Beneficial owner - The term “beneficial owner” of securities refers to any person who, even if not the record owner of the securities, has or shares the underlying benefits of ownership. These benefits include the power to direct the voting or the disposition of the securities or to receive the economic benefit of ownership of the securities. A person also is considered to be the “beneficial owner” of securities that the person has the right to acquire within 60 days by option or other agreement. Beneficial owners include persons who hold their securities through one or more trustees, brokers, agents, legal representatives or other intermediaries, or through companies in which they have a “controlling interest,” which means the direct or indirect power to direct the management and policies of the entity.

Company - References to the “company” mean the company whose securities are being offered or listed, and refer to the company on a consolidated basis unless the context indicates otherwise.

Directors and senior management - This term includes (a) the company’s directors, (b) members of its administrative, supervisory or management bodies, (c) partners with unlimited liability, in the case of a limited partnership with share capital, (d) nominees to serve in any of the aforementioned positions, and (e) founders, if the company has been established for fewer than five years. The persons covered by the term “administrative, supervisory or management bodies” vary in different countries and, for purposes of complying with the disclosure standards, will be determined by the host country.

Equity securities - The term “equity securities” includes common or ordinary shares, preferred or preference shares, options or warrants to subscribe for equity securities, and any securities, other than debt securities, which are convertible into or exercisable or redeemable for equity securities of the same company or another company. If the equity securities available upon conversion, exercise or redemption are those of another company, the disclosure standards also apply to the other company.

Group - A “group” is a parent and all its subsidiaries. References to a company’s group mean the group of which it is a member.

Instruction: An issuer that is unable to provide information that complies with Instruction G.(f)(2)(B) but has available comparable financial information based on a combination of Previous GAAP, IFRS and U.S. GAAP should contact the Office of International Corporate Finance in the Division of Corporation Finance, in writing and well in advance of any filing deadlines, to discuss its interim period financial information.

An issuer electing to include, refer to, or incorporate by reference Previous GAAP financial information shall prominently disclose, at an appropriate location in the document, that the document includes, refers to, or incorporates by reference, as applicable, financial statements and other financial information based on both IFRS and Previous GAAP, and that the information based on Previous GAAP is not comparable to information prepared in accordance with IFRS.*

2. *Companies electing to include or incorporate by reference Previous GAAP financial information shall:*

a. *Present or incorporate by reference selected historical financial data prepared in accordance with Previous GAAP for the four financial years prior to the most recent financial year.*

b. *Present or incorporate by reference operating and financial review and prospects information pursuant to Item 5 that focuses on the financial statements for the two most recent financial years prior to the most recent financial year that were prepared in accordance with Previous GAAP. A statement of capitalization and indebtedness (distinguishing between guaranteed and unguaranteed, and secured and unsecured, indebtedness) as of a date no earlier than 60 days prior to the date of the document shall be provided showing the company's capitalization on an actual basis and, if applicable, as adjusted to reflect the sale of new securities being issued and the intended application of the net proceeds therefrom. Indebtedness also includes indirect and contingent indebtedness.

disclose the persons from whom they will be acquired and how the cost to the company will be determined.

3. If the proceeds may or will be used to finance acquisitions of other businesses, give a brief description of such businesses and information on the status of the acquisitions.
4. If any material part of the proceeds is to be used to discharge, reduce or retire indebtedness, describe the interest rate and maturity of such indebtedness and, for indebtedness incurred within the past year, the uses to which the proceeds of such indebtedness were put.

D. Risk factors. The document shall prominently disclose risk factors that are specific to the company or its industry and make an offering speculative or one of high risk, in a section headed "Risk Factors." Companies are encouraged, but not required, to list the risk factors in the order of their priority to the company. Among other things, such factors may include, for example: the nature of the business in which it is engaged or proposes to engage; factors relating to the countries in which it operates; the absence of profitable operations in recent periods; the financial position of the company; the possible absence of a liquid trading market for the company's securities; reliance on the expertise of management; potential dilution; unusual competitive conditions; pending expiration of material patents, trademarks or contracts; or dependence on a limited number of customers or suppliers. Item 4A. Unresolved Staff Comments

If the registrant is an accelerated filer or a large accelerated filer, as defined in Rule 12b-2 of the Exchange Act (§240.12b-2 of this chapter), or is a well-known seasoned issuer as defined in Rule 405 of the Securities Act (§230.405 of this chapter) and has received written comments from the Commission staff regarding its periodic reports under the Exchange Act not less than 180 days before the end of its fiscal year to which the annual report relates, and such comments remain unresolved, disclose the substance of any such unresolved comments that the registrant believes are material. Such disclosure may provide other information including the position of the registrant with respect to any such comment.

Item 5. Operating and Financial Review and Prospects

The purpose of this standard is to provide management’s explanation of factors that have materially affected the company’s financial condition and results of operations for the historical periods covered by the financial statements, and management’s assessment of factors and trends which are anticipated to have a material effect on the company’s financial condition and results of operations in future periods. A discussion and analysis that meets these requirements is expected to better allow investors to view the registrant from management’s perspective. Discuss the company’s financial condition, changes in financial condition and results of operations for each year and interim period for which financial statements are required. The discussion must include a quantitative and qualitative description of the reasons underlying material changes, including where material changes within a line item offset one another, to the extent necessary for an understanding of the company’s business as a whole. Information provided also must relate to all separate segments and/or other subdivisions (e.g., geographic areas, product lines) of the company. The discussion must include other statistical data that the company believes will enhance a reader’s understanding of the company’s financial condition, cash flows and other changes in financial condition, and results of operations. The discussion and analysis must also focus specifically on material events and uncertainties known to management that would cause

reported financial information not to be necessarily indicative of future operating results or of future financial condition. Provide the information specified below as well as such other information that is necessary for an investor's understanding of the company's financial condition, changes in financial condition and results of operations.

A. *Operating results.* Provide information regarding significant factors, including unusual or infrequent events or new developments, materially affecting the company's income from operations, indicating the extent to which income was so affected. Describe any other significant component of revenue or expenses necessary to understand the company's results of operations.

1. If the statement of comprehensive income presents material changes from period to period in net sales or revenue, if applicable, describe the extent to which such changes are attributable to changes in prices or to changes in the volume or amount of products or services being sold or to the introduction of new products or services.
2. If the currency in which financial statements are presented is of a country that has experienced hyperinflation, disclose the existence of such inflation, a five year history of the annual rate of inflation and a discussion of the impact of hyperinflation on the company's business.
3. Provide information regarding the impact of foreign currency fluctuations on the company, if material, and the extent to which foreign currency net investments are hedged by currency borrowings and other hedging instruments.
4. Provide information regarding any governmental economic, fiscal, monetary or political policies or factors that have materially affected, or could materially affect, directly or indirectly, the company's operations or investments by host country shareholders.

B. *Liquidity and capital resources.* Analyze the registrant's ability to generate and obtain adequate amounts of cash to meet its requirements and its plans for cash in the short-term (i.e., the next 12 months from the most recent fiscal period end required to be presented) and separately in the long-term (i.e., beyond the next 12 months). The discussion should analyze material cash requirements from known contractual and other obligations. Such disclosures must specify the type of obligation and the relevant time period for the related cash requirements. As part of this analysis, provide the following information:

1. Information regarding the company's liquidity including:
 - (a) a description of the internal and external sources of liquidity and a brief discussion of any material unused sources of liquidity. Include a statement by the company that, in its opinion, the working capital is sufficient for the company's present requirements, or, if not, how it proposes to provide the additional working capital needed.

- (b) an evaluation of the sources and amounts of the company's cash flows, including the nature and extent of any legal or economic restrictions on the ability of subsidiaries to transfer funds to the company in the form of cash dividends, loans or advances and the impact such restrictions have had or are reasonably likely to have on the ability of the company to meet its cash obligations.
 - 2. Information regarding the type of financial instruments used, the maturity profile of debt, currency and interest rate structure. The discussion also must include funding and treasury policies and objectives in terms of the manner in which treasury activities are controlled, the currencies in which cash and cash equivalents are held, the extent to which borrowings are at fixed rates, and the use of financial instruments for hedging purposes.
 - 3. Information regarding the company's material cash requirements, including commitments for capital expenditures, as of the end of the latest financial year and any subsequent interim period and an indication of the general purpose of such requirements and the anticipated sources of funds needed to satisfy such requirements.
- C. *Research and development, patents and licenses, etc.*** Provide a description of the company's research and development policies for the last three years.
- D. *Trend information.*** The company must identify material recent trends in production, sales and inventory, the state of the order book and costs and selling prices since the latest financial year. The company also must discuss, for at least the current financial year, any known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the company's net sales or revenues, income from continuing operations, profitability, liquidity or capital resources, or that would cause reported financial information not necessarily to be indicative of future operating results or financial condition.

E. *Critical Accounting Estimates*

A registrant that does not apply in its primary financial statements IFRS as issued by the IASB must discuss information about its critical accounting estimates. This disclosure should supplement, not duplicate, the description of accounting policies in the notes to the financial statements.

Critical accounting estimates. Critical accounting estimates are those estimates made in accordance with generally accepted accounting principles that involve a significant level of estimation uncertainty and have had or are reasonably likely to have a material impact on the financial condition or results of operations of the registrant. Provide qualitative and quantitative information necessary to understand the estimation uncertainty and the impact the critical accounting estimate has had or is reasonably likely to have on the registrant's financial condition or results of operations to the extent the information is material and reasonably available. This information should include why each critical accounting

estimate is subject to uncertainty and, to the extent the information is material and reasonably available, how much each estimate and/or assumption has changed over a relevant period, and the sensitivity of the reported amounts to the material methods, assumptions and estimates underlying its calculation.

Instructions to Item 5:

- 1. Refer to the Commission's interpretive releases (No. 33-6835) dated May 18, 1989, (No. 33-8056) dated January 22, 2002, (No. 33-8350) dated December 19, 2003, (No. 33-9144) dated September 17, 2010, and (No. 33-10751) dated January 30, 2020 for guidance in preparing this discussion and analysis by management of the company's financial condition and results of operations.*
- 2. The discussion must focus on the primary financial statements presented in the document. You should refer to the reconciliation to U.S. GAAP, if any, and discuss any aspects of the differences between foreign and U.S. GAAP, not otherwise discussed in the reconciliation, that you believe are necessary for an understanding of the financial statements as a whole.*
- 3. We encourage you to supply forward-looking information, but that type of information is not required. Forward-looking information is covered expressly by the safe harbor provisions of Section 27A of the Securities Act and Section 21E of the Exchange Act. Forward-looking information is different than presently known data which will have an impact on future operating results, such as known future increases in costs of labor or materials. You are required to disclose this latter type of data if it is material.*
- 4. To the extent the primary financial statements reflect the use of exceptions permitted or required by IFRS 1, the issuer must:*
 - a. Provide detailed information as to the exceptions used, including:*
 - i. An indication of the items or class of items to which the exception was applied; and*
 - ii. A description of what accounting principle was used and how it was applied;*
 - b. Include, where material, qualitative disclosure of the impact on financial condition, changes in financial condition and results of operations that the treatment specified by IFRS would have had absent the election to rely on the exception.*
- 5. An issuer filing financial statements that comply with IFRS as issued by the IASB must, in providing information in response to paragraphs of this Item 5 that refer to pronouncements of the FASB, provide disclosure that satisfies the objective of the Item 5 disclosure requirements. In responding to this Item 5, an issuer need not repeat information contained in financial statements that comply with IFRS as issued by the IASB.*

6. *Generally, the discussion must cover the periods covered by the financial statements and the registrant may use any format that in the registrant's judgment enhances a reader's understanding. For registrants providing financial statements covering three years in a filing, a discussion of the earliest of the three years may be omitted if such discussion was already included in any other of the registrant's prior filings on EDGAR that required disclosure in compliance with Item 5 of Form 20-F, provided that registrants electing not to include a discussion of the earliest year must include a statement that identifies the location in the prior filing where the omitted discussion may be found.*
7. *Discussion of commitments or obligations, including contingent obligations, arising from arrangements with unconsolidated entities or persons that have or are reasonably likely to have a material current or future effect on a registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, cash requirements or capital resources must be provided even when the arrangement results in no obligations being reported in the registrant's consolidated balance sheets. Such off-balance sheet arrangements may include: guarantees; retained or contingent interests in assets transferred; contractual arrangements that support the credit, liquidity or market risk for transferred assets; obligations that arise or could arise from variable interests held in an unconsolidated entity; or obligations related to derivative instruments that are both indexed to and classified in a registrant's own equity, or not reflected in the statement of financial position.*
8. *For the Liquidity and Capital Resources disclosure, discussion of material cash requirements from known contractual obligations may include, for example, lease obligations, purchase obligations, or other liabilities reflected on the registrant's balance sheet. Except where it is otherwise clear from the discussion, the registrant must indicate those balance sheet conditions or income or cash flow items which the registrant believes may be indicators of its liquidity condition.*
9. *Provide the analysis in a format that facilitates easy understanding and that supplements, and does not duplicate, disclosure already provided in the filing.*

Instruction to Item 5.A:

1. *You must provide the information required by Item 5.A.2 with respect to hyperinflation if hyperinflation has occurred in any of the periods for which you are required to provide audited financial statements or unaudited interim financial statements in the document. See Rule 3-20(c) of Regulation S-X for a discussion of cumulative inflation rates that trigger this requirement.*

Item 6. Directors, Senior Management and Employees

The purpose of this standard is to provide information concerning the company's directors and managers that will allow investors to assess such individuals' experience, qualifications and levels of compensation, as well as their relationship with the company. Information concerning the company's employees is also required.

