

Note: *The draft you are looking for begins on the next page.*

Caution: DRAFT—NOT FOR FILING

This is an early release draft of an IRS tax form, instructions, or publication, which the IRS is providing for your information. **Do not file draft forms.** We incorporate all significant changes to forms posted with this coversheet. However, unexpected issues occasionally arise, or legislation is passed—in this case, we will post a new draft of the form to alert users that changes were made to the previously posted draft. Thus, there are never any changes to the last posted draft of a form and the final revision of the form. Forms and instructions are subject to OMB approval before they can be officially released, so we post drafts of them until they are approved. Drafts of instructions and pubs usually have some additional changes before their final release. Early release drafts are at [IRS.gov/DraftForms](https://www.irs.gov/DraftForms) and remain there after the final release is posted at [IRS.gov/LatestForms](https://www.irs.gov/LatestForms). Also see [IRS.gov/Forms](https://www.irs.gov/Forms).

Most forms and publications have a page on IRS.gov: [IRS.gov/Form1040](https://www.irs.gov/Form1040) for Form 1040; [IRS.gov/Pub501](https://www.irs.gov/Pub501) for Pub. 501; [IRS.gov/W4](https://www.irs.gov/W4) for Form W-4; and [IRS.gov/ScheduleA](https://www.irs.gov/ScheduleA) for Schedule A (Form 1040), for example, and similarly for other forms, pubs, and schedules for Form 1040. When typing in a link, type it into the address bar of your browser, not a Search box on IRS.gov.

If you wish, you can submit comments to the IRS about draft or final forms, instructions, or pubs at [IRS.gov/FormsComments](https://www.irs.gov/FormsComments). Include “NTF” followed by the form or pub number (for example, “NTF1040”, “NTFW4”, “NTF501”, etc.) in the body of the message to route your message properly. We cannot respond to all comments due to the high volume we receive and may not be able to consider many suggestions until the subsequent revision of the product, but we will review each “NTF” message. If you have comments on reducing paperwork and respondent (filer) burden, with respect to draft or final forms, please respond to the relevant information collection through the Federal Register process; for more info, click [here](#).

2025

Instructions for Schedule D (Form 1065)

Capital Gains and Losses

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Schedule D (Form 1065) and its instructions, such as legislation enacted after they were published, go to [IRS.gov/Form1065](https://www.irs.gov/Form1065).

What's New

New codes to use for reporting digital asset transactions. Codes G, H, I, J, K, and L were added to Schedule D (Form 1065), lines 1b, 2, 3, 8b, 9, and 10, to include the reporting of digital asset transactions. See Form 1099-DA, Digital Asset Proceeds From Broker Transactions, and Form 8949, Sales and Other Dispositions Of Capital Assets, and their instructions for additional information regarding digital assets.

General Instructions

Purpose of Schedule

Use Schedule D (Form 1065) to report the following.

- The total capital gains and losses from transactions reported on Form 8949.
- Certain transactions the partnership doesn't have to report on Form 8949.
- Capital gains from installment sales from Form 6252, Installment Sale Income.
- Capital gains and losses from Form 8824, Like-Kind Exchanges (and section 1043 conflict-of-interest sales).
- Partnership's share of net capital gains and losses, including specially allocated capital gains and losses, from partnerships, estates, and trusts.
- Capital gain distributions.

Note: For more information, see Pub. 544, Sales and Other Dispositions of Assets, and the Instructions for Form 8949.

Other Forms the Partnership May Have To File

Use Form 8949 to report the sale or exchange of a [capital asset](#) (defined later) not reported on another form or schedule and to report the income deferral or exclusion of capital gains. See the Instructions for Form 8949. Complete all necessary pages of Form 8949 before you complete line 1b, 2, 3, 8b, 9, or 10 of Schedule D. See [Lines 1a and 8a](#), later, for more information about when to use Form 8949.

Use Form 4684, Casualties and Thefts, to report involuntary conversions of property due to casualty or theft.

Use Form 4797, Sales of Business Property, to report the following.

- Sales or exchanges of property used in a trade or business.
- Sales or exchanges of depreciable or amortizable property.
- Sales or other dispositions of securities or commodities held in connection with a trading business, if the partnership made a mark-to-market election (see *Mark-to-market accounting method* in the Instructions for Form 1065).
- Involuntary conversions (other than from casualties or thefts).
- The disposition of noncapital assets (other than inventory or property held primarily for sale to customers in the ordinary course of a trade or business).
- Election to defer a qualified section 1231 gain invested in a qualified opportunity fund (QOF).

