

public from accessing hazardous areas, thus reducing the potential for such injuries and deaths.

The boundary between YPG and BLM land lacks a contiguous physical landmark demarcating the two areas, which has led to unintentional public intrusions onto YPG. The requested withdrawal area extends to Highway 95 and would establish the highway as a distinct physical landmark for the YPG boundary, thereby improving public safety.

In addition to the Army's proposed action, the Final LEIS analyzes an alternative for a withdrawal of a shorter period and a No-Action Alternative.

Under limited-duration withdrawal, Congress would withdraw and reserve for Army use the same area, with the same boundary and land management provisions as the proposed action, but the duration of the Highway 95 withdrawal would be limited to a shorter period (*i.e.*, 25 years) rather than being of indefinite duration.

No-Action Alternative: Congress would not enact legislation to withdraw and reserve the land as requested. The BLM would retain management responsibility for the 22,000 acres of public lands. Under this alternative, YPG would not meet mission requirements, but limited military testing and training would continue within the present-day YPG boundary. While the No-Action Alternative would not satisfy the purpose of or need for the proposed action, this alternative was retained to provide a comparative baseline against which to analyze the effects of the action alternatives.

The Final LEIS evaluates the potential direct, indirect, and cumulative environmental and socioeconomic effects of the proposed action. The resource areas and effects analyzed in the Final LEIS include biological resources, cultural resources, existing land use, recreation, socioeconomics, air quality, greenhouse gas, and environmental justice. The analysis includes minimization measures, standard operating procedures, and best management practices routinely employed by YPG to reduce potential adverse effects of the proposed action.

The air quality, greenhouse gas, and environmental justice analyses were prepared according to now-rescinded Executive Orders, the Council on Environmental Quality's NEPA implementing regulations, which have been rescinded, and the Army's NEPA implementing regulation, which has also been rescinded. Because analysis regarding air quality, greenhouse gases, and environmental justice was already provided to the public for comment,

such analysis is included in the Final LEIS for purposes of consistency and clarity.

Under the proposed action (*i.e.*, the withdrawal of BLM lands for an indefinite duration), there would be less-than-significant effects on all evaluated resources. The withdrawal alternatives would result in minor adverse effects to land use and recreation, but none of the effects would be significant. The proposed action would transfer management of these lands from one federal agency to another and the Army's environmental compliance requirements would be the same as those for the BLM. If the withdrawal is approved by Congress, the Army would conduct consultation on future actions under the National Historic Preservation Act and the Endangered Species Act, as appropriate.

The environmental effects from the shorter-duration withdrawal alternative would be comparable to those discussed for the proposed action, but for a specific duration.

Federal, state, and local agencies, federally-recognized Indian Tribes and other Native American organizations, and the general public were invited to be involved in the public comment process for the Draft LEIS. The public comment period began with the publication of a Notice of Availability of the Draft LEIS in the **Federal Register**. The Army held two virtual public meetings during the review period. The Army considered all comments received on the Draft LEIS when preparing the Final LEIS.

Congress will receive the Final LEIS as part of the withdrawal case file, in coordination with the Department of the Interior, to support this proposed withdrawal. Congress will make the decision on whether to authorize the requested land withdrawal and reservation.

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice of request for comments.

SUMMARY: The Department of Energy (DOE) has submitted an information collection package to the Office of Management and Budget (OMB) for

extension under the provisions of the Paperwork Reduction Act of 1995. The package requests a three-year extension of its existing Report for State and Alternative Fuel Provider Fleets, OMB Control Number 1910-5101. This information collection package covers information necessary to ensure compliance of covered fleets with the requirements of the Energy Policy Act of 1992, as amended.

DATES: Comments regarding this proposed information collection must be received on or before September 2, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the period allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4718.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Smith, Office of Energy Efficiency and Renewable Energy (EE-3V), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0121, (202)-287-5151 or by email at Mark.Smith@ee.doe.gov.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains:

- (1) *OMB No.*: 1910-5101;
- (2) *Information Collection Request Titled:* Annual Alternative Fuel Vehicle Acquisition Report for State Government and Alternative Fuel Provider Fleets;
- (3) *Type of Review:* Extension;

(4) *Purpose*: The information is required so that DOE can determine whether alternative fuel provider and State government fleets are in compliance with the alternative fuel vehicle acquisition mandates of sections 501 and 507(o) of the Energy Policy Act of 1992, as amended (EPA Act), whether such fleets should be allocated credits under section 508 of EPA Act are in compliance with the applicable requirements. The information collection instrument is completed online, via password protected web page; for review purposes the same instrument is available online at <https://epact.energy.gov/docs/reporting-spreadsheet.xls>.

(5) *Annual Estimated Number of Respondents*: 303;

(6) *Annual Estimated Number of Total Responses*: 319;

(7) *Annual Estimated Number of Burden Hours*: 2,215;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$197,644.