A. *Directors and senior management.* The following information shall be disclosed with respect to the company's directors and senior management, and any employees such as scientists or designers upon whose work the company is dependent:

Disclosure of compensation is required on an individual basis unless individual disclosure is not required in the company's home country and is not otherwise publicly disclosed by the company. The standard also covers contingent or deferred compensation accrued for the year, even if the compensation is payable at a later date. If any portion of the compensation was paid (a) pursuant to a bonus or profit-sharing plan, provide a brief description of the plan and the basis upon which such persons participate in the plan; or (b) in the form of stock options, provide the title and amount of securities covered by the options, the exercise price, the purchase price (if any), and the expiration date of the options.

D. *Employees.* Provide either the number of employees at the end of the period or the average for the period for each of the past three financial years (and changes in such numbers, if material) and, if possible, a breakdown of persons employed by main category of activity and geographic location. Also disclose any significant change in the number of employees, and information regarding the relationship between management and labor unions. If the company employs a significant number of temporary employees, include disclosure of the number of temporary employees on an average during the most recent financial year.

E. *Share ownership.*

- (1) With respect to the persons listed in subsection 6.B, above, provide information as to their share ownership in the company as of the most recent practicable date (including disclosure on an individual basis of the number of shares and percent of shares outstanding of that class, and whether they have different voting rights) held by the persons listed and options granted to them on the company's shares. Information regarding options shall include: the title and amount of securities called for by the options; the exercise price; the purchase price, if any; and the expiration date of the options.
- (2) Describe any arrangements for involving the employees in the capital of the company, including any arrangement that involves the issue or grant of options or shares or securities of the company.

Instructions to Item 6.C:

1. *The term "plan" is used very broadly and includes any type of arrangement for compensation, even if the terms of the plan are not contained in a formal document.*
2. *If the company is a listed issuer as defined in Exchange Act Rule 10A-3 (17 CFR 240.10A-3) and its entire board of directors is acting as the company's audit committee as specified in section 3(a)(58)(B) of the Exchange Act (15 U.S.C. 78c(a)(58)(B)), so state.*
3. *If the company has a board of auditors or similar body, as described in Exchange Act Rule 10A-3(c)(3) (17 CFR 240.10A-3(c)(3)), the disclosure required by this Item 6.C. with regard to the company's audit committee can be provided with respect to the company's board of auditors, or similar body.*

Instruction to Item 6.E:

If (a) any of the persons listed in subsection 6.B beneficially owns less than one percent of the class of shares and (b) that person's individual share ownership previously has not been disclosed to shareholders or otherwise made public, you may

indicate, by an asterisk and explanatory footnote or similar means, that the person beneficially owns less than one percent of the class, instead of providing that person's individual share ownership.

F. Disclosure of a registrant's action to recover erroneously awarded compensation.

- (1) If at any time during or after the last completed fiscal year the registrant was required to prepare an accounting restatement that required recovery of erroneously awarded compensation pursuant to the registrant's compensation recovery policy required by the listing standards adopted pursuant to 17 CFR 240.10D-1, or there was an outstanding balance as of the end of the last completed fiscal year of erroneously awarded compensation to be recovered from the application of the policy to a prior restatement, the registrant must, in its annual report on Form 20-F, provide the following information:
 - (i) For each restatement:
 - (A) The date on which the registrant was required to prepare an accounting restatement;
 - (B) The aggregate dollar amount of erroneously awarded compensation attributable to such accounting restatement, including an analysis of how the amount was calculated;
 - (C) If the financial reporting measure as defined in 17 CFR 240.10D-1(d) related to a stock price or total shareholder return metric, the estimates that were used in determining the erroneously awarded compensation attributable to such accounting restatement and an explanation of the methodology used for such estimates;
 - (D) The aggregate dollar amount of erroneously awarded compensation that remains outstanding at the end of the last completed fiscal year; and

 - (ii) If recovery would be impracticable pursuant to 17 CFR 240.10D-1(b)(1)(iv), for each current and former named executive officer and for all other current and former executive officers as a group, disclose the amount of recovery forgone and a brief description of the reason the listed registrant decided in each case not to pursue recovery; and
 - (iii) For each current and former named executive officer from whom, as of the end of the last completed fiscal year, erroneously awarded compensation had been outstanding for 180 days or longer since the date the registrant

determined the amount the individual owed, disclose the dollar amount of outstanding erroneously awarded compensation due from each such individual.

- (2) If at any time during or after its last completed fiscal year the registrant was required to prepare an accounting restatement, and the registrant concluded that recovery of erroneously awarded compensation was not required pursuant to the registrant's compensation recovery policy required by the listing standards adopted pursuant to 17 CFR 240.10D-1, briefly explain why application of the recovery policy resulted in this conclusion;
- (3) The information must appear with, and in the same format as, the rest of the disclosure required to be provided pursuant to this Item 6, is required only in annual reports and does not apply to registration statements on Form 20-F, and will not be deemed to be incorporated by reference into any filing under the Securities Act, except to the extent that the listed registrant specifically incorporates it by reference; and
- (4) The disclosure must be provided in an Interactive Data File in accordance with Rule 405 of Regulation S-T and the EDGAR Filer Manual.

Item 7. Major Shareholders and Related Party Transactions

The purpose of this standard is to provide information regarding the major shareholders and others that control or may control the company. The standard also provides information regarding transactions the company has entered into with persons affiliated with the company and whether the terms of such transactions are fair to the company. These standards may require disclosure of related party transactions not required to be disclosed under the body of accounting principles used in preparing the financial statements. This standard is not intended to address the thresholds at which shareholders are required, on a continuing basis, to disclose their beneficial ownership of securities.

- A. Major shareholders.** To the extent that the following information is known to the company or can be ascertained from public filings, it should be provided as of the most recent practicable date, with references to the number of shares held in the company including shares beneficially owned.
1. The following information shall be provided regarding the company's major shareholders, which means shareholders that are the beneficial owners of 5% or more of each class of the company's voting securities (unless the company is required to disclose a lesser percentage in its home country, in which case that lesser percentage applies):
 - (a) Provide the names of the major shareholders, and the number of shares and the percentage of outstanding shares of each class owned by each of them as of the most recent practicable date, or an appropriate negative statement if there are no major shareholders.

- (b) Disclose any significant change in the percentage ownership held by any major shareholders during the past three years.
 - (c) Indicate whether the company's major shareholders have different voting rights, or an appropriate negative statement.
- 2. Information shall be provided as to the portion of each class of securities held in the host country and the number of record holders in the host country.
- 3. To the extent known to the company, state whether the company is directly or indirectly owned or controlled by another corporation(s), by any foreign government or by any other natural or legal person(s) severally or jointly, and, if so, give the name(s) of such controlling corporation(s), government or other person(s), and briefly describe the nature of such control, including the amount and proportion of capital held giving a right to vote.
- 4. Describe any arrangements, known to the company, the operation of which may at a subsequent date result in a change in control of the company.

B. *Related party transactions.* Provide the information required below for the period since the beginning of the company's preceding three financial years up to the date of the document, with respect to transactions or loans between the company and (a) enterprises that directly or indirectly through one or more intermediaries, control or are controlled by, or are under common control with, the company; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the company that gives them significant influence over the company, and close members of any such individual's family; (d) key management personnel, that is, those persons having authority and responsibility for planning, directing and controlling the activities of the company, including directors and senior management of companies and close members of such individuals' families; and (e) enterprises in which a substantial interest in the voting power is owned, directly or indirectly, by any person described in (c) or (d) or over which such a person is able to exercise significant influence. This includes enterprises owned by directors or major shareholders of the company and enterprises that have a member of key management in common with the company. Close members of an individual's family are those that may be expected to influence, or be influenced by, that person in their dealings with the company. An associate is an unconsolidated enterprise in which the company has a significant influence or which has significant influence over the company. Significant influence over an enterprise is the power to participate in the financial and operating policy decisions of the enterprise but is less than control over those policies. Shareholders beneficially owning a 10% interest in the voting power of the company are presumed to have a significant influence on the company.

- 1. The nature and extent of any transactions or presently proposed transactions which are material to the company or the related party, or any transactions that are unusual in their nature or conditions, involving goods, services, or tangible or

intangible assets, to which the company or any of its parent or subsidiaries was a party.

2. The amount of outstanding loans (including guarantees of any kind) made by the company, its parent or any of its subsidiaries to or for the benefit of any of the persons listed above. The information given should include the largest amount outstanding during the period covered, the amount outstanding as of the latest practicable date, the nature of the loan and the transaction in which it was incurred, and the interest rate on the loan. In addition, if the company, its parent or any of its subsidiaries is a foreign bank (as defined in 17 CFR 240.13k-1) that has made a loan to which Instruction 2 of this Item does not apply, identify the director, senior management member, or other related party required to be described by this Item who received the loan, and describe the nature of the loan recipient's relationship to the foreign bank.

- C. *Interests of experts and counsel.*** If any of the named experts or counselors was employed on a contingent basis, owns an amount of shares in the company or its subsidiaries which is material to that person, or has a material, direct or indirect economic interest in the company or that depends on the success of the offering, provide a brief description of the nature and terms of such contingency or interest.

Instructions to Item 7.B:

1. *If you are providing the information called for by Item 7.B in an annual report, you only have to provide the required information for the period from the beginning of your last full fiscal year up to the latest practicable date.*
2. *In response to Item 7.B.2, if the lender is a bank, savings and loan association, or broker dealer extending credit under Federal Reserve Regulation T, and the loans are not disclosed as past due, nonaccrual or troubled debt restructurings in the consolidated financial statements, your response may consist of a statement, if true, that the loans in question (A) were made in the ordinary course of business, (B) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and (C) did not involve more than the normal risk of collectability or present other unfavorable features.*
3. *In response to Item 7.B.2, if you are unable to identify the recipient of a foreign bank loan to which Instruction 2 of this Item does not apply because you have concluded that such disclosure would conflict with privacy laws, such as customer confidentiality and data protection laws, of your home jurisdiction, you must provide a legal opinion attesting to that conclusion as an exhibit. You must also disclose that:*
 - (A) *an unnamed director, senior management member, or other related party for which disclosure is required by this Item, has been the recipient of a loan to which Instruction 2 of this Item does not apply;*

- (B) *your home jurisdiction's privacy laws prevent the disclosure of the name of this loan recipient; and*
 - (C) *this loan recipient is unable to waive or has otherwise not waived application of these privacy laws.*
4. *Disclosure need not be provided pursuant to this Item if the transaction involves the recovery of excess incentive-based compensation that is disclosed pursuant to Item 6.F.*

Instruction to Item 7.C:

If you are filing Form 20-F as a registration statement or annual report under the Exchange Act, you do not have to provide the information called for by Item 7.C. You must provide this information if you are filing a registration statement under the Securities Act. Accountants who provide a report on financial statements that are presented or incorporated by reference in a registration statement should note Article 2 of Regulation S-X. That Article contains the Commission's requirements for qualifications and reports of accountants.

Item 8. Financial Information

The purpose of this standard is to specify which financial statements must be included in the document, as well as the periods to be covered, the age of the financial statements and other information of a financial nature.

