

Appendix A for NASA Special Events PRA (6.2025)

<https://my.nasa.gov/specialevents/s/>

Guests Select Available Events in Two Ways.

1. From the portal itself
2. After receiving a link via email with the event opportunity that directs them to the portal

The Privacy Act Statement is available via a footer link when guests are taking any actions related to NASA Special Events

Privacy Act Statement

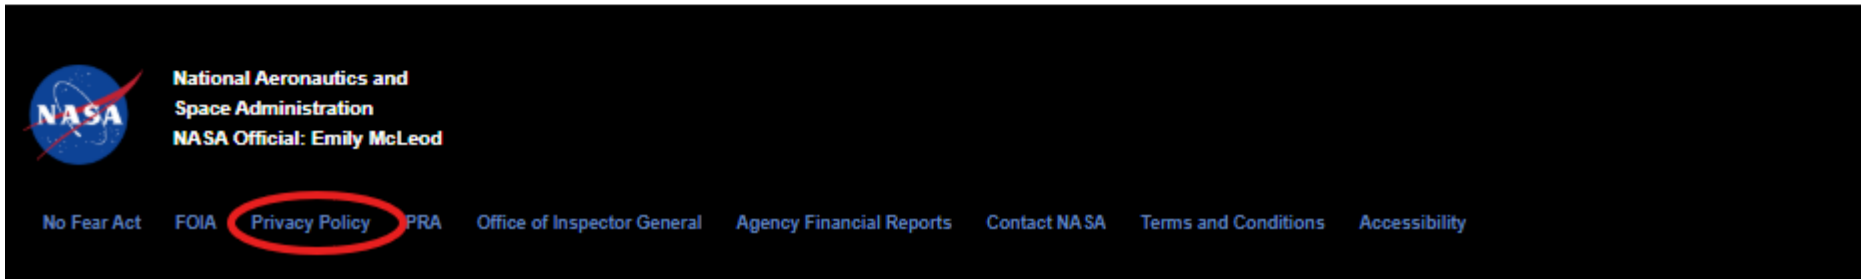

The information in this form will allow Agency staff members with Guest Operations responsibilities to appropriately plan for guest attendance, communicate needed information of guests, and to organize the clearance of guests at NASA facilities.

Authority: The collection is authorized by 42 U.S.C. 2451, et seq., the National Aeronautics and Space Act of 1958, as amended.

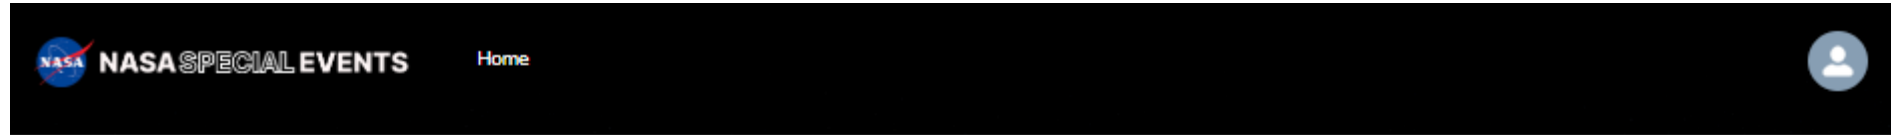

Purpose: This information is being collected and maintained for the purpose of organizing effective outreach events and registration opportunities for members of the public.

Routine uses: Use and disclosure of your records within and outside of NASA may occur in accordance with the NASA Security Records Systems (NASA 10SECR) system of records notice published at <https://www.federalregister.gov/documents/2023/08/08/2023-16900/privacy-act-of-1974-system-of-records> and as permitted by the Privacy Act of 1974, as amended (5 U.S.C. 552a(b)).

Impact of non-disclosure: Failing to provide the requested information may result in not being able to attend an event.