Use Form 6781, Gains and Losses From Section 1256 Contracts and Straddles, to report gains and losses from section 1256 contracts and straddles. If there are limited partners, see section 1256(e)(4) for the limitation on losses from hedging transactions.

Use Form 8997, Initial and Annual Statement of Qualified Opportunity Fund (QOF) Investments, if you held a qualified investment in a QOF at any time during the year. See the Form 8997 instructions.

What Are Capital Assets?

Each item of property the partnership held (whether or not connected with its trade or business) is a capital asset except the following.

- Stock in trade or other property included in inventory or held mainly for sale to customers.
- Accounts or notes receivable acquired in the ordinary course of the trade or business for services rendered or from the sale of stock in trade or other property held mainly for sale to customers.
- Depreciable or real property used in the trade or business, even if it is fully depreciated.
- Certain copyrights; literary, musical, or artistic compositions; letters or memoranda; or similar property. See section 1221(a)(3).
- Certain patents, inventions, models, or designs (whether or not patented); secret formulas or processes; or similar property.
- U.S. Government publications, including the Congressional Record, that the partnership received from

the government, other than by purchase at the normal sales price, or that the partnership got from another taxpayer who had received it in a similar way, if the partnership's basis is determined by reference to the previous owner.

- Certain commodities derivative financial instruments held by a dealer. See section 1221(a)(6).
- Certain hedging transactions entered into in the normal course of the trade or business. See section 1221(a)(7).
- Supplies regularly used in the trade or business.

Short- or Long-Term Gain or Loss

Report short-term gains or losses in Part I. Report long-term gains or losses in Part II. The holding period for short-term capital gains and losses is generally 1 year or less. The holding period for long-term capital gains and losses is generally more than 1 year. However, an exception applies for certain sales of applicable partnership interests. See [Transactions with respect to applicable partnership interests](#) under *Items for Special Treatment* below.

For more information about holding periods, see the Instructions for Form 8949.

Items for Special Treatment

- Transactions with respect to applicable partnership interests. The long-term holding period for gains and losses with respect to applicable partnership interests is more than 3 years. If the holding period is 3 years or less, gains and losses with respect to applicable partnership interests are treated as short term. An applicable partnership interest is any interest in a partnership that, directly or indirectly, is transferred to (or is held by) the taxpayer in connection with the performance of substantial services by the taxpayer, or any other related person, in any applicable trade or business. See section 1061 and Pub. 541, Partnerships, for details.
- Transactions by a securities dealer. See sections 475 and 1236; and Rev. Rul. 97-39, 1997-39 I.R.B. 4.
- Bonds and other debt instruments. See Pub. 550, Investment Income and Expenses.
- Gain on disposition of market discount bonds. In general, a capital gain upon the disposition of a market discount bond is treated as interest income to the extent of accrued market discount as of the date of disposition. See sections 1276 through 1278 and Pub. 550 for more information on market discount. See the Instructions for Form 8949 for detailed information about how to report the disposition of a market discount bond.
- Contingent payment debt instruments. Any gain recognized on the sale, exchange, or retirement of a contingent payment debt instrument subject to the noncontingent bond method is generally treated as interest income rather than as capital gain. In certain situations, all or a portion of a loss recognized on the sale, exchange, or retirement of a contingent payment debt instrument subject to the noncontingent bond method may be treated as an ordinary loss rather than as a capital loss. See Regulations section 1.1275-4(b) and Pub. 1212 for more information on contingent payment debt instruments subject to the noncontingent bond method. See the Instructions for Form 8949 for detailed information about

how to report the disposition of a contingent payment debt instrument.