A. Consolidated Statements and Other Financial Information.

- 1. The document must contain consolidated financial statements, audited by an independent auditor and accompanied by an audit report, comprised of:
 - (a) balance sheet;
 - (b) statement of comprehensive income (either in a single continuous financial statement or in two separate but consecutive financial statements; or a statement of net income if there was no other comprehensive income);
 - (c) statement showing either (i) changes in equity other than those arising from capital transactions with owners and distributions to owners; or (ii) all changes in equity (including a subtotal of all non-owner items recognized directly in equity);
 - (d) cash flow statement;
 - (e) related notes and schedules required by the comprehensive body of accounting standards pursuant to which the financial statements are prepared; and

- (f) if not included in the primary financial statements, a note analyzing the changes in each caption of shareholders' equity presented in the balance sheet.
- 2. The document should include comparative financial statements that cover the latest three financial years, audited in accordance with a comprehensive body of auditing standards.
- 3. The audit report(s) must cover each of the periods for which these international disclosure standards require audited financial statements. If the auditors have refused to provide a report on the annual accounts or if the report(s) contain qualifications or disclaimers, such refusal or such qualifications or disclaimers shall be reproduced in full and the reasons given, so the host country securities regulator can determine whether or not to accept the financial statements. Include an indication of any other information in the document which has been audited by the auditors.
- 4. The last year of audited financial statements may not be older than 15 months at the time of the offering or listing; provided, however, that in the case of the company's initial public offering, the audited financial statements also shall be as of a date not older than 12 months at the time the document is filed. In such cases, the audited financial statements may cover a period of less than a full year.
- 5. If the document is dated more than nine months after the end of the last audited financial year, it should contain consolidated interim financial statements, which may be unaudited (in which case that fact should be stated), covering at least the first six months of the financial year. The interim financial statements should include a balance sheet, statement of comprehensive income (either in a single continuous financial statement or in two separate but consecutive financial statements; or a statement of net income if there was no other comprehensive income), cash flow statement, and a statement showing either (i) changes in equity other than those arising from capital transactions with owners and distributions to owners, or (ii) all changes in equity (including a subtotal of all non-owner items recognized directly in equity). Each of these statements may be in condensed form as long as it contains the major line items from the latest audited financial statements and includes the major components of assets, liabilities and equity (in the case of the balance sheet); income and expenses (in the case of the statement of comprehensive income) and the major subtotals of cash flows (in the case of the cash flow statement). The interim financial statements should include comparative statements for the same period in the prior financial year, except that the requirement for comparative balance sheet information may be satisfied by presenting the year end balance sheet. If not included in the primary financial statements, a note should be provided analyzing the changes in each caption of shareholders' equity presented in the balance sheet. The interim financial statements should include selected note disclosures that will provide an explanation of events and changes that are

significant to an understanding of the changes in financial position and performance of the enterprise since the last annual reporting date. If, at the date of the document, the company has published interim financial information that covers a more current period than those otherwise required by this standard, the more current interim financial information must be included in the document. Companies are encouraged, but not required, to have any interim financial statements in the document reviewed by an independent auditor. If such a review has been performed and is referred to in the document, a copy of the auditor's interim review report must be provided in the document.

6. If the amount of export sales constitutes a significant portion of the company's total sales volume, provide the total amount of export sales and the percent and amount of export sales in the total amount of sales volume.
 7. Provide information on any legal or arbitration proceedings, including those relating to bankruptcy, receivership or similar proceedings and those involving any third party, which may have, or have had in the recent past, significant effects on the company's financial position or profitability. This includes governmental proceedings pending or known to be contemplated.
 8. Describe the company's policy on dividend distributions.
- B. Significant Changes. Disclose whether or not any significant change has occurred since the date of the annual financial statements, and/or since the date of the most recent interim financial statements, if any, included in the document.

Instructions to Item 8:

1. *This item refers to the company, but note that under Rules 3-05, 3-09, 3-10, 3-14, 3-16, 13-01, and 13-02 of Regulation S-X, you also may have to provide financial statements or financial information for entities other than the issuer. In some cases, you may have to provide financial statements for a predecessor. See the definition of "predecessor" in Exchange Act Rule 12b-2 and Securities Act Rule 405.*
2. *For offerings of securities (a) upon the exercise of outstanding rights granted by the issuer of the securities to be offered, if the rights are granted pro rata to all existing securityholders of the class of securities to which the rights attach; or (b) pursuant to a dividend or interest reinvestment plan; or (c) upon the conversion of outstanding convertible securities or upon the exercise of outstanding transferable warrants issued by the issuer of the securities to be offered, or by an affiliate of that issuer, the 15-month period referred to in Item 8.A.4 is extended to 18 months and the interim financial statements referred to in Item 8.A.5 shall be as of a date within 12 months of the date of the document. The provisions of this paragraph are not applicable if securities are to be offered or sold in a standby underwriting in the United States or similar arrangement.*
3. *If the primary financial statements included in the document represent the first filing by the issuer with the SEC of consolidated financial statements prepared in*

accordance with IFRS, the notes to the financial statements prepared in accordance with IFRS shall disclose the following:

- a. The reconciliation from Previous GAAP to IFRS required by IFRS 1 shall be presented in a form and level of information sufficient to explain all material adjustments to the balance sheet and income statement and, if presented under Previous GAAP, to the cash flow statement; and*
 - b. To the extent the primary financial statements reflect the use of exceptions permitted or required by IFRS 1, the issuer shall identify each exception used, including:*
 - i. An indication of the items or class of items to which the exception was applied; and*
 - ii. A description of what accounting principle was used and how it was applied.*
- 4. For filings on Form 20-F filed pursuant to General Instruction A.(d) of this form and for registration statements, when the issuer is a shell company that is combining with a business, see § 240.15-01 (Rule 15-01 of Regulation S-X).*

Instructions to Item 8.A.2:

- 1. You do not have to provide a balance sheet for the earliest of the three-year periods specified in Item 8.A.2 if that balance sheet is not required by a jurisdiction outside the United States.*
- 2. The financial statements of the issuer must be audited in accordance with the standards of the PCAOB and the auditor must comply with the Commission standards for auditor independence. Refer to Article 2 of Regulation S-X, which contains requirements for qualifications and reports of accountants.*
- 3. In initial registration statements, if the financial statements presented pursuant to Item 8.A.2 are prepared in accordance with U.S. generally accepted accounting principles, the earliest of the three years may be omitted if that information has not previously been included in a filing made under the Securities Act of 1933 or the Securities Exchange Act of 1934.*
- 4. If you are an emerging growth company, as defined in Rule 12b-2 (§240.12b-2 of this chapter), you do not need to present more than two years of audited financial statements in your registration statement for an initial public offering of your common equity securities.*

Instruction to Item 8.A.3: The circumstances in which we would accept an audit report containing a disclaimer or qualification are extremely limited. If you plan to submit this type of report, we recommend that you contact the staff of the Office of Chief Accountant in the Division of Corporation Finance well in advance of filing the document, to discuss the report.

Instructions to Item 8.A.4:

1. *In calculating the 15-month requirement for the age of financial statements, determine the age based on the period of time that has elapsed between the date of the balance sheet and “the time of the offering or listing,” which means the time the registration statement is declared effective.*
2. *The additional requirement that financial statements be no older than 12 months at the date of filing applies only in those limited cases where a nonpublic company is registering its initial public offering of securities. A company may comply with only the 15-month requirement in this item if the company is able to represent that it is not required to comply with the 12-month requirement in any other jurisdiction outside the United States and that complying with the 12-month requirement is impracticable or involves undue hardship. File this representation as an exhibit to the registration statement.*

Instructions to Item 8.A.5:

1. *Item 8.A.5 does not apply to annual reports on Form 20-F.*
2. *The third sentence of Item 8.A.5 explains that the required interim financial statements may be in condensed form using major line items from the latest audited financial statements. To determine which major line items must be included in condensed interim information, see Rules 10-01(a)(1) through (7).*
3. *The third sentence from the end of Item 8.A.5 requires you to include in the document interim financial information that has been published by the company if that information covers a more current period than the statements otherwise required by Item 8. This requirement does not apply to annual reports filed on Form 20-F. The requirement covers any publication of financial information that includes, at a minimum, revenue and income information, even if that information is not published as part of a complete set of financial statements. Whenever you provide more current interim financial information in response to this requirement:*
 - a. *Describe any ways in which the accounting principles, practices and methods used in preparing that interim financial information vary materially from the principles, practices and methods accepted in the United States, and*
 - b. *Quantify any material variations, unless they already are quantified because they occur in other financial statements included in the document.*

A registrant filing financial information that complies with IFRS as issued by the IASB is not required to provide the information described in paragraphs 3(a) and (b) to this Instruction to Item 8.A.5. if that registrant prepares its annual financial statements in accordance with IFRS as issued by the IASB.

4. *A registrant that files interim period financial statements pursuant to Item 8.A.5 is not required to comply with Article 10 of Regulation S-X if that registrant prepares its*

annual financial statements in accordance with IFRS as issued by the IASB, prepares its interim period financial statements in compliance with IAS 34 “Interim Financial Reporting,” and explicitly states its compliance with IAS 34 in the notes to the interim financial statements.

Instructions to Item 8.A.7:

- 1. This Item also requires disclosure of any material proceeding in which any director, any member of senior management, or any of your affiliates is either a party adverse to you or your subsidiaries or has a material interest adverse to you or your subsidiaries.*
- 2. If you are providing the information called for by Item 8.A.7 in an annual report, also describe the disposition of any previously reported litigation that occurred during the last fiscal year.*

Item 9. The Offer and Listing.

The purpose of this standard is to provide information regarding the offer or listing of securities, the plan for distribution of the securities and related matters.

A. Offer and listing details.

1. Indicate the expected price at which the securities will be offered or the method of determining the price, and the amount of any expenses specifically charged to the subscriber or purchaser.
2. If there is not an established market for the securities, the document shall contain information regarding the manner of determination of the offering price as well as of the exercise price of warrants and the conversion price of convertible securities, including who established the price or who is formally responsible for the determination of the price, the various factors considered in such determination and the parameters or elements used as a basis for establishing the price.
3. If the company’s shareholders have pre-emptive purchase rights and where the exercise of the right of pre-emption of shareholders is restricted or withdrawn, the company shall indicate the basis for the issue price if the issue is for cash, together with the reasons for such restriction or withdrawal and the beneficiaries of such restriction or withdrawal if intended to benefit specific persons.
4. Identify the principal host market(s) and principal market(s) outside the principal host market and corresponding trading symbol(s) for those markets for each class of the registrant’s common equity. If significant trading suspensions occurred in the prior three years, they shall be disclosed. If the securities are not regularly traded in an organized market, information shall be given about any lack of liquidity.

5. State the type and class of the securities being offered or listed and furnish the following information:
 - (a) Indicate whether the shares are registered shares or bearer shares and provide the number of shares to be issued and to be made available to the market for each kind of share. The nominal par or equivalent value should be given on a per share basis and, where applicable, a statement of the minimum offer price. Describe the coupons attached, if applicable.
 - (b) Describe arrangements for transfer and any restrictions on the free transferability of the shares.
6. If the rights evidenced by the securities being offered or listed are or may be materially limited or qualified by the rights evidenced by any other class of securities or by the provisions of any contract or other documents, include information regarding such limitation or qualification and its effect on the rights evidenced by the securities to be listed or offered.
7. With respect to securities other than common or ordinary shares to be listed or offered, outline briefly the rights evidenced thereby.
 - (a) If subscription warrants or rights are to be listed or offered, state: the title and amount of securities called for; the amount of warrants or rights outstanding; provisions for changes to or adjustments in the exercise price; the period during which and the price at which the warrants or rights are exercisable; and any other material terms of such warrants or rights.
 - (b) Where convertible securities or stock purchase warrants to be listed or offered are subject to redemption or call, the description of the conversion terms of the securities or material terms of the warrants shall include whether the right to convert or purchase the securities will be forfeited unless it is exercised before the date specified in the notice of redemption or call; the expiration or termination date of the warrants; the kind, frequency and timing of notice of the redemption or call, including where the notice will be published; and, in the case of bearer securities, that investors are responsible for making arrangements to prevent loss of the right to convert or purchase in the event of redemption or call.

B. *Plan of distribution.*

1. The names and addresses of the entities underwriting or guaranteeing the offering shall be listed.
2. To the extent known to the company, indicate whether major shareholders, directors or members of the company's management, supervisory or administrative bodies intend to subscribe in the offering, or whether any person intends to subscribe for more than 5% of the offering.

