que ofrecen clases por internet además de las clases en persona regulares, o que ocasionalmente tienen días escolares remotos, no deben incluirse en la categoría de escuelas por internet. Escuela alternativa: una escuela que ofrece un plan de estudios diseñado para proporcionar educación no tradicional a los estudiantes, por ejemplo, a los estudiantes en riesgo de tener fracaso escolar o abandonar las escuelas tradicionales. Escolaridad en el hogar: un tipo de educación en la que los estudiantes reciben clases en su casa, a menudo impartidas por los/as padres/madres u otros tutores. Escuelas en detención o rehabilitación: escuelas a las que asististe mientras estabas en un centro de detención o rehabilitación.

<i>PROGRAM. NOTES</i>	Create variable, HGA. Create roster, SCHOOLROSTER. This roster will be used to track the schools that each R has attended, beginning in Round 1 of NLSY27. Each school should be assigned a line on the roster, ordered from longest-ago attended to most-recent attended. Create fields: SCHOOL_UID: Create a unique ID number with 4 digits. The first 2 digits should be the round number (e.g., "01" for Round 1). The second 2 digits should be the number of

	the new school reported in the round (e.g., “01” for the first new school, “02” for the second new school, etc.). SCHOOL_NCESID: Record the NCES_ID (elementary – high school) from NCES schools list. SCHOOL_IPEDS_UNITID: Record the Integrated Postsecondary Education Data System Identification Number (college only) from NCES schools list. SCHOOL_OPEID: Record the Office of Postsecondary Education Identification Number (college only) from NCES schools list. SCHOOL_NAME: Copy variable SCHOOL_NAME. SCHOOL_INTERVIEWROUND: Set to the number of the first round in which R reports attending the school. For any schools recorded in the first round, this will be ‘1’. SCHOOL_PERIODNUM: Set to the number of times R has enrolled in this school (not needed for Round 1). SCHOOL_CURRENT: If R is currently attending the school at DOI (CURRENTENROLL_ANY = 1), set to 1; otherwise, set to 0. SCHOOL_STARTDATE (m,y): Set to date R started attending the school (not needed for Round 1 unless R is in college – see f_YSCH_071). SCHOOL_STARTMONTH: Set to month R started attending the school (not needed for Round 1 unless R is in college – see f_YSCH_071). SCHOOL_STARTYEAR: Set to year R started attending the school (not needed for Round 1 unless R is in college – see f_YSCH_071). SCHOOL_STOPDATE (m,y): Set to date R stopped attending the school. If currently enrolled, set to month and year of DOI. If not currently enrolled, set to month and year reported in YSCH_006 or YSCH_008. SCHOOL_STOPMONTH: Set to month R stopped attending the school. If currently enrolled, set to month of DOI. If not currently enrolled, set to month reported in YSCH_006 or YSCH_008. SCHOOL_STOPYEAR: Set to year R stopped attending the school. If currently enrolled, set to year of DOI. If not currently enrolled, set to year reported in YSCH_006 or YSCH_008. SCHOOL_REASONLEFT: Set SCHOOL_REASONLEFT to category selected in YSCH_009. SCHOOL_LEVEL: Set SCHOOL_LEVEL to category selected in YSCH_010. SCHOOL_TYPE: Set SCHOOL_TYPE to category selected in YSCH_017. PLEASE NOTE: If any of the above information is missing because R responded DK/REF to an earlier item, please retain the DK/REF response values in the SCHOOLROSTER.

<i>HELP TEXT (ENG)</i>	A semester system: The school year is divided into two main terms (“semesters”) – Fall and Spring – each lasting around 15-17 weeks, with a break in between. A quarter system: The school year is divided into four terms (“quarters”) – Fall, Winter, Spring, and Summer – each lasting around 10-12 weeks. The summer quarter is usually optional, and students may either use it as a break or take additional classes. A trimester system: The school year is divided into three terms (“trimesters”) – Fall, Winter, and Spring – each lasting around 12-13 weeks. A 4-1-4 or similar system: The school year is divided into two 4-month terms – Fall and Spring – with a 1-month term in between, where students typically focus on a single course or special project. Another academic calendar system: The school year is divided in a different way that does not match the options above. A non-academic calendar system: The school year is not divided into traditional academic terms. Courses may follow a more flexible schedule, and progress toward course completion is measured by credit or clock hours.
<i>HELP TEXT (SPAN)</i>	Un sistema de semestres: el año escolar se divide en dos períodos principales (“semestres”), otoño y primavera, cada uno de los cuales dura entre 15 y 17 semanas, con un receso entre ellos. Un sistema de cuatrimestres: el año escolar se divide en cuatro trimestres: otoño, invierno, primavera y verano, cada uno de los cuales dura entre 10 y 12 semanas. El trimestre de verano suele ser opcional, y los estudiantes pueden usarlo como un descanso o para tomar clases adicionales. Un sistema de trimestres: el año escolar se divide en tres períodos (“trimestres”): otoño, invierno y primavera, cada uno de los cuales dura entre 12 y 13 semanas. Un sistema 4-1-4 o similar: el año escolar se divide en dos períodos de 4 meses, otoño y primavera, con un período de 1 mes en el medio, en el que los estudiantes generalmente se enfocan en un solo curso o proyecto especial. Otro sistema de calendario académico: el año escolar se divide de una manera diferente que no coincide con las opciones anteriores. Un sistema de calendario no académico: el año escolar no se divide en períodos académicos tradicionales. Los cursos pueden seguir un horario más flexible, y el progreso hacia la finalización del curso se mide por créditos u horas reloj.

