Title: FERC-542, Gas Pipelines Rates: Rate Tracking

OMB Control No.: 1902-0070

Type of Request: Three-year extension of the FERC-542 information collection requirements with no changes to the reporting requirements.

Abstract: The Commission uses FERC-542 filings to verify that costs which are passed through to pipeline customers as rate adjustments are consistent with the Natural Gas Policy Act (NGPA), 15 U.S.C. 3301-3432, and sections 4 and 5 of the Natural Gas Act (NGA), 15 U.S.C. 717c and 717d. These statutory provisions require FERC to regulate the transmission and sale of natural gas for resale in interstate commerce at just and reasonable rates. This collection of information is also in accordance with section 16 of the NGA, 15 U.S.C. 717o, which authorizes FERC to implement the NGA through its rules and regulations.

The regulations at 18 C.F.R. Part 154 include provisions that allow an interstate natural gas pipeline to submit filings seeking to:

- Recover research, development and demonstration expenditures (18 C.F.R. § 154.401);

- Recover annual charges assessed under 18 C.F.R. Part 382 (18 C.F.R. § 154.402); and
- Passthrough, on a periodic basis, a single cost or revenue item such as fuel use and unaccounted-for natural gas in kind (18 C.F.R. § 154.403).

FERC-542 filings may be submitted at any time or on a regularly scheduled basis in accordance with the pipeline company's tariff. Filings may be: (1) accepted; (2) suspended and set for hearing; (3) minimal suspension; or (4) suspended for further review, such as technical conference or some other type of Commission action. The Commission implements these filing requirements under 18 C.F.R. Part 154.

Type of Respondents: Jurisdictional Natural Gas Pipelines