- Gain on certain short-term federal, state, and municipal obligations (other than tax-exempt obligations). If a short-term governmental obligation (other than a tax-exempt obligation) that is a capital asset is acquired at an acquisition discount, a portion of any gain realized is treated as ordinary income and any remaining balance as a short-term capital gain. See section 1271.
- Certain real estate subdivided for sale that may be considered a capital asset. See section 1237.
- Gain on the sale of depreciable property to a more-than-50%-owned entity, or to a trust in which the partnership is a beneficiary, is treated as ordinary gain. See section 1239.
- Liquidating distributions from a corporation. See Pub. 550 for details.
- Gain on the sale or exchange of stock in certain foreign corporations. See section 1248.
- Gain or loss on options to buy or sell, including closing transactions. See Pub. 550 for details.
- Gain or loss from a short sale of property. See Pub. 550 for details.
- Transfer of property to a political organization if the fair market value (FMV) of the property exceeds the partnership's adjusted basis in such property. See section 84.
- Any loss on the disposition of converted wetland or highly erodible cropland that is first used for farming after March 1, 1986, is reported as a long-term capital loss on Form 8949/Schedule D, but any gain on such a disposition is reported as ordinary gain on Form 4797. See section 1257 for details.
- Transfer of partnership assets and liabilities to a newly formed corporation in exchange for all of its stock. See Rev. Rul. 84-111, 1984-2 C.B. 88.
- Disposition of foreign investment in a U.S. real property interest. See section 897.
- Any loss from a sale or exchange of property between the partnership and certain related persons isn't allowed, except for distributions in a complete liquidation of a corporation. See sections 267 and 707(b) for details.
- Any loss from securities that are capital assets that become worthless during the year is treated as a loss from the sale or exchange of a capital asset on the last day of the tax year.
- Nonrecognition of gain on sale of stock to an employee stock ownership plan (ESOP) or an eligible cooperative. See section 1042 and Temporary Regulations section 1.1042-1T for rules under which a taxpayer may elect not to recognize gain from the sale of certain stock to an ESOP or an eligible cooperative. Under section 703(b), the partnership is the appropriate entity to make the 1042 election.
- A nonbusiness bad debt must be treated as a short-term capital loss and can be deducted only in the year the debt becomes totally worthless. See Pub. 550 for more details.
- Any loss from a wash sale of stock or securities (including contracts or options to acquire or sell stock or securities) cannot be deducted unless the partnership is a dealer in stock or securities and the loss was sustained in a transaction made in the ordinary course of the

partnership's trade or business. A wash sale occurs if the partnership acquires (by purchase or exchange), or has a contract or option to acquire, substantially identical stock or securities within 30 days before or after the date of the sale or exchange. See section 1091 for more information. Report a wash sale transaction on Form 8949, Part I or II (with the appropriate box checked), depending on how long the partnership owned the stock or securities. Enter "W" in column (f) and enter as a positive number in column (g) the amount of the loss not allowed. Complete all remaining columns. See the Instructions for Form 8949.

- **Gain from installment sales.** If the partnership sold property at a gain and it will receive a payment in a tax year after the year of sale, it must generally report the sale on the installment method unless it elects not to. However, the installment method may not be used to report sales of stock or securities traded on an established securities market. Use Form 6252 to report the sale on the installment method. Also use Form 6252 to report any payment received during the tax year from a sale made in an earlier year that was reported on the installment method.

If the partnership wants to elect out of the installment method for installment gain that isn't specially allocated among the partners, it must report the full amount of the gain on Form 8949 on a timely filed return (including extensions) for the year of the sale.

If the partnership wants to elect out of the installment method for installment gain that is specially allocated among the partners, it must do the following on a timely filed return (including extensions).

1. For a short-term capital gain, report the full amount of the gain on Schedule K, line 8 or 11.

For a long-term capital gain, report the full amount of the gain on Schedule K, line 9a or 11. Report the collectibles gain (28% rate gain) on Schedule K, line 9b.

2. Enter each partner's share of the full amount of the gain in box 8 or 9a of Schedule K-1, or in box 11 using code I, whichever applies. Report the collectibles gain (28% rate gain) in box 9b of Schedule K-1.

If the partnership filed its original return on time without making the election, it may make the election on an amended return filed no later than 6 months after the due date of the return (excluding extensions). Enter "Filed pursuant to section 301.9100-2" at the top of the amended return.

- A sale or other disposition of an interest in a partnership owning unrealized receivables or inventory items may result in ordinary gain or loss. See Pub. 541 for more details.
- **Gain from certain constructive ownership transactions.** Gain in excess of the net underlying long-term gain the partnership would have recognized if it had held a financial asset directly during the term of a derivative contract must be treated as ordinary income. See section 1260 for details.
- **Gain from the sale of collectibles.** Report any collectibles gain (28% rate gain) (loss) included on lines 8a through 14 on line 9b of Schedule K (and each partner's share in box 9b of Schedule K-1). A collectibles gain (28% rate gain) (loss) is any long-term gain or

deductible long-term loss from the sale or exchange of a collectible that is a capital asset.

