This is a secure transaction

We use Pay.gov as our trusted secure payment processor. We'll send you on to there and bring you back when you finish.

The secure server software (SSL) that processes Peace Corps donations is the industry standard and among the best software available today for secure commerce transactions. It encrypts all of your personal data including credit card number, name, and address, so that it cannot be read as the information travels over the Internet. You can tell when you are protected by encryption — the lock or key at the bottom of your browser changes color or is no longer broken.