ENGLISH	We would like to talk to you about any work you have done in the time since your fourteenth birthday^{FILL_YEMP001}. When answering these questions, please tell us about any work you did for pay, as well as any work you did for a family business, whether or not you were paid. We are interested in all types of jobs, including those where you worked for an employer, such as being an employee of a supermarket or restaurant ^{FILL_SEVENTEEN}. We are also interested in any self-employment work you have done. Self-employment includes working as a freelancer, independent contractor, or independent consultant and working for yourself in your own business. It also includes informal work for pay, such as mowing a lawn or babysitting for a neighbor. Please do not count work for different clients or customers as different jobs if the line of work is the same. For example, if you work as a painter and painted three homes, count house painting as one job, not three. Or if you deliver food and get customers through two different apps, please count food delivery as one job, not two. ^{FILL_CALINS}
SPANISH	Quisiéramos hablar contigo sobre todos los trabajos que hayas realizado en el tiempo transcurrido desde tu decimocuarto cumpleaños^{FILL_YEMP001}. Cuando respondas estas preguntas, infórmarnos sobre todos los trabajos que hayas realizado a cambio de una remuneración, así como sobre todos los trabajos que hayas realizado para una empresa familiar, tanto si te pagaban como si no. Nos interesan todo tipo de trabajos, incluidos aquellos en los que trabajaste para un empleador, como ser empleado de un supermercado o de un restaurante ^{FILL_SEVENTEEN}. También nos interesan todos los trabajos independientes que hayas realizado. El trabajo independiente incluye el de personas que trabajan como autónomas, contratistas independientes o consultoras independientes, así como las que trabajan para sí mismas en sus propias empresas. También incluye el trabajo informal remunerado, como cortar el césped o cuidar a los hijos de un vecino. No cuentes el trabajo para diferentes clientes como trabajos diferentes si la línea de trabajo es la misma. Por ejemplo, si trabajas como pintor y pintas tres casas, cuenta pintar casas como un solo trabajo, no como tres. O si repartes comida y consigues clientes a través de dos aplicaciones diferentes, cuenta el reparto de comida como un solo trabajo, no como dos. ^{FILL_CALINS}

ENGLISH	Earlier you reported that you ^{FILL_YEMP133_1} worked ^{FILL_SELFEMP1} ^{FILL_EMP_NAME} for ^{FILL_JOBLENGTH} weeks between the time you started the job and ^{FILL_YEMP133_2}. Next, you reported you had four or more periods of two weeks or more during which you did not work ^{FILL_SELFEMP2} ^{FILL_EMP_NAME}. Together, the three longest periods add up to ^{FILL_COMBGAPS} weeks when you were not working or on paid leave. That leaves ^{FILL_NOTGAPS} weeks when you were potentially working ^{FILL_SELFEMP2} ^{FILL_EMP_NAME}. How many weeks in total were you not working during those ^{FILL_NOTGAPS} weeks? Please do not count any paid vacations or paid sick leave, and do not include the ^{FILL_COMBGAPS} weeks during the three longest periods of not working that we have already talked about. ENTER NUMBER OF WEEKS NOT WORKING: -8. THERE WERE NO MORE GAPS.
SPANISH	Antes, informaste que ^{FILL_YEMP133_1} ^{FILL_SELFEMP1} ^{FILL_EMP_NAME} durante ^{FILL_JOBLENGTH} semanas entre el momento en que empezaste el trabajo y ^{FILL_YEMP133_2}. Luego, informaste que tuviste cuatro o más períodos de dos semanas o más durante los cuales no trabajaste ^{FILL_SELFEMP2} ^{FILL_EMP_NAME}. Juntos, los tres períodos más largos suman un total de ^{FILL_COMBGAPS} semanas en las que no estuviste trabajando ni tuviste licencia remunerada. Eso significa que hay ^{FILL_NOTGAPS} semanas en las que posiblemente estabas trabajando ^{FILL_SELFEMP2} ^{FILL_EMP_NAME}. ¿Cuántas semanas en total estuviste sin trabajar durante esas ^{FILL_NOTGAPS} semanas? No cuentes las vacaciones pagas ni las licencias por enfermedad pagas, y no incluyas las ^{FILL_COMBGAPS} semanas durante los tres períodos más largos sin trabajar de los que ya hemos hablado. HELP TEXT (ENG)	A person is “on layoff” if they are not currently working but are waiting to be called back to a job that is temporarily stopped for business reasons. Some common reasons that people are on layoff are business closures due to temporary drops in customers, plant remodeling, material shortages, and inventory taking.