Collectibles include works of art, rugs, antiques, metals (such as gold, silver, and platinum bullion), gems, stamps, coins, alcoholic beverages, and certain other tangible property.

Report any 28% gain or loss from a sale or exchange of a collectible on Form 8949, Part II (with the appropriate box checked). See the Instructions for Form 8949.

Also include gain (but not loss) from the sale or exchange of an interest in a partnership or trust held more than 1 year and attributable to unrealized appreciation of collectibles. For details, see Regulations section 1.1(h)-1. Also, attach the statement required under Regulations section 1.1(h)-1(e).

Special rules for traders in securities. Traders in securities are engaged in the business of buying and selling securities for their own account. To be engaged in business as a trader in securities:

- The partnership must seek to profit from daily market movements in the prices of securities and not from dividends, interest, or capital appreciation;
- The partnership's trading activity must be substantial; and
- The partnership must carry on the activity with continuity and regularity.

The following facts and circumstances should be considered in determining if a partnership's activity is a business.

- Typical holding periods for securities bought and sold.
- The frequency and dollar amount of the partnership's trades during the year.
- The extent to which the partners pursue the activity to produce income for a livelihood.
- The amount of time devoted to the activity.

Like an investor, a trader must generally report each sale of securities (taking into account commissions and any other costs of acquiring or disposing of the securities) on Form 8949 unless one of the exceptions described in the Instructions for Form 8949 applies. However, if a trader made the mark-to-market election (see *Mark-to-market accounting method* in the Instructions for Form 1065), each transaction is reported in Part II of Form 4797 instead of Form 8949.

Regardless of whether a trader reports its gains and losses on Form 8949 or Form 4797, the gain or loss from the disposition of securities isn't taken into account when figuring net earnings from self-employment on Schedules K and K-1. See section 1402(i) for an exception that applies to section 1256 contracts.

The limitation on investment interest expense that applies to investors doesn't apply to interest paid or incurred in a trading business. A trader reports interest expense and other expenses (excluding commissions and other costs of acquiring or disposing of securities) from a trading business on page 1 of Form 1065.

A trader may also hold securities for investment. The rules for investors will generally apply to those securities. Allocate interest and other expenses between the partnership's trading business and its investment

securities. Investment interest expense is reported on line 13c of Schedule K and in box 13 of Schedule K-1 using code H.

Constructive sale treatment for certain appreciated positions. Generally, the partnership must recognize gain (but not loss) on the date it enters into a constructive sale of any appreciated position in stock, a partnership interest, or certain debt instruments as if the position were disposed of at FMV on that date.

The partnership is treated as making a constructive sale of an appreciated position when it (or a related person, in some cases) does one of the following.

- Enters into a short sale of the same or substantially identical property (that is, a “short sale against the box”).
- Enters into an offsetting notional principal contract relating to the same or substantially identical property.
- Enters into a futures or forward contract to deliver the same or substantially identical property.
- Acquires the same or substantially identical property (if the appreciated position is a short sale, an offsetting notional principal contract, or a futures or forward contract).

Exception. Generally, constructive sale treatment doesn't apply if:

- The partnership closed the transaction before the end of the 30th day after the end of the tax year in which it was entered into,
- The partnership held the appreciated position to which the transaction relates throughout the 60-day period starting on the date the transaction was closed, and
- At no time during that 60-day period was the partnership's risk of loss reduced by holding certain other positions.

For details and other exceptions to these rules, see Pub. 550.

Rollover of gain from qualified stock. If the partnership sold qualified small business stock (defined below) it held for more than 6 months, it may postpone gain if it purchased other qualified small business stock during the 60-day period that began on the date of the sale. The partnership must recognize gain to the extent the sale proceeds exceed the cost of the replacement stock. Reduce the basis of the replacement stock by any postponed gain.

If the partnership chooses to postpone gain, report the sale on Form 8949, Part I or II (with the appropriate box checked), as it would be reported if the election was not made. Then enter “R” in column (f). Enter the amount of the postponed gain as a negative number (in parentheses) in column (g). See the Instructions for Form 8949.

Attach a statement to Form 1065 that (a) identifies the replacement qualified small business stock, (b) shows the computation of the adjustment to the partnership's basis in the replacement stock for the amount of any postponed gain under section 1045, and (c) shows the dates on which the replacement stock was acquired by the partnership.

