SUPPORTING STATEMENT

A. Justification:

Information Collection Requirements: Circumstances Necessitating Change to Information Collection

1. The Commission is seeking Office of Management and Budget (OMB) approval for the extension of a currently approved collection. The information collection requirements for this information collection are as follows:

47 CFR Section 76.1700(a) requires cable system operators to place the public inspection file materials required to be retained by the following rules in the online public file hosted by the Commission: Sections 76.1701 (political file); 76.1702 (EEO); 76.1703 (commercial records for children's programming); 76.1707 (leased access); 76.1709 (availability of signals); 76.1715 (sponsorship identification); and 76.630 (compatibility with consumer electronics equipment).

47 CFR Section 76.1700(b) requires cable system operators to make the records required to be retained by the following rules available to local franchising authorities: Sections 76.1704 (proof-of-performance test data) and 76.1713 (complaint resolution).

47 CFR Section 76.1700(c) requires cable system operators to make the records required to be retained by the following rules available to the Commission: Sections 76.1704 (proof-of-performance test data); 76.1706 (signal leakage logs and repair records); 76.1711 (emergency alert system and activations); 76.1713 (complaint resolution); and 76.1716 (subscriber records).

47 CFR Section 76.1700(d) exempts cable television systems having fewer than 1,000 subscribers from the online public file and the public inspection requirements contained in 47 CFR Sections 76.1701 (political file); 76.1702 (equal employment opportunity); 76.1703 (commercial records for children's programming); 76.1704 (proof-of-performance test data); 76.1706 (signal leakage logs and repair records); and 76.1715 (sponsorship identifications).

47 CFR Section 76.1700(e) requires that, for cable systems exempt from the online public file requirement, public file material that continues to be retained at the system be retained in a public inspection file maintained at the office which the system operator maintains for the ordinary collection of subscriber charges, resolution of subscriber complaints, and other business or at any accessible place in the community served by the system unit(s) (such as a public registry for documents or an attorney's office). inspection during regular business hours.

47 CFR Section 76.1700(f) requires cable systems to provide a link to the public inspection file hosted on the Commission's website from the home page of its own website, if the system has a website, and provide contact information on its website for a system representative who can assist any person with disabilities with issues related to the content of the public files. A system also is required to include in the online public file the address of the system's local public file, if the system retains documents in the local file that are not available in the Commission's online file, and the name, phone number, and email address of the system's designated contact for questions about the public file. In addition, a system must provide on the online public file a list of the five digit ZIP codes served by the system.

47 CFR Section 76.1700(g) requires that cable operators make any material in the public inspection file that is not also available in the Commission's online file available for machine reproduction upon request made in person, provided the requesting party shall pay the reasonable cost of reproduction. Requests for machine copies must be fulfilled at a location specified by the system operator, within a reasonable period of time, which in no event shall be longer than seven days. The system operator is not required to honor requests made by mail but may do so if it chooses.

47 CFR Section 76.1702(a) requires that every employment unit with six or more full-time employees shall maintain for public inspection a file containing copies of all EEO program annual reports filed with the Commission and the equal employment opportunity program information described in 47 CFR Section 76.1702(b). These materials shall be placed in the Commission's online public inspection file for each cable system associated with the employment unit. These materials must be placed in the Commission's online public inspection file annually by the date that the unit's EEO program annual report is due to be filed and shall be retained for a period of five years. A headquarters employment unit file and a file containing a consolidated set of all documents pertaining to the other employment units of a multichannel video programming distributor that operates multiple units shall be maintained in the Commission's online public file for every cable system associated with the headquarters employment unit.

47 CFR Section 76.1702(b) requires that the following equal employment opportunity program information shall be included annually in the unit's public file, and on the unit's web site, if it has one, at the time of the filing of its FCC Form 396-C: (1) A list of all full-time vacancies filled by the multichannel video programming distributor employment unit during the preceding year, identified by job title; (2) For each such vacancy, the recruitment source(s) utilized to fill the

2. The records are used by FCC staff, local public officials, and the public to assess a cable television system's performance and to ensure that the system is in compliance with all applicable FCC rules and regulations.
3. Automation and electronic collection techniques are involved with this collection. Cable systems post their "electronic" public files on the Commission's website, making the public files available over the Internet.
4. No other agency imposes a similar information collection on the respondents. There is no similar data available.
5. This information collection does not impact small entities. Cable systems with fewer than 1,000 subscribers are exempt from all online public file requirements.
6. If the recordkeeping and third-party disclosure requirements in this collection were not enforced, the Commission, local franchise authorities, and the public would have no written record to verify cable television system compliance with the Commission's rules and regulations concerning system performance, hiring, the commercial limits in children's programming, and political advertising.
7. There are no special circumstances for the recordkeeping requirements contained in this collection.
8. The Commission published a notice in the *Federal Register* seeking comments from the public on the information collection requirements contained in this collection (90 FR 17819) on April 29, 2025. The Commission did not receive any comments from the public.
9. There were no gifts or payments provided to respondents associated with this information collection.
10. Most of the documents comprising the public file consist of materials that are not of a confidential nature. With respect to any such documents that may contain proprietary trade secrets and confidential information, the Commission has instituted procedures to protect the confidentiality of any such information to the extent permitted by law. Respondents complying with the information collection requirements may request that the information they submit be withheld from disclosure. If confidentiality is requested, such requests will be processed in accordance with the Commission's rules, 47 CFR § 0.459.