<i>HELP TEXT (ENG)</i>	A person is “on layoff” if they are not currently working but are waiting to be called back to a job that is temporarily stopped for business reasons. Some common reasons that people are on layoff are business closures due to temporary drops in customers, plant remodeling, material shortages, and inventory taking.
<i>HELP TEXT (SPAN)</i>	Una persona está suspendida si no está trabajando en un momento particular pero está esperando a que la llamen para volver a un trabajo que está temporalmente detenido por motivos laborales. Algunos motivos habituales de una suspensión son el cierre de empresas debido a bajas temporales de clientes, la remodelación de plantas, la escasez de materiales y la realización de inventarios.

ENGLISH	These next questions are about legal marriages and cohabitating relationships. In a legal marriage, spouses may live together in the same household, but there may be times when married spouses live apart, for example when away for work or on military assignments. Some couples live together without being legally married in cohabitating relationships. By cohabitating relationships, we mean romantic or sexual relationships in which partners establish one household and live together for a period of at least three months. INTERVIEWER: PRESS NEXT TO CONTINUE.
SPANISH	Las siguientes preguntas son sobre matrimonios legales y relaciones de cohabitación. En un matrimonio legal, los(as) cónyuges pueden vivir juntos en el mismo hogar, pero puede haber ocasiones en que quienes están casados(as) vivan separados(as), por ejemplo, cuando trabajan en otro lugar o tienen asignaciones militares. Algunas parejas en relaciones de cohabitación viven juntas sin estar legalmente casadas. Por “relaciones de cohabitación” nos referimos a las relaciones románticas o sexuales en las que los miembros de la pareja establecen un hogar y viven juntos durante un período de al menos tres meses. ENGLISH	Next, we would like to ask your best guess about how likely you think something will happen in the future. When we ask a question, we'd like for you to give us a number from 0 to 100, where "0" means that you think there is absolutely no chance, and "100" means that you think the event is absolutely certain to happen. You can think of the percent chance that some event will occur as the number of chances out of 100 that the event will take place. For example, no one can ever be sure about tomorrow's weather, but if you think that rain is very unlikely tomorrow, you might say that there is a 6 percent chance. If you think there is a very good chance that it will rain tomorrow, you might say that there is an 82 percent chance of rain. If you are positive that it will rain tomorrow, you would say there is a 100 percent chance of rain. I'd like you to do a few practice questions. INTERVIEWER: PRESS NEXT TO CONTINUE.
SPANISH	A continuación, nos gustaría que nos dieras tu mejor estimación sobre la probabilidad de que algo suceda en el futuro. Cuando te hagamos una pregunta, quisiéramos que nos des un número del 0 al 100, teniendo en cuenta que "0" significa que crees que no hay ninguna probabilidad y que "100" significa que no tienes dudas de que esto ocurrirá. Puede pensar en la posibilidad de que un suceso ocurra como un porcentaje o como un número de posibilidad en una escala del 1 al 100. Por ejemplo, nadie puede garantizar cómo estará el tiempo mañana, pero si crees que es muy poco probable que llueva mañana, podrías decir que hay un 6 por ciento de probabilidad de lluvia. Si crees que la probabilidad de que llueva mañana es muy alta, podrías decir que hay un 82 por ciento de probabilidad de lluvia. Si tienes certeza de que lloverá mañana, puedes decir que hay un 100 por ciento de probabilidad de lluvia. Quisiera que respondas algunas preguntas de práctica. INTERVIEWER: PRESS NEXT TO CONTINUE.

ENGLISH	INTERVIEWER: IT IS NOW TIME TO ADMINISTER THE AUDIO CASI SECTION OF THE INTERVIEW. PLEASE INSERT THE HEADPHONES/EARBUDS INTO THE LAPTOP USB-C PORT OF THE TABLET AND THEN READ THIS INTRODUCTION TO THE RESPONDENT. This part of the interview is different from the previous parts. In the previous parts, I read you the questions and recorded your answers. For this section, I will give you the tablet so you will hear the question through the headphones while you read the question on the screen. Let me show you how this works. We have several practice questions to start off with. As a reminder, this part of the interview needs to be completed in privacy, so any parents or other youth should please leave the room now.