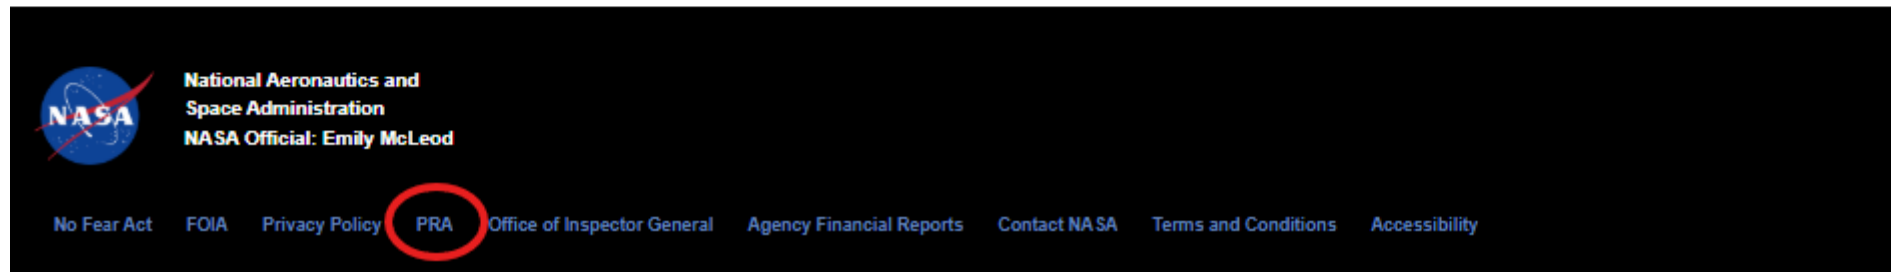

The PRA Statement is available via a footer link when guests are taking any actions related to NASA Special Events

PRA Statement

Paperwork Reduction Act Statement - The OMB control number for this information collection is 2700-XXXX and it expires on XXXXX/2028. This information collection meets the requirements of 44 U.S.C § 3507, as amended by section 2 of the Paperwork Reduction Act of 1995, and is part of a Federal Government-wide effort to streamline the process for seeking feedback on service delivery. This data will only be used internally for service improvement and program management purposes. We estimate it will take about 7 minutes to read the instructions, gather the facts, and answer the questions. Responses to this collection are voluntary, and you should not respond to any agency's information collection unless such collection displays a valid Office of Management and Budget control number. You may send comments on our time estimate above to hq-events@mail.nasa.gov. Please send only comments relating to your time estimate to this address.

We also invite you to find out all of the ways you can bring NASA into your life through participating in experiences, learning engagements, and activities that you can do on your own.

[Get Involved](#) →

Example email directing guest to the portal (@ RSVP Here)

Dear Emily Mcleod,

You are cordially invited to attend the launch of NASA's Boeing Crew Flight Test (CFT). Launch is targeted for no earlier than Monday, May 6, 2024 at 10:34 p.m. EDT.

Alternate format: NASA and the International Space Station Program cordially invite you to attend the launch of the agency's SpaceX 31st resupply services mission. Lift off is targeted for no earlier than Monday, November 4, 9:29 p.m. ET to launch the SpaceX Dragon spacecraft from Launch Complex 39A at NASA's Kennedy Space Center in Florida.

Artemis I was the first in a series of increasingly complex missions that will enable human exploration at the Moon and future missions to Mars. *(remove mail merge if not applicable or do not wish to use)*

To RSVP, you will need to follow the confirmation link at the end of this email to log in and access the NASA Special Events portal. After logging in, you will be able to verify your information, your party, and RSVP. Please RSVP no later than DAY, MONTH, Date, TIME a.m./p.m. EST

Here are some hints regarding the portal:

- NASA employees receiving this communication at a NASA email should use the NASA Employee Login button from a NASA network or VPN.
- If you are **NOT** receiving this at a NASA email and have not logged in before, you'll need to create an account, please use the "New to NASA Special Events? Sign Up Here" approach.
 - We understand this is a bit more effort up front but once you have this log in, you can use it across a variety of NASA events. The system will prefill what information it can for you, hopefully saving you time in the long run!
- When using "Sign Up Here" you'll be shown a masked email, you may type over or delete/retype the masked email to confirm your email. Please use the email at which you've received this invitation.
- If you have already created a username/password or have one on NASA's Office of STEM Engagement sites, but don't remember your password, using the forgot password link is advisable. Your username should be the email at which you're receiving these communications.
 - If you use the forgot password link, but don't have a previously established password, you will *not* receive an email from the system. In this event, please use the "New to NASA Special Events? Sign Up Here" approach or the NASA Employee Login button from a NASA network or VPN.
- Need further guidance logging in or want to learn more about our new events system, NASA Special Events? Read more [here](#).

Please RSVP by 1/1/2023, 12:00 AM.

Guests are responsible for providing their own travel accommodations and transportation to the check-in and/or bus boarding location. When making travel plans, keep in mind the tentative nature of launches. The launch date and guest viewing information is subject to change due to various factors; the guest operations team will email updates and further details as available.

If you have any questions, please contact the guest operations team at hq-events@mail.nasa.gov.

