**63.2281 Semiannual Compliance Report** 

63.2281

**ICR Draft** 

3/2/2023

OMB No.: 2060-0552 Form 5900-601 For further Paperwork Reduction Act information see: https://www.epa.gov/electronic-reporting-air-emissions/paperwork-reduction-act-pra-cedri-and-ert

# 40 CFR Part 63, Subpart DDDD -- Plywood and Composite Wood Products Semiannual Compliance Reporting Spreadsheet Template Welcome and Instructions

#### **Purpose:**

This spreadsheet template was designed by the U.S. EPA to facilitate semiannual compliance reporting under 40 CFR part 63, The semiannual reporting requirements included in this report are found in §63.2281.

#### **Electronic Reporting:**

Electronic submission of semiannual compliance reports through the EPA's Compliance and Emissions Data Reporting (CEDRI) CEDRI is accessed through the EPA's Central Data Exchange: https://cdx.epa.gov

This spreadsheet template may be uploaded to CEDRI to fulfill the electronic reporting requirement under §63.2281(h).

For a semiannual report, you may reference a single file attachment (described further below) that includes additional inform

#### **How to Submit the Report:**

IMPORTANT: The spreadsheet must be uploaded into CEDRI as a single ZIP file, which must include this Excel workbook and a additional information file noted in the "General\_Requirements" tab).

Note: If you are uploading file attachments for your report, the uploaded files may be in any format (e.g., zip, docx, PDF) first zip the excel file(s) into a separate ZIP file to the master ZIP file that will be uploaded into CEDRI.

Once all data have been entered in the worksheet, combine this Excel workbook and all attachment files (including any ZIP file upload to CEDRI.

Example: A file "Jan-June2019-Report.zip" uploaded into CEDRI could contain two files:

- 1. Completed\_semiannual\_reporting\_spreadsheet\_Jan-June2019.xlsx
- 2. Attachments.zip
  - -The "Attachments.zip" file could contain as many attachments of any format (xlsx, xls, docx, pdf, zip, etc.) as needed.
  - -If you only have one file to attach, you do not need to zip it unless it is an Excel file (.xlsx, .xls).

Do not submit information you claim as confidential business information (CBI) to EPA via CEDRI. EPA will make all the infor without further notice to you. Anything submitted using CEDRI cannot later be claimed to be CBI. Furthermore, under CAA secrequires EPA to make emissions data available to the public. Thus, emissions data will not be protected as CBI and will be made

Welcome 1 of 851

Although we do not expect persons to assert a claim of CBI, if persons wish to assert a CBI claim, you must submit the report information claimed to be CBI, to EPA on a compact disc, flash drive, or other commonly used electronic storage media via U.S as CBI and then identify electronically within the digital s is specified, mail the media to:

U.S. EPA/OAQPS/CORE CBI Office Attention: Group Lead Measurement Policy Group MD C404-02 4930 Old Page Rd Durham, North Carolina 27703

#### **Template Navigation and Tabs to Complete:**

All semiannual reports will include the gray General\_Requirements and Equip\_Description tabs. Complete green tabs as ne

<u>Gray tab</u>: All semiannual compliance reports must complete the information in the gray tabs (*General\_Requirements* and *Equ* from one semiannual reporting period to the next. Complete the gray tabs and save the workbook for subsequent reporting previously provided and update it as necessary.

Green tabs: Only complete a green tab appropriate for the circumstances of the facility.

If the facility utilized the startup/shutdown work practices, complete the SS\_WorkPractUse and SS\_WorkPractDetails tabs. If the facility operated while a control device was offline, complete the RCDME\_Events and RCDME\_Summary tabs (visible de If the facility had deviations at sources where you are not using a continuous monitoring system (CMS) to comply, complete the facility had deviations at sources where CMS were used to comply, complete the CMS, CMS\_Inoperative\_or\_Out\_of\_Coas applicable.

If the facility had any CMS, process, or control changes over the reporting period, complete the *Description\_of\_Changes* tab. If the facility has Lumber Kilns, complete the *Lumber Kilns* tab.

If the facility has combustion units subject to the tune-up work practice of §63.2241(d), complete the CU Tune-up tab.

#### Notes

-An auto-numbered index column appears on several sheets to provide an easy way to correlate rows of data if the tab is print -Within the tabs, example rows are colored light red, and the XML tags are colored green. These colored rows are locked; no d columns contain auto-calculated values, these are colored light pink and locked to prevent accidental deletion of formulas.

-If printing or if you wish to hide the example rows, the filter button on the header row of longer tables may be used to hide bl

#### **Due Date:**

Each semiannual compliance report must be submitted no later than July 31 or January 31, whichever date is the first date fol

#### **Semiannual Compliance Report - General Requirements**

#### **Facility Information**

Provide the company name, facility site name associated with the affected facility, the FRS ID, and the address of the affected facility. [§63.2281(c)(1)]

