

Non-substantive Change Request for Information Collection 3060-0685

The Commission is requesting a non-substantive change request for collection 3060-0685. FCC Form 1210 is a quarterly filing for adjustments in maximum permitted rates for regulated services. FCC 25-33 eliminates this quarterly methodology and the form. The associated Information Collection establishes the paperwork burden for both the FCC Form 1210 and FCC Form 1240 so it is being modified to remove the FCC Form 1210 paperwork burden. The supporting statement has been modified accordingly.