We look forward to seeing you at launch!

Follow the link below to confirm your attendance.

[RSVP Here](#)

In addition to our registration process, we only have three basic forms for collection in the system:

- Nominator Form: used by those given a role through the Agency processes to add potential guests to an event – to nominate them.
- Nominee Form: used by guests to share needed details about themselves or their parties in a nomination process
- RSVP Form: used by guests to share needed details about themselves or their parties in an RSVP process

The details on the Nominee and RSVP forms can vary and are shown in their minimalist configuration and maximum configurations.

Different information may be needed to clear a guest for an event depending on their Citizenship status (U.S., LPR, or non-United States Citizen) and the specific facility logistics requirements. **The minimum number of options will be utilized per event.**

Any information the guest has previously entered in the system for another event, or as part of registration will be prefilled for them.

[NASA Employee Login](#)

Your account will be locked for 15 minutes after 5 consecutive failed log in attempts, after which time your account will be unlocked and you may try to login again.

Once logged in and after 15 minutes of inactivity, you will be logged out and asked to log in again.

If you do not remember your password, it is recommended that you click "Forgot Password" and create a new password. If you continue to experience login issues after resetting your password, you may contact hq-events@mail.nasa.gov for assistance.

If you need to correct any of your information contained in this system, you can edit yourself or be in touch with hq-events@mail.nasa.gov for further assistance.

By accessing and using this information system, you acknowledge and consent to the following:

You are accessing a U.S. Government information system, which includes: (1) this computer; (2) this computer network; (3) all computers connected to this network including end user systems; (4) all devices and storage media attached to this network or to any computer on this network; and (5) cloud and remote information services. This information system is provided for U.S. Government-authorized use only. You have no reasonable expectation of privacy regarding any communication transmitted through or data stored on this information system. At any time, and for any lawful purpose, the U.S. Government may monitor, intercept, search, and seize any communication or data transiting, stored on, or traveling to or from this information system. You are NOT authorized to process classified information on this information system. Unauthorized or improper use of this system may result in suspension or loss of access privileges, disciplinary action, and civil and/or criminal penalties.

PRIVACY ACT STATEMENT: The information in this form will allow Agency staff members with Guest Operations responsibilities to appropriately plan for guest attendance, communicate needed information of guests, and to organize the clearance of guests at NASA facilities.

AUTHORITY: The collection is authorized by 42 U.S.C. 2451, et seq., the National Aeronautics and Space Act of 1958, as amended.

PURPOSE: This information is being collected and maintained for the purpose of organizing effective outreach events and registration opportunities for members of the public.

ROUTINE USES: Use and disclosure of your records within and outside of NASA may occur in accordance with the NASA Security Records Systems (NASA 10SECR) system of records notice published at <https://www.federalregister.gov/documents/2023/08/08/2023-16900/privacy-act-of-1974-system-of-records> and as permitted by the Privacy Act of 1974, as amended (5 U.S.C. 552a(b)). **Impact of non-disclosure:** Failing to provide the requested information may result in not being able to attend an event.

IMPACT OF NON-DISCLOSURE: Failing to provide the requested information may result in not being able to attend an event.

Paperwork Reduction Act Statement: The OMB control number for this information collection is 2700-xxxx and it expires on xx/xx/2028. This information collection meets the requirements of 44 U.S.C § 3507, as amended by section 2 of the Paperwork Reduction Act of 1995, and is part of a Federal Government-wide effort to streamline the process for seeking feedback on service delivery. This data will only be used internally for service improvement and program management purposes. We estimate it will take about 7 minutes to read the instructions, gather the facts, and answer the questions. Responses to this collection are voluntary, and you should not respond to any agency's information collection unless such collection displays a valid Office of Management and Budget control number. You may send comments on our time estimate above to hq-events@mail.nasa.gov. Please send only comments relating to your time estimate to this address.