3. Identify any group of targeted potential investors to whom the securities are offered. If the offering is being made simultaneously in the markets of two or more countries and if a tranche has been or is being reserved for certain of these, indicate any such tranche.
4. If securities are reserved for allocation to any group of targeted investors, including, for example, offerings to existing shareholders, directors, or employees and past employees of the company or its subsidiaries, provide details of these and any other preferential allocation arrangements.
5. Indicate whether the amount of the offering could be increased, such as by the exercise of an underwriter's over-allotment option or "greenshoe," and by how much.
6. Indicate the amount, and outline briefly the plan of distribution, of any securities that are to be offered otherwise than through underwriters. If the securities are to be offered through the selling efforts of brokers or dealers, describe the plan of distribution and the terms of any agreement or understanding with such entities. If known, identify the broker(s) or dealer(s) that will participate in the offering and state the amount to be offered through each.
7. If the securities are to be offered in connection with the writing of exchange-traded call options, describe briefly such transactions.
8. If simultaneously or almost simultaneously with the creation of shares for which admission to official listing is being sought, shares of the same class are subscribed for or placed privately or if shares of other classes are created for public or private placing, details are to be given of the nature of such operations and of the number and characteristics of the shares to which they relate.
9. Unless otherwise described under the response to Item 10.C (Material Contracts), describe the features of the underwriting relationship together with the amount of securities being underwritten by each underwriter in privity of contract with the company or selling shareholders. The foregoing information should include a statement as to whether the underwriters are or will be committed to take and to pay for all of the securities if any are taken, or whether it is an agency or the type of "best efforts" arrangement under which the underwriters are required to take and to pay for only such securities as they may sell to the public.
10. If any underwriter or other financial adviser has a material relationship with the company, describe the nature and terms of such relationship.

C. *Markets.* The company shall disclose all stock exchanges and other regulated markets on which the securities to be offered or listed are traded. When an application for admission to any exchange and/or regulated market is being or will be sought, this must be mentioned, without creating the impression that the listing necessarily will be

approved. If known, the dates on which the shares will be listed and dealt in should be given.

D. *Selling shareholders.* The following information shall be provided:

1. The name and address of the person or entity offering to sell the shares, the nature of any position, office or other material relationship that the selling shareholder has had within the past three years with the company or any of its predecessors or affiliates.
2. The number and class of securities being offered by each of the selling shareholders, and the percentage of the existing equity capital. The amount and percentage of the securities for each particular type of securities beneficially held by the selling shareholder before and immediately after the offering shall be specified.

E. *Dilution.* The following information shall be provided:

1. Where there is a substantial disparity between the public offering price and the effective cash cost to directors or senior management, or affiliated persons, of equity securities acquired by them in transactions during the past five years, or which they have the right to acquire, include a comparison of the public contribution in the proposed public offering and the effective cash contributions of such persons.
2. Disclose the amount and percentage of immediate dilution resulting from the offering, computed as the difference between the offering price per share and the net book value per share for the equivalent class of security, as of the latest balance sheet date.
3. In the case of a subscription offering to existing shareholders, disclose the amount and percentage of immediate dilution if they do not subscribe to the new offering.

F. *Expenses of the issue.* The following information shall be provided:

1. The total amount of the discounts or commissions agreed upon by the underwriters or other placement or selling agents and the company or offeror shall be disclosed, as well as the percentage such commissions represent of the total amount of the offering and the amount of discounts or commissions per share.
2. A reasonably itemized statement of the major categories of expenses incurred in connection with the issuance and distribution of the securities to be listed or offered and by whom the expenses are payable, if other than the company. If any of the securities are to be offered for the account of a selling shareholder, indicate the portion of such expenses to be borne by such shareholder. The

information may be given subject to future contingencies. If the amounts of any items are not known, estimates (identified as such) shall be given.

Instruction to Item 9: *If you are using this Form as a registration statement under the Exchange Act, provide only the information called for by Items 9.A.4-7 and 9.C. If you are using this Form as an annual report, provide only the information called for by Items 9.A.4 and 9.C. If you are providing this information in a Securities Act registration statement, provide the information called for by the entire Item.*

Instruction to Item 9.A: *When you are required to state the title of the securities, the title must indicate the type and general character of the securities, such as whether they are callable, convertible or redeemable and whether there is any preference or fixed rate of dividends.*

Instructions to Item 9.B:

1. *You may satisfy the requirement in Item 9.B.1 to provide the underwriters' addresses by giving the addresses of the lead underwriters for the offering.*
2. *If previously you have not been required to file reports under section 13(a) or 15(d) of the Exchange Act and any of the managing underwriters (or a majority of the principal underwriters) has been organized, reactivated or first registered as a broker-dealer within the past three years, disclose that fact. Also disclose, if true, that the principal business function of this underwriter will be to sell the securities being registered or that your promoters or founders have a material relationship with this underwriter. Give enough details to provide a clear picture of the underwriter's experience and its relationship with you, your promoters or founders, and their controlling persons.*

Instruction to Item 9.F: *Major categories of expenses include at least the following: registration fees, federal taxes, state taxes and fees, trustees' and transfer agents' fees, printing and engraving costs, legal fees, accounting fees, engineering fees, and any premiums paid to insure directors or officers for liabilities in connection with the registration, offer or sale of the securities you are registering.*

 - (1) Registrants shall provide, in their reporting currency, quantitative information about market risk as of the end of the latest fiscal year, in accordance with one of the following three disclosure alternatives. In preparing this quantitative information, registrants shall categorize market risk sensitive instruments into instruments entered into for trading purposes and instruments entered into for purposes other than trading purposes. Within both the trading and other than trading portfolios, separate quantitative information shall be presented, to the extent material, for each market risk exposure category (i.e., interest rate risk, foreign currency exchange rate risk, commodity price risk, and other relevant market risks, such as equity price risk). A registrant may use one of the three alternatives set forth below for all of the required quantitative disclosures about market risk. A registrant also may choose, from among the three alternatives, one disclosure alternative for market risk sensitive instruments entered into for trading purposes and another disclosure alternative for market risk sensitive

instruments entered into for other than trading purposes. Alternatively, a registrant may choose any disclosure alternative, from among the three alternatives, for each risk exposure category within the trading and other than trading portfolios. The three disclosure alternatives are:

- (i) (A) (1) Tabular presentation of information related to market risk sensitive instruments; such information shall include fair values of the market risk sensitive instruments and contract terms sufficient to determine future cash flows from those instruments, categorized by expected maturity dates.
 - (2) Tabular information relating to contract terms shall allow readers of the table to determine expected cash flows from the market risk sensitive instruments for each of the next five years. Comparable tabular information for any remaining years shall be displayed as an aggregate amount.
 - (3) Within each risk exposure category, the market risk sensitive instruments shall be grouped based on common characteristics. Within the foreign currency exchange rate risk category, the market risk sensitive instruments shall be grouped by functional currency and within the commodity price risk category, the market risk sensitive instruments shall be grouped by type of commodity.
 - (4) See the Appendix to this Item for a suggested format for presentation of this information; and
- (B) Registrants shall provide a description of the contents of the table and any related assumptions necessary to understand the disclosures required under paragraph (a)(1)(i)(A) of this Item 11; or
- (ii) (A) Sensitivity analysis disclosures that express the potential loss in future earnings, fair values, or cash flows of market risk sensitive instruments resulting from one or more selected hypothetical changes in interest rates, foreign currency exchange rates, commodity prices, and other relevant market rates or prices over a selected period of time. The magnitude of selected hypothetical changes in rates or prices may differ among and within market risk exposure categories; and
 - (A) Registrants shall provide a description of the model, assumptions, and parameters, which are necessary to understand the disclosures required under paragraph (a)(1)(ii)(A) of this Item 11; or
- (ii) (A) Value at risk disclosures that express the potential loss in future earnings, fair values, or cash flows of market risk sensitive instruments over a selected period of time, with a selected likelihood of occurrence, from changes in interest rates, foreign currency exchange rates, commodity prices, and other relevant market rates or prices;

- (B) (1) For each category for which value at risk disclosures are required under paragraph (a)(1)(iii)(A) of this Item 11, provide either:
- (i) The average, high and low amounts, or the distribution of the value at risk amounts for the reporting period; or
 - (ii) The average, high and low amounts, or the distribution of actual changes in fair values, earnings, or cash flows from the market risk sensitive instruments occurring during the reporting period; or
 - (iii) The percentage or number of times the actual changes in fair values, earnings, or cash flows from the market risk sensitive instruments exceeded the value at risk amounts during the reporting period;
- (2) Information required under paragraph (a)(1)(iii)(B)(1) of this Item 11 is not required for the first fiscal year end in which a registrant must present Item 11 information; and
- (C) Registrants shall provide a description of the model, assumptions, and parameters, which are necessary to understand the disclosures required under paragraphs (a)(1)(iii)(A) and (B) of this Item 11.
- (2) Registrants shall discuss material limitations that cause the information required under paragraph (a)(1) of this Item 11 not to reflect fully the net market risk exposures of the entity. This discussion shall include summarized descriptions of instruments, positions, and transactions omitted from the quantitative market risk disclosure information or the features of instruments, positions, and transactions that are included, but not reflected fully in the quantitative market risk disclosure information.
- (3) Registrants shall present summarized market risk information for the preceding fiscal year. In addition, registrants shall discuss the reasons for material quantitative changes in market risk exposures between the current and preceding fiscal years. Information required by this paragraph(a)(3), however, is not required if disclosure is not required under paragraph (a)(1) of this Item 11 for the current fiscal year. Information required by this paragraph (a)(3) is not required for the first fiscal year end in which a registrant must present Item 11 information.
- (4) If registrants change disclosure alternatives or key model characteristics, assumptions, and parameters used in providing quantitative information about market risk (e.g., changing from tabular presentation to value at risk, changing the scope of instruments included in the model, or changing the definition of loss from fair values to earnings), and if the effects of any such change is material, the registrant shall:

- (i) Explain the reasons for the change; and
- (ii) Either provide summarized comparable information, under the new disclosure method, for the year preceding the current year or, in addition to providing disclosure for the current year under the new method, provide disclosures for the current year and preceding fiscal year under the method used in the preceding year.

Instruction to Item 11: *An issuer filing financial statements that comply with IFRS as issued by the IASB should, in providing information in response to paragraphs of this Item 11 that refer to pronouncements of the FASB, provide disclosure that satisfies the objective of the Item 11 disclosure requirements. In responding to this Item 11, an issuer need not repeat information contained in financial statements that comply with IFRS as issued by the IASB.*

Instructions to Item 11(a).

1. Under Item 11(a)(1):

- A.*** *For each market risk exposure category within the trading and other than trading portfolios, registrants may report the average, high, and low sensitivity analysis or value at risk amounts for the reporting period, as an alternative to reporting year-end amounts.*
- B.*** *In determining the average, high, and low amounts for the fiscal year under instruction 1.A. of the Instructions to Item 11(a), registrants should use sensitivity analysis or value at risk amounts relating to at least four equal time periods throughout the reporting period (e.g., four quarter-end amounts, 12 month-end amounts, or 52 week-end amounts).*
- C.*** *Functional currency means functional currency as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary).*
- D.*** *Registrants using the sensitivity analysis and value at risk disclosure alternatives are encouraged, but not required, to provide quantitative amounts that reflect the aggregate market risk inherent in the trading and other than trading portfolios.*

2. Under Item 11(a)(1)(i):

- A.*** *Examples of contract terms sufficient to determine future cash flows from market risk sensitive instruments include, but are not limited to:*
 - i.*** *Debt instruments - principal amounts and weighted average effective interest rates;*
 - ii.*** *Forwards and futures - contract amounts and weighted average settlement prices;*
 - iii.*** *Options - contract amounts and weighted average strike prices;*

- iv. *Swaps - notional amounts, weighted average pay rates or prices, and weighted average receive rates or prices; and*
 - v. *Complex instruments - likely to be a combination of the contract terms presented in 2.A.i. through iv. of this Instruction;*
- B. *When grouping based on common characteristics, instruments should be categorized, at a minimum, by the following characteristics, when material:*
- i. *Fixed rate or variable rate assets or liabilities;*
 - ii. *Long or short forwards and futures;*
 - iii. *Written or purchased put or call options with similar strike prices;*
 - iv. *Receive fixed and pay variable swaps, receive variable and pay fixed swaps, and receive variable and pay variable swaps;*
 - v. *The currency in which the instruments' cash flows are denominated;*
 - vi. *Financial instruments for which foreign currency transaction gains and losses are reported in the same manner as translation adjustments under generally accepted accounting principles (see, e.g., FASB ASC paragraph 830-20-35-3 (Foreign Currency Matters Topic)).*
 - vii. *Derivatives used to manage risks inherent in anticipated transactions;*
- C. *Registrants may aggregate information regarding functional currencies that are economically related, managed together for internal risk management purposes, and have statistical correlations of greater than 75% over each of the past three years;*
- D. *Market risk sensitive instruments that are exposed to rate or price changes in more than one market risk exposure category should be presented within the tabular information for each of the risk exposure categories to which those instruments are exposed;*
- E. *If a currency swap eliminates all foreign currency exposures in the cash flows of a foreign currency denominated debt instrument, neither the currency swap nor the foreign currency denominated debt instrument are required to be disclosed in the foreign currency risk exposure category. However, both the currency swap and the foreign currency denominated debt instrument should be disclosed in the interest rate risk exposure category; and*
- F. *The contents of the table and related assumptions that should be described include, but are not limited to:*