Caution: The partnership must also separately state the amount of the gain rolled over on qualified stock under section 1045 on Form 1065, Schedule K, line 11. Each

partner must determine if they qualify for the rollover at the partner level or if they want to opt out of the section 1045 election. Also, the partnership must separately state on that line any gain that would qualify for the section 1045 rollover at the partner level instead of the partnership level (because a partner was entitled to purchase replacement stock) and any gain on qualified stock that could qualify for an exclusion under section 1202.

To be qualified small business stock, the stock must meet all of the following tests.

- It must be stock in a C corporation (that is, not S corporation stock).
- It must have been originally issued after August 10, 1993.
- As of the date the stock was issued, the corporation was a qualified small business. A qualified small business is a domestic C corporation with total gross assets of \$75 million (\$50 million if the stock was issued on or before July 4, 2025) or less (a) at all times after August 9, 1993, and before the stock was issued; and (b) immediately after the stock was issued. Gross assets include those of any predecessor of the corporation. All corporations that are members of the same parent-subsidiary controlled group are treated as one corporation.
- The partnership must have acquired the stock at its original issue (either directly or through an underwriter), either in exchange for money or other property or as pay for services (other than as an underwriter) to the corporation. In certain cases, the partnership may meet the test if it acquired the stock from another person who met this test (such as by gift or at death) or through a conversion or exchange of qualified small business stock by the holder.
- During substantially all the time the partnership held the stock:

1. The corporation was a C corporation;
2. At least 80% of the value of the corporation's assets were used in the active conduct of one or more qualified businesses (defined below); and
3. The corporation was not a foreign corporation, domestic international sales corporation (DISC), former DISC, corporation that has made (or that has a subsidiary that has made) a section 936 election before March 23, 2018, regulated investment company (RIC), real estate investment trust (REIT), real estate mortgage investment conduit (REMIC), financial asset securitization investment trust (FASIT), or cooperative.

Note: A specialized small business investment company (SSBIC) is treated as having met test 2 above.

A qualified business is any business other than the following.

- One involving services performed in the field of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, athletics, financial services, or brokerage services.
- One whose principal asset is the reputation or skill of one or more employees.
- Any banking, insurance, financing, leasing, investing, or similar business.
- Any farming business (including the raising or harvesting of trees).

- Any business involving the production of products for which percentage depletion can be claimed.
- Any business of operating a hotel, motel, restaurant, or similar business.

Exclusion of gain from qualified community assets.

If the partnership sold or exchanged a qualified community asset acquired after 2001 and before 2010, that it held for more than 5 years, it can exclude any qualified capital gain. The exclusion applies to an interest in, or property of, certain qualified community assets.

Qualified community asset. A qualified community asset is any of the following.

- Qualified community stock.
- Qualified community partnership interest.
- Qualified community business property.

Qualified capital gain. Qualified capital gain is any gain recognized on the sale or exchange of a qualified community asset but doesn't include any of the following.

- Gain attributable to periods after December 31, 2014.
- Gain treated as ordinary income under section 1245.
- Section 1250 gain figured as if section 1250 applied to all depreciation rather than the additional depreciation.
- Gain attributable to real property, or an intangible asset, that isn't an integral part of a renewal community business.
- Gain from a related-party transaction. See *Sales and Exchanges Between Related Persons* in chapter 2 of Pub. 544.
- Gain on the sale of an interest in a partnership or stock of an S corporation, which is a renewal community business during substantially all of the period you held such interest or stock, attributable to real property or an intangible asset which isn't an integral part of the renewal community business.

See section 1400F (as in effect before its repeal on March 23, 2018) for more details and special rules.

How to report. If applicable, report the sale or exchange on Form 8949, Part II (with the appropriate box checked), as it would be reported if the exclusion was not taken. Enter "X" in column (f) and enter the amount of the exclusion as a negative number (in parentheses) in column (g). See the Instructions for Form 8949.

Deferral of gain invested in a qualified opportunity fund (QOF). If the partnership realized gain from an actual, or deemed, sale or exchange with an unrelated person and during the 180-day period beginning on the date the gain was realized, invested an amount of the gain in a QOF, the partnership may be able to elect to temporarily defer part or all of the gain that would otherwise be included in income. If the partnership makes the election, the gain included in income is only to the extent, if any, the amount of realized gain exceeds the aggregate amount invested in a QOF during the 180-day period beginning on the date gain is realized. The partnership may also be able to permanently exclude the gain from the sale or exchange of any investment in a QOF if the investment is held for at least 10 years. For more information, see section 1400Z-2.