Welcome to NASA Special Events Inbox x

NASA STEM Gateway <agency-mynasa-no-reply@mail.nasa.gov>
to me ▾

6:14 AM (6 hours ago) ☆ 😊 ↶ ⋮

Hi Taylor,

Welcome to NASA Special Events! To set up your password and begin managing any event actions, go to https://stemgateway.nasa.gov/login?c=KSju2QYf4ZXdfbrpAovZcK2OzwU1dxatca4ibfEvNre9Mdj2PUxUXiPtvdofYAS80.Rig_U7izdf5IRLB01J64E0za1DHTjUiitnzR2ls4vy_s7X2miQ4_zM13kGgH_Yv3ABN808XI3M89tuUlb3_GR7UVnxJwSVzMK3ZsM7yvn.BWNrsy6BNRhBZ7xSr8pS86M0TDTrasGtw5Sxuy8wD4wVA5EA%3D%3D

Your log-in will also grant access to NASA's STEM Gateway. Educators, Students, and Enthusiasts can explore NASA experiences designed to inspire, engage, educate, and employ. These range from virtual classroom connections to trainings and challenges, and internship opportunities. It's also possible to request a NASA expert for an event! Access it all, with the same username and password, here: <https://stemgateway.nasa.gov/s/>

Username: taylor.sulkes@gmail.com

Thanks,
NASA Special Events

To continue, please review and accept the following Terms and Conditions:

1. Accessing and utilizing the NASA Special Events platform is fully voluntary and users are not entitled to compensation, nor will they be considered employees, agents, independent contractors, or consultants of NASA or of the United States Government.
2. NASA reserves the right to cancel an event, nomination, or invitation at any time.
 - a. Information shared may be exported to secondary systems at NASA.
 - i. You acknowledge there may be regular (i.e. periodic, recurring, etc.) data extractions from the application/website/information system/cloud system of the information you entered for event-related purposes. Proper controls and policies have been developed to the data logging requirements outlined in Office of Management and Budget (OMB) Memorandum M-07-16, "Safeguarding Against and Responding to the Breach of Personally Identifiable Information."
 - b. You acknowledge that NASA Special Events collects or retains information that may be considered PII.
3. The image, photograph, video or music was produced entirely by you (i.e. your original work), and contains no material from another copyrighted work.
4. The contents of the image or video do not infringe the copyright or any other right of any third party.
5. The material does not feature any inappropriate content, including mature subject matter or themes, product advertisements, or other material not suitable to minors as more particularly set forth herein.
6. In the event any individual is featured in any submitted images, video or other material, by submitting such material you represent and warrant that such individual has granted permission for NASA to use such individual's name and likeness in connection with NASA's use of the material hereunder, and you agree to provide proof of such permission upon demand.
7. Uploading material to the NASA Events platform, users, voluntarily and unconditionally grant the U.S. government a royalty-free, worldwide, perpetual, non-exclusive license to reproduce, display and distribute such material, in whole or in part, in any media now existing or subsequently developed, for any educational, informational, publicity, exhibition, archival, scholarly and all other governmental purposes, and to have or permit others to do so on the government's behalf. NASA will use reasonable efforts to mark any photograph reproduced by NASA with a photographer credit as feasible and in a place and manner deemed appropriate by NASA in its discretion, (ii) acknowledge that NASA is not required to seek any additional approval in connection with the uses described herein, (iii) acknowledge and agree NASA is under no obligation to use material submitted to the NASA Events platform; and (iv) unconditionally release NASA and its representatives from any and all claims and demands arising out of the activities contemplated under these terms and conditions, and (v) acknowledge that the above grant constitutes an unconditional gift or donation to NASA in accordance with Section 20113(d) of the National Aeronautics and Space Act (51 U.S.C. 20113(d)).
8. NASA may remove, at its discretion, any material members submit to, create or provide in NASA Special Events that does not meet NASA content standards or values.
9. The views expressed by other users at NASA Events do not necessarily represent NASA views or values. Content shared and posted by other members should not be considered as endorsed by NASA.
10. By posting material and submitting requests to this platform, you agree to indemnify NASA for any claims arising from a breach of the above.

Terms and Conditions

Dear Nominators:

Thank you for your time and effort to ensure a engaging Guest Operations experience. As you make your nominations, please keep in mind the following:

- [The nominations guidance](#)
- Total allocations, and your allocation, reflect a percentage increase from actual viewing site capacity. We account for this at the start of the process to avoid repeating steps in the process. We understand not everyone will respond to a nomination or attend.
- You are entering the information for the primary guest of a party and providing an indication of the party's size. Your allocation amount reflects the total guest number. If approved, the guest will, closer to the event, submit their secondary guests.
- Submission of this form is NOT a guarantee that your guest will be approved for nomination. Guest must respond to the nomination with additional information and receive several concurrences to be at the viewing site. Please do not nominate minors as Primary Guests – for the most part they are welcome at events with proper supervision. You only need to nominate Primary Guests. Additional Guests may be added by the Nominee when they complete their Nominee form.
- A target launch date will not be provided by the guest operations team until invitations are issued. LAUNCHES AND EVENTS ARE HIGHLY SUBJECT TO OPERATIONAL CHANGES WE DO NOT RECOMMEND NOMINATED GUESTS MAKE TRAVEL PLANS UNTIL AN OFFICIAL INVITATION IS RECEIVED. EVEN THEN, WE ENCOURAGE AS MUCH FLEXIBILITY IN PLANNING AS POSSIBLE.
- If there is a change to the launch date more than this in the invitation period, it may result in the cancellation of guest operations.