- i. *The different amounts reported in the table for various categories of the market risk sensitive instruments (e.g., principal amounts for debt, notional amounts for swaps, and contract amounts for options and futures);*
 - ii. *The different types of reported market rates or prices (e.g., contractual rates or prices, spot rates or prices, forward rates or prices); and*
 - iii. *Key prepayment or reinvestment assumptions relating to the timing of reported amounts.*
3. *Under Item 11(a)(1)(ii):*
- A. *Registrants should select hypothetical changes in market rates or prices that are expected to reflect reasonably possible near-term changes in those rates and prices. In this regard, absent economic justification for the selection of a different amount, registrants should use changes that are not less than 10 percent of end of period market rates or prices;*
 - B. *For purposes of instruction 3.A. of the Instructions to Item 11(a), the term reasonably possible has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary);*
 - C. *For purposes of instruction 3.A. of the Instructions to Item 11(a), the term near term means a period of time going forward up to one year from the date of the financial statements (see FASB ASC Master Glossary);*
 - D. *Market risk sensitive instruments that are exposed to rate or price changes in more than one market risk exposure category should be included in the sensitivity analysis disclosures for each market risk category to which those instruments are exposed;*
 - E. *Registrants with multiple foreign currency exchange rate exposures should prepare foreign currency sensitivity analysis disclosures that measure the aggregate sensitivity to changes in all foreign currency exchange rate exposures, including the effects of changes in both transactional currency/functional currency exchange rate exposures and functional currency/reporting currency exchange rate exposures. For example, assume a French division of a registrant presenting its financial statements in U.S. dollars (\$US) invests in a deutschmark (DM)-denominated debt security. In these circumstances, the \$US is the reporting currency and the DM is the transactional currency. In addition, assume this division determines that the French franc (FF) is its functional currency according to FASB ASC Topic 830, Foreign Currency Matters. In preparing the foreign currency sensitivity analysis disclosures, this registrant should report the aggregate potential loss from hypothetical changes in both the DM/FF exchange rate exposure and the FF/\$US exchange rate exposure; and*
 - F. *Model, assumptions, and parameters that should be described include, but are not limited to, how loss is defined by the model (e.g., loss in earnings, fair values, or cash flows), a general description of the modeling technique (e.g., duration*

modeling, modeling that measures the change in net present values arising from selected hypothetical changes in market rates or prices, and a description as to how optionality is addressed by the model), the types of instruments covered by the model (e.g., derivative financial instruments, other financial instruments, derivative commodity instruments, and whether other instruments are included voluntarily, such as certain commodity instruments and positions, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Items 11(a) and 11(b)), and other relevant information about the model's assumptions and parameters, (e.g., the magnitude and timing of selected hypothetical changes in market rates or prices used, the method by which discount rates are determined, and key prepayment or reinvestment assumptions).

4. Under Item 11(a)(1)(iii):

- A. *The confidence intervals selected should reflect reasonably possible near-term changes in market rates and prices. In this regard, absent economic justification for the selection of different confidence intervals, registrants should use intervals that are 95 percent or higher;*
- B. *For purposes of instruction 4.A. of the Instructions to Item 11(a), the term reasonably possible has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary);*
- C. *For purposes of instruction 4.A. of the Instructions to Item 11(a), the term near term means a period of time going forward up to one year from the date of the financial statements (see FASB ASC Master Glossary);*
- D. *Registrants with multiple foreign currency exchange rate exposures should prepare foreign currency value at risk analysis disclosures that measure the aggregate sensitivity to changes in all foreign currency exchange rate exposures, including the aggregate effects of changes in both transactional currency/functional currency exchange rate exposures and functional currency/reporting currency exchange rate exposures. For example, assume a French division of a registrant presenting its financial statements in U.S. dollars (\$US) invests in a deutschmark(DM)-denominated debt security. In these circumstances, the \$US is the reporting currency and the DM is the transactional currency. In addition, assume this division determines that the French franc (FF) is its functional currency according to FASB ASC Topic 830, Foreign Currency Matters. In preparing the foreign currency value at risk disclosures, this registrant should report the aggregate potential loss from hypothetical changes in both the DM/FF exchange rate exposure and the FF/\$US exchange rate exposure; and*
- E. *Model, assumptions, and parameters that should be described include, but are not limited to, how loss is defined by the model (e.g., loss in earnings, fair values, or cash flows), the type of model used (e.g., variance/covariance, historical simulation, or Monte Carlo simulation and a description as to how optionality is addressed by the model), the types of instruments covered by the model (e.g., derivative financial*

instruments, other financial instruments, derivative commodity instruments, and whether other instruments are included voluntarily, such as ascertain commodity instruments and positions, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Items 11(a) and 11(b)), and other relevant information about the model's assumptions and parameters, (e.g., holding periods, confidence intervals, and, when appropriate, the methods used for aggregating value at risk amounts across market risk exposure categories, such as by assuming perfect positive correlation, independence, or actual observed correlation).

5. Under Item 11(a)(2), limitations that should be considered include, but are not limited to:

- A. *The exclusion of certain market risk sensitive instruments, positions, and transactions from the disclosures required under Item 11(a)(1) (e.g., derivative commodity instruments not permitted by contract or business custom to be settled in cash or with another financial instrument, commodity positions, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Items 11(a) and 11(b)). Failure to include such instruments, positions, and transactions in preparing the disclosures under Item 11(a)(1) may be a limitation because the resulting disclosures may not fully reflect the net market risk of a registrant; and*
- B. *The ability of disclosures required under Item 11(a)(1) to reflect fully the market risk that may be inherent in instruments with leverage, option, or prepayment features (e.g., options, including written options, structured notes, collateralized mortgage obligations, leveraged swaps, and options embedded in swaps).*

[end of Instructions to Item 11(a)]

(b) Qualitative information about market risk.

- (1) To the extent material, describe:
 - (i) The registrant's primary market risk exposures;
 - (ii) How those exposures are managed. Such descriptions shall include, but not be limited to, a discussion of the objectives, general strategies, and instruments, if any, used to manage those exposures; and
 - (iii) Changes in either the registrant's primary market risk exposures or how those exposures are managed, when compared to what was in effect during the most recently completed fiscal year and what is known or expected to be in effect in future reporting periods.
- (2) Qualitative information about market risk shall be presented separately for market risk sensitive instruments entered into for trading purposes and those entered into for purposes other than trading.

Instructions to Item 11(b).

1. *For purposes of disclosure under Item 11(b), primary market risk exposures means:*
 - A. *The following categories of market risk: interest rate risk, foreign currency exchange rate risk, commodity price risk, and other relevant market rate or price risks (e.g., equity price risk); and*
 - B. *Within each of these categories, the particular markets that present the primary risk of loss to the registrant. For example, if a registrant has a material exposure to foreign currency exchange rate risk and, within this category of market risk, is most vulnerable to changes in dollar/yen, dollar/pound, and dollar/peso exchange rates, the registrant should disclose those exposures. Similarly, if a registrant has a material exposure to interest rate risk and, within this category of market risk, is most vulnerable to changes in short-term U.S. prime interest rates, it should disclose the existence of that exposure.*
2. *For purposes of disclosure under Item 11(b), registrants should describe primary market risk exposures that exist as of the end of the latest fiscal year, and how those exposures are managed.*

General Instructions to Items 11(a) and 11(b).

1. *The disclosures called for by Items 11(a) and 11(b) are intended to clarify the registrant's exposures to market risk associated with activities in derivative financial instruments, other financial instruments, and derivative commodity instruments.*
2. *In preparing the disclosures under Items 11(a) and 11(b), registrants are required to include derivative financial instruments, other financial instruments, and derivative commodity instruments.*
3. *For purposes of Items 11(a) and 11(b), derivative financial instruments, other financial instruments, and derivative commodity instruments (collectively referred to as "market risk sensitive instruments") are defined as follows:*
 - A. *Derivative financial instruments has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary), and includes futures, forwards, swaps, options, and other financial instruments with similar characteristics;*
 - B. *Other financial instruments means all financial instruments as defined by generally accepted accounting principles for which fair value disclosures are required (see, e.g., FASB ASC paragraph 825-10-5--8 (Financial Instruments Topic)), except for derivative financial instruments, as defined above;*
 - C. *i. Other financial instruments include, but are not limited to, trade accounts receivable, investments, loans, structured notes, mortgage-backed securities, trade*

accounts payable, indexed debt instruments, interest-only and principal-only obligations, deposits, and other debt obligations;

ii. Other financial instruments exclude employers and plans obligations for pension and other post-retirement benefits, substantively extinguished debt, insurance contracts, lease contracts, warranty obligations and rights, unconditional purchase obligations, investments accounted for under the equity method, minority interests in consolidated enterprises, and equity instruments issued by the registrant and classified in stockholders' equity in the statement of financial position (see, e.g., FASB ASC paragraph 825-10-50-8). For purposes of this item, trade accounts receivable and trade accounts payable need not be considered other financial instruments when their carrying amounts approximate fair value; and

D. Derivative commodity instruments include, to the extent such instruments are not derivative financial instruments, commodity futures, commodity forwards, commodity swaps, commodity options, and other commodity instruments with similar characteristics that are permitted by contract or business custom to be settled in cash or with another financial instrument. For purposes of this paragraph, settlement in cash includes settlement in cash of the net change in value of the derivative commodity instrument (e.g., net cash settlement based on changes in the price of the underlying commodity).

4. A. In addition to providing required disclosures for the market risk sensitive instruments defined in instruction 2. of the General Instructions to Items 11(a) and 11(b), registrants are encouraged to include other market risk sensitive instruments, positions, and transactions within the disclosures required under Items 11(a) and 11(b). Such instruments, positions, and transactions might include commodity positions, derivative commodity instruments that are not permitted by contract or business custom to be settled in cash or with another financial instrument, cash flows from anticipated transactions, and certain financial instruments excluded under instruction 3.C.ii. of the General Instructions to Items 11(a) and 11(b).

B. Registrants that voluntarily include other market risk sensitive instruments, positions and transactions within their quantitative disclosures about market risk under the sensitivity analysis or value at risk disclosure alternatives are not required to provide separate market risk disclosures for any voluntarily selected instruments, positions, or transactions. Instead, registrants selecting the sensitivity analysis and value at risk disclosure alternatives are permitted to present comprehensive market risk disclosures, which reflect the combined market risk exposures inherent in both the required and any voluntarily selected instruments, position, or transactions. Registrants that choose the tabular presentation disclosure alternative should present voluntarily selected instruments, positions, or transactions in a manner consistent with the requirements in Item 11(a) for market risk sensitive instruments.

C. If a registrant elects to include voluntarily a particular type of instrument, position, or transaction in their quantitative disclosures about market risk, that registrant

should include all, rather than some, of those instruments, positions, or transactions within those disclosures. For example, if a registrant holds in inventory a particular type of commodity position and elects to include that commodity position within their market risk disclosures, the registrant should include the entire commodity position, rather than only a portion thereof, in their quantitative disclosures about market risk.