Qualified opportunity fund (QOF). A QOF is any investment vehicle that is organized as either a corporation or partnership for the purpose of investing in

eligible property that is located in a Qualified Opportunity Zone.

Eligible gain. Gain that is eligible to be deferred if it is invested in a QOF includes any amount treated as a capital gain for federal income tax purposes.

How to report. Report the eligible gain on Schedule D (Form 1065) as it would otherwise be reported if the partnership were not making the election. See the Instructions for Form 8949 for how to report the deferral. You will need to attach Form 8997 annually until you dispose of the QOF investment. For more information, see Form 8997 and its instructions.

Exclusion of gain from DC Zone assets. If the partnership sold or exchanged a District of Columbia Enterprise Zone (DC Zone) asset that it held for more than 5 years, it may be able to exclude the qualified capital gain. The DC Zone asset must have been acquired after 1997, and before 2012, to qualify as an asset for which the partnership may be able to take the exclusion. The sale or exchange of DC Zone capital assets reported on Form 8949 and Schedule D includes the following.

- Stock in a domestic corporation that was a DC Zone business.
- Interest in a partnership that was a DC Zone business. Report the sale or exchange of tangible property used in the partnership's DC Zone business on Form 4797.

Gains not qualified for exclusion. The following gains don't qualify for the exclusion of gain from DC Zone assets.

- Gain attributable to periods after 2016.
- Gain on the sale of an interest in a partnership or stock of an S corporation, which is a DC Zone business during substantially all of the period you held such interest or stock attributable to real property or an intangible asset which isn't an integral part of the DC Zone business.
- Gain from a related-party transaction. See *Sales and Exchanges Between Related Persons* in chapter 2 of Pub. 544.
- Gain treated as ordinary income under section 1245.
- Section 1250 gain figured as if section 1250 applied to all depreciation rather than the additional depreciation.
- Gain attributable to real property, or an intangible asset, that isn't an integral part of a DC Zone business.

See section 1400B (as in effect before its repeal on March 23, 2018) for more details on DC Zone assets and special rules.

How to report. If applicable, report the sale or exchange of a DC Zone asset on Form 8949, Part II (with the appropriate box checked), as it would be reported if the exclusion was not taken. Enter "X" in column (f) and enter the amount of the exclusion as a negative number (in parentheses) in column (g). See the Instructions for Form 8949.

Undistributed long-term gains from a regulated investment company (RIC) or real estate investment trust (REIT). Report the partnership's share of long-term gains from Form 2439, Notice to Shareholder of Undistributed Long-Term Capital Gains, on Form 8949, Part II (with box F checked). Enter "From Form 2439" in column (a). Enter the gain in column (h). Leave all other columns blank. See the Instructions for Form 8949.

NAV method for certain money market funds. Report capital gain or loss determined under the net asset value (NAV) method with respect to shares in a NAV money market fund on Form 8949, Part I, with box C or box 1 checked. Enter the name of each fund followed by "(NAV)" in column (a). Enter the net gain or loss in column (h). Leave all other columns blank. See the Instructions for Form 8949.

Specific Instructions

Complete all necessary pages of Form 8949 before completing line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Rounding Off to Whole Dollars

Cents can be rounded to whole dollars on Schedule D. If cents are rounded to whole dollars, all amounts must be rounded. To round, drop cent amounts under 50 and increase cent amounts over 49 to the next dollar. For example, \$1.49 becomes \$1 and \$1.50 becomes \$2.

If two or more amounts must be added to figure the amount to enter on a line, include cents when adding the amounts and round only the total.

Lines 1a and 8a—Transactions Not Reported on Form 8949

The partnership can report on line 1a (for short-term transactions) or line 8a (for long-term transactions) the aggregate totals from any transactions (except sales of collectibles) for which:

- The partnership received a Form 1099-B or Form 1099-DA (or substitute statement) that shows basis was reported to the IRS and doesn't show any adjustment in box 1f or 1g of Form 1099-B or box 1h or 1i of Form 1099-DA;
- The "Ordinary" checkbox in box 2 of Form 1099-B or box 6 of Form 1099-DA (or substitute statement) isn't checked;
- The "QOF" checkbox in box 3 of Form 1099-B or box 3b of Form 1099-DA (or substitute statement) isn't checked; and
- The partnership doesn't need to make any adjustments to the basis or type of gain or loss (short term or long term) reported on Form 1099-B or Form 1099-DA (or substitute statement), or to its gain or loss.