Event Details

Main Event
IMAP Launch

Mission Description

The Interstellar Mapping and Acceleration Probe (IMAP) will observe and map the Sun's heliosphere – the volume of space filled with particles streaming out from the Sun, known as the solar wind – and study how it interacts with the local galactic neighborhood beyond. The boundary zone at the edge of the heliosphere offers protection from the harsher radiation of interstellar space; it may have played a role in creating a habitable solar system and is critical in NASA's plans for safe human exploration of the Moon and Mars.

Space Weather Follow On at L1 (SWFO-L1) is a National Oceanic and Atmospheric Administration (NOAA) mission with the goal of providing continuous measurements of the space environment and observations of the Sun's outer atmosphere and contributing to accurate forecasts of space weather disturbances. The SWFO-L1 project will use a suite of instruments to make real time measurements of the solar wind, thermal plasma, and the magnetic field. The L1 orbit allows for continuous unobstructed observation of the corona without interference from the Earth.

The Carruthers Geocorona Observatory will survey the exosphere, the outermost layer of Earth's atmosphere, seeking answers like its shape, size, and density and what causes them to change over time.

Event Details

Main Event
Europa Clipper Launch

Mission Description
Europa Clipper's main science goal is to determine whether there are places below the surface of Jupiter's icy moon, Europa, that could support life. Europa Clipper's three main science objectives are to understand the nature of the ice shell and the ocean beneath it, along with the moon's composition and geology.

Event Details

Main Event
IMAP Launch

Mission Description
The Interstellar Mapping and Acceleration Probe (IMAP) will observe and map the Sun's heliosphere – the volume of space filled with particles streaming out from the Sun, known as the solar wind – and study how it interacts with the local galactic neighborhood beyond. The boundary zone at the edge of the heliosphere offers protection from the harsher radiation of interstellar space; it may have played a role in creating a habitable solar system and is critical in NASA's plans for safe human exploration of the Moon and Mars.

Space Weather Follow On at L1 (SWFO-L1) is a National Oceanic and Atmospheric Administration (NOAA) mission with the goal of providing continuous measurements of the space environment and observations of the Sun's outer atmosphere and contributing to accurate forecasts of space weather disturbances. The SWFO-L1 project will use a suite of instruments to make real time measurements of the solar wind, thermal plasma, and the magnetic field. The L1 orbit allows for continuous unobstructed observation of the corona without interference from the Earth.

The Carruthers Geocorona Observatory will survey the exosphere, the outermost layer of Earth's atmosphere, seeking answers like its shape, size, and density and what causes them to change over time.

Terms and Conditions

Standard Launch T&C: Launch Viewing Safety NASA applies stringent range safety principles and procedures to protect the general public, its workforce, and its property for all areas of the Kennedy Space Center during launch. However, in the unlikely event of an accident, hazards such as debris, blast pressure, and toxic chemicals would be present. Large backpacks, coolers, other large containers, and any sharp objects are not permitted. Small backpacks, purses, waist packs, and diaper bags are permitted. CHAIRS ARE NOT PERMITTED AT THIS SITE. All items are subject to search. Items must fit in your lap on the bus and will be required to be with you at all times. Guests should consider the weather conditions when planning what to bring with them to launch. Media Release: By accepting the invitation, you give permission to be recorded, photographed and/or videotaped by or for NASA or its representatives. You further give permission to NASA and its representatives to use, reproduce, prepare derivative works, publish, distribute to the public, perform publicly, and/or publicly display the materials, including excerpts and any ancillary material, which include name, affiliation (educational institute/company), image, voice, and/or likeness. NASA may distribute the materials, including excerpts therefrom, and any ancillary material through a variety of media in existence now or in the future, including but not limited to print, television, websites, radio, or any other means. NASA may also permit a third party to exercise NASA's rights, including but not limited to the right to display or distribute the recording, including excerpts therefrom, and any ancillary material, in any manner NASA deems appropriate.