5.
 - A. *Under Items 11(a) and 11(b), a materiality assessment should be made for each market risk exposure category within the trading and other than trading portfolios.*
 - B. *For purposes of making the materiality assessment under instruction 5.A. of the General Instructions to Items 11(a) and 11(b), registrants should evaluate both:*
 - i. *The materiality of the fair values of derivative financial instruments, other financial instruments, and derivative commodity instruments outstanding as of the end of the latest fiscal year; and*
 - ii. *The materiality of potential, near-term losses in future earnings, fair values, and cash flows from reasonably possible near-term changes in market rates or prices.*
 - iii. *If either paragraphs B.i. or B.ii. in this instruction of the General Instructions to Items 11(a) and 11(b) are material, the registrant should disclose quantitative and qualitative information about market risk, if such market risk for the particular market risk exposure category is material.*
 - C. *For purposes of instruction 5.B.i. of the General Instructions to Items 11(a) and 11(b), registrants generally should not net fair values, except to the extent allowed under generally accepted accounting principles (see, e.g., FASB ASC Subtopic 210-20, Balance Sheet - Offsetting). For example, under this instruction, the fair value of assets generally should not be netted with the fair value of liabilities.*
 - D. *For purposes of instruction 5.B.ii. of the General Instructions to Items 11(a) and 11(b), registrants should consider, among other things, the magnitude of:*
 - i. *Past market movements;*
 - ii. *Reasonably possible, near-term market movements; and*
 - iii. *Potential losses that may arise from leverage, option, and multiplier features.*
 - E. *For purposes of instructions 5.B.ii. and 5.D.ii. of the General Instructions to Items 11(a) and 11(b), the term near term means a period of time going forward up to one year from the date of the financial statements (see FASB ASC Master Glossary).*
 - F. *For the purpose of instructions 5.B.ii. and 5.D.ii. of the General Instructions to Items 11(a) and 11(b), the term reasonably possible has the same meaning as defined by generally accepted accounting principles (see, e.g., FASB ASC Master Glossary).*

6. *For purposes of Items 11(a) and 11(b), registrants should present the information outside of, and not incorporate the information into, the financial statements (including the footnotes to the financial statements). In addition, registrants are encouraged to provide the required information in one location. However, alternative presentation, such as inclusion of all or part of the information in Management's Discussion and Analysis, may be used at the discretion of the registrant. If information is disclosed in more than one location, registrants should provide cross-references to the locations of the related disclosures.*
7. *For purposes of the instructions to Items 11(a) and 11(b), trading purposes means dealing and other trading activities measured at fair value with gains and losses recognized in earnings). In addition, anticipated transactions means transactions (other than transactions involving existing assets or liabilities or transactions necessitated by existing firm commitments) an enterprise expects, but is not obligated, to carry out in the normal course of business.*

[end of General Instructions to Items 11(a) and 11(b)]

- (c) Interim periods. If interim period financial statements are included or are required to be included by Article 3 of Regulation S-X (17 CFR 210), discussion and analysis shall be provided so as to enable the reader to assess the sources and effects of material changes in information that would be provided under Item 11 of Form 20-F from the end of the preceding fiscal year to the date of the most recent interim balance sheet.

Instructions to Item 11(c).

1. *Information required by paragraph (c) of this Item 11 is not required until after the first fiscal year end in which this Item 11 is applicable.*
- (d) Safe Harbor.
 - (1) The safe harbor provided in Section 27A of the Securities Act of 1933 (15 U.S.C. 77z-2) and Section 21E of the Securities Exchange Act of 1934 (15 U.S.C. 78u-5) ("statutory safe harbors") shall apply, with respect to all types of issuers and transactions, to information provided pursuant to paragraphs (a), (b), and (c) of this Item 11, provided that the disclosure is made by an issuer; a person acting on behalf of the issuer; an outside reviewer retained by the issuer making a statement on behalf of the issuer; or an underwriter, with respect to information provided by the issuer or information derived from information provided by the issuer.
 - (2) For purposes of this paragraph (d) of this Item 11 only:
 - (i) All information required by paragraphs (a), (b)(1)(i), (b)(1)(iii), and (c) of this Item 11 is considered forward looking statements for purposes of the statutory safe harbors, except for historical facts such as the terms of particular contracts and the number of market risk sensitive instruments held during or at the end of the reporting period; and

- (ii) With respect to paragraph (a) of this Item 11, the meaningful cautionary statements prong of the statutory safe harbors will be satisfied if a registrant satisfies all requirements of that same paragraph (a) of this Item 11.
- (e) Smaller reporting companies. Smaller reporting companies, as defined in §230.405 of this chapter and §240.12b-2 of this chapter, need not provide the information required by this Item 11, whether or not they file on forms specially designated as smaller reporting company [or small business issuer] forms.

General Instructions to Items 11(a), 11(b), 11(c), 11(d), and 11(e).

1. *[Reserved]*
2.
 - A. *For purposes of instruction 1. of the General Instructions to Items 11(a), 11(b), 11(c), 11(d), and 11(e), bank registrants and thrift registrants include any registrant which has control over a depository institution.*
 - B. *For purposes of instruction 2.A. of the General Instructions to Items 11(a), 11(b), 11(c), 11(d), and 11(e), a registrant has control over a depository institution if:*
 - i. *The registrant directly or indirectly or acting through one or more other persons owns, controls, or has power to vote 25% or more of any class of voting securities of the depository institution;*
 - ii. *The registrant controls in any manner the election of a majority of the directors or trustees of the depository institution; or*
 - iii. *The Federal Reserve Board or Office of Thrift Supervision determines, after notice and opportunity for hearing, that the registrant directly or indirectly exercises a controlling influence over the management or policies of the depository institution;*
 - C. *For purposes of instruction 2.B. of the General Instructions to Items 11(a), 11(b), 11(c), 11(d), and 11(e), a depository institution means any of the following:*
 - iv. *An insured depository institution as defined in section 3(c)(2) of the Federal Deposit Insurance Act (12 U.S.C.A. Sec.1813 (c));*
 - v. *An institution organized under the laws of the United States, any State of the United States, the District of Columbia, any territory of the United States, Puerto Rico, Guam, American Samoa, or the Virgin Islands, which both accepts demand deposits or deposits that the depositor may withdraw by check or similar means for payment to third parties or others and is engaged in the business of making commercial loans.*
 - D. *For purposes of instruction 1. of the General Instructions to Items 11(a), 11(b), 11(c), 11(d), and 11(e), market capitalization is the aggregate market value of*

common equity as set forth in General Instruction I.B.1. of Form S-3; provided however, that common equity held by affiliates is included in the calculation of market capitalization; and provided further that instead of using the 60 day period prior to filing referenced in General Instruction I.B.1. of Form S-3, the measurement date is January 28, 1997.

Appendix to Item 11 - Tabular Disclosures

The tables set forth below are illustrative of the format that might be used when a registrant elects to present the information required by paragraph (a)(1)(i)(A) of Item 11 regarding terms and information about derivative financial instruments, other financial instruments, and derivative commodity instruments. These examples are for illustrative purposes only. Registrants are not required to display the information in the specific format illustrated below. Alternative methods of display are permissible as long as the disclosure requirements of the section are satisfied. Furthermore, these examples were designed primarily to illustrate possible formats for presentation of the information required by the disclosure item and do not purport to illustrate the broad range of derivative financial instruments, other financial instruments, and derivative commodity instruments utilized by registrants.

Interest Rate Sensitivity

The table below provides information about the Company's derivative financial instruments and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected (contractual) maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on implied forward rates in the yield curve at the reporting date. The information is presented in U.S. dollar equivalents, which is the Company's reporting currency. The instrument's actual cash flows are denominated in both U.S. dollars (\$US) and German deutschmarks (DM), as indicated in parentheses.

Exchange Rate Sensitivity

The table below provides information about the Company's derivative financial instruments, other financial instruments, and firmly committed sales transactions by functional currency and presents such information in U.S. dollar equivalents.¹ The table summarizes information on instruments and transactions that are sensitive to foreign currency exchange rates, including foreign currency forward exchange agreements, deutschmark (DM)-denominated debt obligations, and firmly committed DM sales transactions. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For firmly committed DM-sales transactions, sales amounts are presented by the expected transaction date, which are not expected to exceed two years. For foreign currency forward exchange agreements, the table presents the notional amounts and weighted average exchange rates by expected (contractual) maturity dates. These notional amounts generally are used to calculate the contractual payments to be exchanged under the contract.

¹ The information is presented in U.S. dollars because that is the registrant's reporting currency.

Commodity Price Sensitivity

The table below provides information about the Company's corn inventory and futures contracts that are sensitive to changes in commodity prices, specifically corn prices. For inventory, the table presents the carrying amount and fair value at December 31, 19x1. For the futures contracts the table presents the notional amounts in bushels, the weighted average contract prices, and the total dollar contract amount by expected maturity dates, the latest of which occurs one year from the reporting date. Contract amounts are used to calculate the contractual payments and quantity of corn to be exchanged under the futures contracts.

² Similar tabular information would be provided for other functional currencies.

³ Pursuant to General Instruction 4 to Items 11(a) and 11(b) of Form 20-F, registrants may include cash flows from anticipated transactions and operating cash flows resulting from non-financial and non-commodity instruments.

The tax effects of any “original issue discount” as that term is defined in Section 1232 of the Internal Revenue Code (26 U.S.C. 1232), including cases where the debt security is being sold in a package with another security and the allocation of the offering price between the two securities may have the effect of offering the debt security at an original issue discount.
10. The name and address of the trustee and the nature of any material relationship between the trustee and you or any of your affiliates, the percentage of the class of securities that is needed to require the trustee to take action, and what indemnification the trustee may require before proceeding to enforce the lien.

- (b) *A registrant may have separate codes of ethics for different types of officers. Furthermore, a "code of ethics" within the meaning of paragraph (b) of this Item may be a portion of a broader document that addresses additional topics or that applies to more persons than those specified in paragraph (a). Item 16F. Change in Registrant's Certifying Accountant.

(a)

- (1) If during the registrant's two most recent fiscal years or any subsequent interim period, an independent accountant who was previously engaged as the principal accountant to audit the registrant's financial statements, or an independent accountant who was previously engaged to audit a significant subsidiary and on whom the principal accountant expressed reliance in its report, has resigned (or indicated it has declined to stand for re-election after the completion of the current audit) or was dismissed, then the registrant shall:
 - (i) State whether the former accountant resigned, declined to stand for re-election or was dismissed and the date thereof.
 - (ii) State whether the principal accountant's report on the financial statements for either of the past two years contained an adverse opinion or a disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope, or accounting principles; and also describe the nature of each such adverse opinion, disclaimer of opinion, modification, or qualification.
 - (iii) State whether the decision to change accountants was recommended or approved by:
 - (A) Any audit or similar committee of the board of directors, if the issuer has such a committee; or
 - (B) The board of directors, if the issuer has no such committee.
 - (iv) State whether during the registrant's two most recent fiscal years and any subsequent interim period preceding such resignation, declination or dismissal there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s), if not resolved to the satisfaction of the former accountant, would have caused it to make reference to the subject matter of the disagreement(s) in connection with its report. The disagreements required to be reported in response to this Item include both those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this Item are those that occur at the decision-making level, *i.e.*, between personnel of the registrant responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report. Also:
 - (A) Describe each such disagreement;

- (B) State whether any audit or similar committee of the board of directors, or the board of directors, discussed the subject matter of each of such disagreements with the former accountant; and
 - (C) State whether the registrant has authorized the former accountant to respond fully to the inquiries of the successor accountant concerning the subject matter of each of such disagreements and, if not, describe the nature of any limitation thereon and the reason therefore.
- (v) Provide the information required by paragraph (a)(1)(iv) of this Item for each of the kinds of events (even though the registrant and the former accountant did not express a difference of opinion regarding the event) listed in paragraphs (a)(1)(v) (A) through (D) of this Item, that occurred within the registrant's two most recent fiscal years and any subsequent interim period preceding the former accountant's resignation, declination to stand for re-election, or dismissal ("reportable events"). If the event led to a disagreement or difference of opinion, then the event should be reported as a disagreement under paragraph (a)(1)(iv) of this Item and need not be repeated under this paragraph.
- (A) The accountant's having advised the registrant that the internal controls necessary for the registrant to develop reliable financial statements do not exist;
 - (B) The accountant's having advised the registrant that information has come to the accountant's attention that has led it to no longer be able to rely on management's representations, or that has made it unwilling to be associated with the financial statements prepared by management;
 - (C) (1) The accountant's having advised the registrant of the need to expand significantly the scope of its audit, or that information has come to the accountant's attention during the time period covered by Item 16F(a)(1)(iv), that if further investigated may:
 - (i) Materially impact the fairness or reliability of either: a previously issued audit report or the underlying financial statements; or the financial statements issued or to be issued covering the fiscal period(s) subsequent to the date of the most recent financial statements covered by an audit report (including information that may prevent it from rendering an unqualified audit report on those financial statements); or
 - (ii) Cause it to be unwilling to rely on management's representations or be associated with the registrant's financial statements; and