See *How To Complete Form 8949, Columns (f) and (g)* in the Instructions for Form 8949 for details about possible adjustments to the partnership's gain or loss.

If the partnership chooses to report these transactions on lines 1a and 8a, don't report them on Form 8949.

Figure gain or loss on each line. Subtract the cost or other basis in column (e) from the proceeds (sales price) in column (d). Enter the gain or loss in column (h). Enter negative amounts in parentheses.

Example 1—basis reported to the IRS. The partnership received a Form 1099-B or Form 1099-DA reporting the sale of stock or digital asset held for 3 years, showing proceeds (in box 1d of Form 1099-B or box 1f of Form 1099-DA) of \$6,000 and cost or other basis (in box 1e of Form 1099-B or box 1g of Form 1099-DA) of \$2,000. Box 12 of Form 1099-B or box 2 of Form 1099-DA is checked, meaning that basis was reported to the IRS.

The partnership doesn't need to make any adjustments to the amounts reported on Form 1099-B or Form 1099-DA or enter any codes. This was the partnership's only 2025 transaction. Instead of reporting this transaction on Form 8949, the partnership can enter \$6,000 in column (d) of Schedule D, line 8a; \$2,000 in column (e); and \$4,000 (\$6,000 – \$2,000) in column (h).

If the partnership had a second transaction that was the same except that the proceeds were \$5,000 and the basis was \$3,000, combine the two transactions. Enter \$11,000 (\$6,000 + \$5,000) in column (d) of Schedule D, line 8a; \$5,000 (\$2,000 + \$3,000) in column (e); and \$6,000 (\$11,000 – \$5,000) in column (h).

Example 2—basis not reported to the IRS. The partnership received a Form 1099-B or Form 1099-DA showing proceeds (in box 1d of Form 1099-B or box 1f of Form 1099-DA) of \$6,000 and cost or other basis (in box 1e of Form 1099-B or box 1g of Form 1099-DA) of \$2,000. Box 12 of Form 1099-B or box 2 of Form 1099-DA isn't checked, meaning that basis wasn't reported to the IRS. Don't report this transaction on line 1a or line 8a. Instead, report the transaction on Form 8949. Complete all necessary pages of Form 8949 before completing line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Example 3—adjustment. The partnership received a Form 1099-B or Form 1099-DA showing proceeds (in box 1d of Form 1099-B or box 1f of Form 1099-DA) of \$6,000 and cost or other basis (in box 1e of Form 1099-B or box 1g of Form 1099-DA) of \$2,000. Box 12 of Form 1099-B or box 2 of Form 1099-DA is checked, meaning that basis was reported to the IRS. However, the basis shown in box 1e of Form 1099-B or box 1g of Form 1099-DA is incorrect. Don't report this transaction on line 1a or line 8a. Instead, report the transaction on Form 8949. See the instructions for columns (f), (g), and (h) of Form 8949. Complete all necessary pages of Form 8949 before completing line 1b, 2, 3, 8b, 9, or 10 of Schedule D.

Lines 1b, 2, 3, 8b, 9, and 10, Column (h)—Transactions Reported on Form 8949

Figure gain or loss on each line. First, subtract cost or other basis (column (e)) from proceeds/sales price (column (d)). Then, combine the result with any adjustments in column (g). Enter the gain or loss in column (h). Enter negative amounts in parentheses.

Example 1—gain. Column (d) is \$6,000 and column (e) is \$2,000. Enter \$4,000 in column (h).

Example 2—loss. Column (d) is \$6,000 and column (e) is \$8,000. Enter (\$2,000) in column (h).

Example 3—adjustment. Column (d) is \$6,000, column (e) is \$2,000, and column (g) is (\$1,000). Enter \$3,000 (\$6,000 – \$2,000 – \$1,000) in column (h).

Lines 6 and 13—Capital Gains (Losses) From Other Partnerships, Estates, and Trusts

See the Schedule K-1 or other information supplied to the partnership by the other partnership, estate, or trust.

Line 14—Capital Gain Distributions

Enter on line 14 the total capital gain distributions paid to the partnership during the year.