1. Company Name:	
2. Facility site name for the affected facility:	
3. Facility Registry Service (FRS) number for the affected facility:	
4. Address of the affected facility:	
A. Address 1:	
B. Address 2:	
C. City:	
D. County:	
E. State Abbreviation (Select from dropdown):	
F. Zip Code:	
5. Description of the site location and provide the latitude and longit	ude coordinates of the site:
A. Description of the site location:	
B. Latitude: (North American Datum format to six decimals)	
C. Longitude: (North American Datum format to six decimals)	
Reporting Period Dates	
Provide the beginning and ending date of the reporting period in MM/	/DD/YYYY format. [\$63.2281(c)(3)]
1. Beginning date:	01/01/2020
2. Ending date:	06/30/2020
Site-specific Preapproved Operations:	
Does this facility operate Lumber Kilns?	Yes
Is this facility subject to the combustion unit tune up requirements of §63.2241(d)?	Yes
For PCWP facilities was any routine control device maintenance performed according to an approved routine control device maintenance exemption (RCDME) under §63.2251 while the control device was offline and one or more of the process units controlled by the control device continued to operate?  (Select from dropdown)	Yes
Is the statement "There were no deviations from the compliance options, operating requirements, or work practice requirements during this reporting period" valid? [§63.2281(c)(7)] (Select from dropdown)	
Is the statement "There were no periods where the CMS was out- of-control during this reporting period" valid? [\$63.2281(c)(8)] (Select from Dropdown)	
Additional Information	

#### **Semiannual Compliance Report - General Requirements**

**Facility Information** 

rovide any additional information and the filenames of any attached files related to this report below.		
Please enter any additional information:		
Filename of any additional files:		
Is a separate submission containing Confidential Business Information being submitted according to 63.2281(k) and 63.9(k)? (Select from dropdown)		

#### **Equipment Description**

List each process unit and control device subject to or used to meet a compliance option, operating requirement or work practice requirement in the 40 CFR part 63, subpart DDDD.

#### **Equipment Description**

List each process unit and control device subject to or used to meet a compliance option, operating requirement or work practice requirement in the 40 CFR part 63, subpart DDDD.

(1) List each process unit subject to the rule interviously in a separate row and identify all of the process unit(s) it controls in the description column.

(3) If any process units or control devices have multiple emission points to the atmosphere where each emission point has its own CMS, then you should also list each emission point with its own CMS in a separate row and clearly describe the equipment configuration.

(4) List each combustion unit direct firing a dryer in a separate row.

(5) List each combustion process unit hypass stack separately [863 2281] Facility:

Reporting Period: 01/01/2020 - 06/30/2020

Name of Process Unit or Control Device at Affected Source	
(For cross-reference to subsequent tabs)	Brief Description of Process Unit and Process-Control Configuration [§63.2281(e)(8)]
EquipDesc	ConfigurationDescription
e.g.: Dryer 1	e.g.: Steam heated veneer dryer 1. Emissions from 3 heated zones controlled by RCO (CD-001).
e.g.: Dryer 2	e.g.: Steam heated veneer dryer 2. Emissions from 2 heated zones controlled by RCO (CD-001).
e.g.: RCO	e.g.: RCO (CD-001) shared control for heated zones from 2 veneer dryers.
e.g.: Dryers 1 and 2	e.g.: Combined entry for Dryers 1 and 2 (also listed above)
e.g.: RMH process units	e.g.: 2 blenders, 1 former, 2 finishing sanders, and 5 finishing saws
e.g.: Furnace (Press control)	e.g.: Onsite combustion unit that provides direct-wood-fired heat to 3 dryers and controls press emissions in the flame zone. The emissions from the press, furnace, and dryers then exit through 3 WESPs (one per dryer) and two parallel RTOs (RTO-North and RTO-South) that each have their own stacks.
	e.g.: Dryer A is a direct wood-fired rotary dryer that vents though a dedicated WESP before combining with other dryers' exhausts that are vented through parallel RTOs (RTO-North and RTO-South) that each have their own stacks.
e.g.: RTO-North	e.g.: RTO-North is one of two parallel RTOs controlling direct-fired dryer emissions. The dryers are fired by the furnace and each vent through a dedicated WESP before exhausts combine and are routed through the RTOs.
e.g.: RTO-South	e.g.: RTO-South is one of two parallel RTOs controlling direct-fired dryer emissions. The dryers are fired by the furnace and each vent through a dedicated WESP before exhausts combine and are routed through the RTOs.
e.g.: Press (P100)	e.g.: Press P100 is a multi-opening, batch OSB press surrounded by a wood products enclosure with HAP emissions ducted the to furnace flame zone for control.

#### **Revisions**

Draft version released in Docket with proposed rule

Draft version released in Docket at promulgation

Correct calculations in formulas in columns M and N on CMS\_Deviation\_Summary to correctly select data from CMS\_Detail. Corrected examples on various tabs. Correct various formatting issues such as bolding, font color, and wrapping text. Revise text in cell E12 of Deviation\_noCMS, added "e.g.:" to blank hidden example rows to make re-hiding easier when filtering used, removed calculation and flagging of 100 hour mark for SS\_WorkPractuse and revised the column to allow for optional additional information to be provided, Changed header of column D on SS\_WorkPracUse and SS\_WorkPractDetails and instructions on the SS\_WorkPractDetails tab.

Added 50 rows to Equip\_Description data entry, Reworded statements on deviations on the General\_Requirements tab to clarify a Yes response indicates there were no deviations, added "Not Applicable (There are no CMS)" answer to CMS out of control question.

Added PRA information to Welcome, updated to remove Emissions Averaging tabs and all associated references, updated dropdown lists throuhout to reflect new standards and work practices; On General Requirements, added clarification that RCDME only applies to PCWP facilities, added rows asking about Lumber Kilns and Burner Tune-up to show those tabs when required, added CBI submittal question; SS\_WorkPractUse corrected Reporting Period link to display correct dates, added column to indicate when to complete the SS\_WorkPractDetail tab; CMS\_Deviation - added additional columns for pollutant estimated emissions, moved method of estimate to before first pollutant to limit unnecessary scrolling; Lumber Kilns - Added tab for new requirements for lumber kilns; Added tab to address new combustion unit tune up requirements; Updated examples on many tabs to reflect new standards