- (2) Due to the accountant's resignation (due to audit scope limitations or otherwise) or dismissal, or for any other reason, the accountant did not so expand the scope of its audit or conduct such further investigation; or
- (D)
 - (1) The accountant's having advised the registrant that information has come to the accountant's attention that it has concluded materially impacts the fairness or reliability of either (i) a previously issued audit report or the underlying financial statements, or (ii) the financial statements issued or to be issued covering the fiscal period(s) subsequent to the date of the most recent financial statements covered by an audit report (including information that, unless resolved to the accountant's satisfaction, would prevent it from rendering an unqualified audit report on those financial statements); and
 - (2) Due to the accountant's resignation, dismissal or declination to stand for reelection, or for any other reason, the issue has not been resolved to the accountant's satisfaction prior to its resignation, dismissal or declination to stand for re-election.
- (2) If during the registrant's two most recent fiscal years or any subsequent interim period, a new independent accountant has been engaged as either the principal accountant to audit the registrant's financial statements, or as an independent accountant to audit a significant subsidiary and on whom the principal accountant is expected to express reliance in its report, then the registrant shall identify the newly engaged accountant and indicate the date of such accountant's engagement. In addition, if during the registrant's two most recent fiscal years, and any subsequent interim period prior to engaging that accountant, the registrant (or someone on its behalf) consulted the newly engaged accountant regarding:
 - (i) Either: The application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the registrant's financial statements, and either a written report was provided to the registrant or oral advice was provided that the new accountant concluded was an important factor considered by the registrant in reaching a decision as to the accounting, auditing or financial reporting issue; or
 - (ii) Any matter that was either the subject of a disagreement (as defined in Item 16F(a)(1)(iv) and the related instructions to this Item) or a reportable event (as described in Item 16F(a)(1)(v)), then the registrant shall:
 - (A) So state and identify the issues that were the subjects of those consultations;

- (B) Briefly describe the views of the newly engaged accountant as expressed orally or in writing to the registrant on each such issue and, if written views were received by the registrant, file them as an exhibit to the annual report requiring compliance with this Item 16F(a);
 - (C) State whether the former accountant was consulted by the registrant regarding any such issues, and if so, provide a summary of the former accountant's views; and
 - (D) Request the newly engaged accountant to review the disclosure required by this Item 16F(a) before it is filed with the Commission and provide the new accountant the opportunity to furnish the registrant with a letter addressed to the Commission containing any new information, clarification of the registrant's expression of its views, or the respects in which it does not agree with the statements made by the registrant in response to Item 16F(a). The registrant shall file any such letter as an exhibit to the annual report containing the disclosure required by this Item.
- (3) The registrant shall provide the former accountant with a copy of the disclosures it is making in response to this Item 16F(a). The registrant shall request the former accountant to furnish the registrant with a letter addressed to the Commission stating whether it agrees with the statements made by the registrant in response to this Item 16F(a) and, if not, stating the respects in which it does not agree. The registrant shall file the former accountant's letter as an exhibit to the annual report or registration statement containing this disclosure. If the change in accountants occurred less than 30 days prior to the filing of the annual report or registration statement and the former accountant's letter is unavailable at the time of the filing, then the registrant shall request the former accountant to provide the letter as promptly as possible so that the registrant can file the letter with the Commission within ten business days after the filing of the annual report or registration statement. In either case, the former accountant may provide the registrant with an interim letter highlighting specific areas of concern and indicating that a more detailed letter will be forthcoming. If not filed with the annual report or registration statement containing the registrant's disclosure under this Item 16F(a), then the interim letter, if any, shall be filed by the registrant by amendment promptly.
- (b) If: (1) In connection with a change in accountants subject to paragraph (a) of this Item 16F, there was any disagreement of the type described in paragraph (a)(1)(iv) or any reportable event as described in paragraph (a)(1)(v) of this Item;
- (2) During the fiscal year in which the change in accountants took place or during the subsequent fiscal year, there have been any transactions or events similar to those which involved such disagreement or reportable event; and

- (3) Such transactions or events were material and were accounted for or disclosed in a manner different from that which the former accountants apparently would have concluded was required, the registrant shall state the existence and nature of the disagreement or reportable event and also state the effect on the financial statements if the method had been followed which the former accountants apparently would have concluded was required. These disclosures need not be made if the method asserted by the former accountants ceases to be generally accepted because of authoritative standards or interpretations subsequently issued.

Instructions to Item 16F:

1. [Reserved]
2. The disclosure called for by paragraph (a) of this Item need not be provided if it has been previously reported, as that term is defined in Rule 12b-2 under the Exchange Act (§240.12b-2 of this chapter). The disclosure called for by paragraph (b) of this Item must be furnished, where required, notwithstanding any prior disclosure about accountant changes or disagreements.
3. The information required by paragraph (a) of this Item need not be provided for a company being acquired by the registrant in a transaction being registered on Form F-4 that is not subject to the filing requirements of either Section 13(a) or 15(d) of the Exchange Act.
4. The term “disagreements” as used in this Item shall be interpreted broadly to include any difference of opinion concerning any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which (if not resolved to the satisfaction of the former accountant) would have caused it to make reference to the subject matter of the disagreement in connection with its report. It is not necessary for there to have been an argument to have had a disagreement, merely a difference of opinion. For purposes of this Item, however, the term “disagreements” does not include initial differences of opinion based on incomplete facts or preliminary information that were later resolved to the former accountant’s satisfaction by, and providing the registrant and the accountant do not continue to have a difference of opinion upon, obtaining additional relevant facts or information.
5. In determining whether any disagreement or reportable event has occurred, an oral communication from the engagement partner or another person responsible for rendering the accounting firm’s opinion (or his/her designee) will generally suffice as the accountant advising the registrant of a reportable event or as a statement of a disagreement at the “decision-making level” within the accounting firm and require disclosure under this Item.
6. The term “board of directors” as used in this Item 16F has the meaning set forth in §240.10A-3(e)(2).

Item 16G. Corporate Governance.

If the registrant's securities are listed on a national securities exchange, provide a concise summary of any significant ways in which its corporate governance practices differ from those followed by domestic companies under the listing standards of that exchange.

 - (ii) the potential to have such a pattern.

Item 17. Financial Statements.

- (a) The registrant shall furnish financial statements for the same fiscal years and accountants' certificates that would be required to be furnished if the registration statement were on Form 10 or the annual report on Form 10-K. Schedules designated by §§ 210.12-04, 210.12-09, 210.12-15, 210.12-16, 210.12-17, 210.12-18, 210.12-28, and 210.12-29 of this chapter shall be furnished if applicable to the registrant.
- (b) The financial statements shall disclose an information content substantially similar to financial statements that comply with U.S. generally accepted accounting principles and Regulation S-X.
- (c) The financial statements and schedules required by paragraph (a) above may be prepared according to U.S. generally accepted accounting principles or IFRS as issued by the IASB. If the financial statements comply with IFRS as issued by the IASB, such compliance must be unreservedly and explicitly stated in the notes to the financial statements and the auditor's report must include an opinion on whether the financial statements comply with IFRS as issued by the IASB. If the notes and auditor's report of an issuer do not contain the information in the preceding sentence, then the U.S. GAAP reconciliation information described in paragraphs (c)(1) and (c)(2) must be provided. Alternatively, such financial statements and schedules may be prepared according to a comprehensive body of accounting principles other than those generally accepted in the United States or IFRS as issued by the IASB if the following are disclosed:
 - (1) An indication, in the accountant's report or in a reasonably prominent headnote before the financial statements, of the comprehensive body of accounting principles used to prepare the financial statements.
 - (2) A discussion of the material variations in the accounting principles, practices, and methods used in preparing the financial statements from the principles, practices, and methods generally accepted in the United States and in Regulation S-X. Such material variations shall be quantified in the following format:
 - (i) For each year and any interim periods for which an income statement is presented, net income shall be reconciled in a tabular format, substantially similar to the one shown below, on the face of the income statement or in a note thereto. Each material variation shall be described and quantified as a separate reconciling item, but several material variations may be combined on the face of the income statement if shown separately in a note. However, reconciliation of net income of the earliest of the three years may be omitted if that information has not previously been included in a filing made under the Securities Act or Exchange Act.

- (ii) For each balance sheet presented, indicate the amount of each material variation between an amount of a line item appearing in a balance sheet and the amount determined using U.S. generally accepted accounting principles and Regulation S-X. Such amounts may be shown in parentheses, in columns, as a reconciliation of the equity section, as a restated balance sheet, or in any similar format that clearly presents the differences in the amounts.
- (iii) For each period for which an income statement is presented and required to be reconciled to generally accepted accounting principles in the United States, provide either a statement of cash flows prepared in accordance with generally accepted accounting principles in the United States or with International Accounting Standard No. 7, as amended in October 1992; or furnish in a note to the financial statements a quantified description of the material differences between cash or funds flows reported in the primary financial statements and cash flows that would be reported in a statement of cash flows prepared in accordance with accounting principles generally accepted in the United States.
- (iv) (A) Issuers that prepare their financial statements on a basis of accounting other than U.S. generally accepted accounting principles in a reporting currency that comprehensively includes the effects of price level changes in its primary financial statements using the historical cost/constant currency or current cost approach, may omit the disclosures specified by paragraphs (c)(2)(i), (c)(2)(ii), and (c)(2)(iii) of this Item relating to effects of price level changes. The financial statements should describe the basis of presentation, and that such effects have not been included in the reconciliation.
- (B) Issuers that prepare their financial statements on a basis of accounting other than U.S. generally accepted accounting principles

that translates amounts in financial statements stated in a currency of a hyperinflationary economy into the issuer's reporting currency in accordance with International Accounting Standards No. 21, "The Effects of Changes in Foreign Exchange Rates," as amended in 1993, using the historical cost/constant currency approach, may omit the disclosures specified by paragraphs (c)(2)(i), (c)(2)(ii), and (c)(2)(iii) of this Item relating to the effects of the different method of accounting for an entity in a hyperinflationary environment.

- (C) If the method of accounting for an operation in a hyperinflationary economy complies with IAS 21, a statement to that effect must be included in the financial statements. The reconciliation shall state that such amounts presented comply with Item 17 of Form 20-F and are different from that required by U.S. generally accepted accounting principles.
- (v) Issuers that prepare financial statements on a basis of accounting other than U.S. generally accepted accounting principles that are furnished for a business acquired or to be acquired pursuant to §210.305 of this chapter may omit the disclosures specified by paragraphs (c)(2)(i), (c)(2)(ii) and (c)(2)(iii) of this Item if the conditions specified in the definition of a significant subsidiary in § 210.1-02(w) of this chapter do not exceed 30 percent. Issuers that prepare financial statements using IFRS as issued by the IASB that are furnished pursuant to §210.3-05 may omit the disclosures specified by paragraphs (c)(2) (i), (c)(2)(ii), and (c)(2)(iii) of this Item regardless of the size of the business acquired or to be acquired.
- (vi) Issuers that prepare financial statements on a basis of accounting other than U.S. generally accepted accounting principles that are furnished for a less-than-majority-owned investee pursuant to §210.309 of this chapter may omit the disclosures specified by paragraphs (c)(2)(i), (c)(2)(ii) and (c)(2)(iii) of this Item if the first and third conditions specified in the definition of a significant subsidiary in §210.102(w) of this chapter do not exceed 30 percent. Issuers that pre- pare financial statements using IFRS as issued by the IASB that are furnished pursuant to §210.3-09 may omit the disclosures specified by paragraphs (c)(2)(i), (c)(2)(ii), and (c)(2)(iii) of this Item regardless of the size of the investee.
- (vii) Issuers that prepare financial statements on a basis of accounting other than U.S. generally accepted accounting principles that allows proportionate consolidation for investments in joint ventures that would be accounted for under the equity method pursuant to U.S. generally accepted accounting principles may omit differences in classification or display that result from using proportionate consolidation in the reconciliation to U.S. generally accepted accounting principles specified by paragraphs (c)(2)(i), (c)(2)(ii) and (c)(2)(iii) of this Item; Provided, the joint venture is an operating entity, the significant financial operating policies of which are,

by contractual arrangement, jointly controlled by all parties having an equity interest in the entity. Financial statements that are presented using proportionate consolidation must provide summarized balance sheet and income statement information using the captions specified in §210.1-02(aa) of this chapter and summarized cash flow information resulting from operating, financing and investing activities relating to its pro rata interest in the joint venture.

Instructions:

1. *If the variations quantified pursuant to paragraph (c) are significant, the registrant should consider presenting them on the face of the financial statements.*
2. *Earnings per share computed according to generally accepted accounting principles in the United States shall be presented if materially different from the earnings per share otherwise presented.*
3. *[Reserved]*
4. *If the cash flows statement prepared under the basis of accounting used in the primary financial statements complies with International Accounting Standard No. 7 or U.S. generally accepted accounting principles, a statement to this effect must be included in the financial statements or the accountant's report. If the cash flows statement in the primary financial statements is prepared in accordance with either U.S. generally accepted accounting principles or International Accounting Standard No. 7 but such presentation departs from the comprehensive body of accounting principles otherwise followed in the financial statements, the reference to the departure in the accountant's report must identify the body of accounting standards used in preparing the cash flow statement. If a supplemental cash flows statement that complies with either International Accounting Standards or U.S. generally accepted accounting principles is furnished in a note to the financial statements, the body of accounting standards used in preparing the statement must be indicated. The basis of presentation must be consistent for all periods.*
5. *For purposes of this Item, a hyperinflationary economy is one that has cumulative inflation of approximately 100% or more over the most recent three year period.*

However, information may be omitted (i) for any period in which net income has not been presented on a basis reconciled to

United States generally accepted accounting principles, or (ii) if the financial statements are furnished pursuant to §210.3-05 or less-than-majority owned investee pursuant to §210.309 of this chapter.

INSTRUCTIONS AS TO EXHIBITS

File the exhibits listed below as part of an Exchange Act registration statement or report. Exchange Act Rule 12b-23(c) explains the circumstances in which you may incorporate exhibits by reference. Exchange Act Rule 24b-2 explains the procedure to be followed in requesting confidential treatment of information required to be filed.

Previously filed exhibits may be incorporated by reference. If any previously filed exhibits have been amended or modified, file copies of the amendment or modification or copies of the entire exhibit as amended or modified.

If the Form 20-F registration statement or annual report requires the inclusion, as an exhibit or attachment, of a document that is in a foreign language, you must provide instead either an English translation or an English summary of the foreign language document in accordance with Exchange Act Rule 12b-12(d) (17 CFR 240.12b-12(d)) for both electronic and paper filings. You may submit a copy of the unabridged foreign language document along with the English translation or summary as permitted by Regulation S-T Rule 306(b) (17 CFR 232.306(b)) for electronic filings or by Exchange Act Rule 12b-12(d)(4) (17 CFR 240.12b-12(d)(4)) for paper filings.

Include an exhibit index in each registration statement or report you file, immediately preceding the exhibits you are filing. The exhibit index must list each exhibit according to the number assigned to it below. If an exhibit is incorporated by reference, note that fact in the exhibit index. For paper filings, the pages of the manually signed original registration statement should be numbered in sequence, and the exhibit index should give the page number in the sequential numbering system where each exhibit can be found.

Schedules (or similar attachments) to the exhibits required by this Form 20-F are not required to be filed unless they contain information material to an investment or voting decision and that information is not otherwise disclosed in the exhibit or the disclosure document. Each exhibit filed must contain a list briefly identifying the contents of all omitted schedules. Registrants need not prepare a separate list of omitted information if such information is already included within the exhibit in a manner that conveys the subject matter of the omitted schedules and attachments. In addition, the registrant must provide a copy of any omitted schedule to the Commission or its staff upon request.

The registrant may redact information from exhibits required to be filed by this Form 20-F if disclosure of that information would constitute a clearly unwarranted invasion of personal privacy (e.g., disclosure of bank account numbers, social security numbers, home addresses and similar information). The registrant is not required to undertake or provide to the Commission upon request a materiality or competitive harm analysis of this redacted information.

1. The articles of incorporation or association and bylaws, or comparable instruments, as currently in effect and any amendments to those documents. If you are filing an amendment, file a complete copy of the document as amended.

2. (a) All instruments defining the rights of holders of the securities being registered. You do not have to file instruments that define the rights of participants, rather than security holders, in an employee benefit plan.
- (b) All instruments defining the rights of holders of long-term debt issued by you or any subsidiary for which you are required to file consolidated or unconsolidated financial statements, except that you do not have to file:
- (i) Any instrument relating to long-term debt that is not being registered on this registration statement, if the total amount of securities authorized under that instrument does not exceed 10% of the total assets of you and your subsidiaries on a consolidated basis and you have filed an agreement to furnish us a copy of the instrument if we request it;
 - (ii) Any instrument relating to a class of securities if, on or before the date you deliver the securities being registered, you take appropriate steps to assure that class of securities will be redeemed or retired; or
 - (iii) Copies of instruments evidencing script certificates for fractions of shares.
- (c) A copy of the indenture, if the securities being registered are or will be issued under an indenture qualified under the Trust Indenture Act of 1939. Include a reasonably itemized and informative table of contents and a cross-reference sheet showing the location in the indenture of the provisions inserted pursuant to sections 310 through 318(a) inclusive of the Trust Indenture Act.
- (d) If a registrant is filing an annual report under Exchange Act Section 13(a) or 15(d), the registrant must provide as an exhibit a description of the rights of each class of securities that is registered under Section 12 of the Exchange Act as of the end of the period covered by the report with which the exhibit is filed. The description must include information for the securities comparable to that required by Item 9.A.3, A.5, A.6, and A.7, Item 10.B.3, B.4, B.6, B.7, B.8, B.9, and B.10, and Item 12.A, 12.B, 12.C, and 12.D.1 and 12.D.2 of Form 20-F (collectively, the “Description of Securities”). However, for purposes of this paragraph 2(d), all references in those Items to securities to be or being registered, offered or sold will mean securities that are registered as of the end of the period covered by the report with which the exhibit is filed. In addition, for purposes of this Item, the disclosure will be required for classes of securities that have not been retired by the end of the period covered by the report. A registrant may incorporate by reference and provide an active hyperlink to a prior periodic filing containing the disclosure required by this paragraph 2(d) so long as there has not been any change to the information called for by the Description of Securities since the filing date of the linked filing. Such hyperlink will be deemed to satisfy the requirements of this paragraph 2(d) for the current filing.

3. Any voting trust agreements and any amendments to those agreements.
4. (a) Every contract not made in the ordinary course of business that is material to the registrant and is to be performed in whole or in part at or after the filing of the registration statement or report. In addition, for newly reporting registrants, every contract not made in the ordinary course of business that is material to the registrant and that was entered into not more than two years before the date on which such registrant:
 - (i) first files a registration statement or report; or
 - (ii) completes a transaction that had the effect of causing it to cease being a public shell company.

The only contracts that must be filed are those to which the registrant or a subsidiary of the registrant is a party or has succeeded to a party by assumption or assignment or in which the registrant or such subsidiary has a beneficial interest.

The registrant may redact specific provisions or terms of exhibits required to be filed by this Form 20-F if the registrant customarily and actually treats that information as private or confidential and if the omitted information is not material. If it does so, the registrant should mark the exhibit index to indicate that portions of the exhibit or exhibits have been omitted and include a prominent statement on the first page of the redacted exhibit that certain identified information has been excluded from the exhibit because it is both not material and is the type that the registrant treats as private or confidential. The registrant also must include brackets indicating where the information is omitted from the filed version of the exhibit.

If requested by the Commission or its staff, the registrant must promptly provide on a supplemental basis an un-redacted copy of the exhibit and its materiality and privacy or confidentiality analyses. Upon evaluation of the registrant's supplemental materials, the Commission or its staff may require the registrant to amend its filing to include in the exhibit any previously redacted information that is not adequately supported by the registrant's analyses.

The registrant may request confidential treatment of the supplemental material submitted under this instruction pursuant to Rule 83 (§200.83 of this chapter) while it is in the possession of the Commission or its staff. After completing its review of the supplemental information, the Commission or its staff will return or destroy it if the registrant complies with the procedures outlined in Rules 418 or 12b-4 (§230.418 or § 240.12b-4).

Note: A “newly reporting registrant” is (i) any registrant filing a registration statement that, at the time of such filing, is not subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, whether or not such registrant has ever previously been subject to the reporting requirements of Section 13(a) or 15(d), (ii) any registrant that has not filed an annual report since the revival of a previously suspended reporting obligation, and (iii) any registrant that (a) was a shell company, other than a business combination related shell company, as defined in Rule 12b-2 under the Exchange Act (17 CFR 240.12b-2), immediately before completing a transaction that has the effect of causing it to cease being a shell company and (b) has not filed a Form 20-F since the completion of such transaction. For example, newly reporting

registrants would include (i) a registrant that is filing its first registration statement under the Securities Act or the Exchange Act, and (ii) a registrant that was a public shell company, other than a business combination related shell company, and completes a reverse merger transaction causing it to cease being a shell company.

- (b) If a contract is the type that ordinarily accompanies the kind of business you and your subsidiaries conduct, we will consider it have been made in the ordinary course of business and will not require you to file it, unless it falls within one or more of the following categories. Even if it falls into one of these categories, you do not have to file the contract if it is immaterial in amount or significance.
 - (i) Any contract to which (A) directors, (B) officers, (C) promoters, (D) voting trustees or (E) security holders named in the registration statement are parties, unless the contract involves only the purchase or sale of current assets that have a determinable market price and the assets are purchased or sold at that price;
 - (ii) Any contract upon which your business is substantially dependent. Examples of these types of contracts might be (a) continuing contracts to sell the major part of your products or services or to purchase the major part of your requirement of goods, services or raw materials, or (b) any franchise or license or other agreement to use a patent, formula, trade secret, process or trade name if your business depends to a material extent on that patent, formula, trade secret processor trade name;
 - (iii) Any contract for the acquisition or sale of any property, plant or equipment if the consideration exceeds 15% of your fixed assets on a consolidated basis; or
 - (iv) Any material lease under which you hold part of the property described in the registration statement.
- (c) We will consider any management contract or compensatory plan, contract or arrangement in which your directors or members of your administrative, supervisory or management bodies participate to be material. File these management contracts or compensatory plans, contracts or arrangements unless they fall into one of the following categories:
 - (i) Ordinary purchase and sale agency agreements;
 - (ii) Agreements with managers of stores in a chain or similar organization;
 - (iii) Contracts providing for labor or salesmen's bonuses or for payments to a class of security holders in their capacity as security holders;
 - (iv) Any compensatory plan, contract or arrangement that is available by its terms to employees, officers or directors generally, if the operation of the

plan, contract or arrangement uses the same method to allocate benefits to management and nonmanagement participants; and

- (v) Public filing of the management contract or compensatory plan, contract or arrangement, or portion thereof, is not required in the company's home country and is not otherwise publicly disclosed by the company.

If you are filing compensatory plans, contracts or arrangements, only file copies of the plans and not copies of each individual's personal agreement under the plans, unless there are particular provisions in a personal agreement that should be filed as an exhibit so investors will understand that individual's compensation under the plan.

5. A list showing the number and a brief identification of each material foreign patent for an invention not covered by a United States patent, but only if we request you to file the list.
6. [Reserved]
7. [Reserved]
8. A list of all your subsidiaries, their jurisdiction of incorporation and the names under which they do business. You may omit the names of subsidiaries that, in the aggregate, would not be a "significant subsidiary" as defined in rule 1-02(w) of Regulation S-X as of the end of the year covered by the report. You may omit the names of multiple wholly owned subsidiaries carrying on the same line of business, such as chain stores or service stations, if you give the name of the immediate parent company, the line of business and the number of omitted subsidiaries broken down by U.S. and foreign operations.
9. Statement pursuant to the instructions to Item 8.A.4, regarding the financial statements filed in registration statements for initial public offerings of securities.
10. Any notice required by Rule 104 of Regulation BTR (17 CFR 245.104 of this chapter) that you sent during the past fiscal year to directors and executive officers (as defined in 17 CFR 245.100(d) and (h) of this chapter) concerning any equity security subject to a blackout period (as defined in 17 CFR 245.100(c) of this chapter) under Rule 101 of Regulation BTR (17 CFR 245.101 of this chapter). Each notice must have included the information specified in 17 CFR 245.104(b) of this chapter. Note: The exhibit requirement in paragraph (10) applies only to an annual report, and not to a registration statement, on Form 20-F. The Commission will consider the attachment of any Rule 104 notice as an exhibit to a timely filed Form 20-F annual report to satisfy an issuer's duty to notify the Commission of a blackout period in a timely manner. Although an issuer need not submit a Rule 104 notice under cover of a Form 6-K, if an issuer has already submitted this notice under cover of Form 6-K, it need not attach the notice as an exhibit to a Form 20-F annual report.

11. (a) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 16B of Form 20-F, to the extent that the registrant intends to satisfy the Item 16B requirements through filing of an exhibit
- (b) Any insider trading policies and procedures that is the subject of the disclosure required by Item 16J. If all of the registrant's insider trading policies and procedures are included in its code of ethics and the code of ethics is filed as an exhibit, that exhibit filing would satisfy the exhibit requirement of this paragraph (b).
12. The certifications required by Rule 13a-14(a) (17 CFR 240.13a-14(a)) or Rule 15d-14(a) (17 CFR 240.15d-14(a)) exactly as set forth below:
