

**Request for Non-Substantive Change (NSC) to the
School District Review Program (SDRP)
OMB Control No. 0607-0987
U.S. Department of Commerce
U.S. Census Bureau**

Purpose

The School District Review Program (SDRP) is a U.S. Department of Education National Center for Education Statistics (NCES) sponsored program conducted annually by the U.S. Census Bureau. The SDRP gives state officials the opportunity to update and review the Census Bureau's school district data. States can provide updates and corrections to the Census Bureau's database of federal school district local education agency (SDLEA) codes, school district names, school district boundaries, levels, and grade ranges.

Approved on August 9, 2024, the current SDRP Office of Management and Budget (OMB) collection will expire on August 31, 2027. This non-substantive change (NSC) requests updates to materials used for the 2026 SDRP, which include:

- 2026 Welcome Letter.
- 2026 School District Review Program (SDRP) Quick Start Guide.
- 2026 School District Review Program Respondent Guide: Annotation Phase.
- 2026 School District Review Program Respondent Guide: Verification Phase.
- Privacy Act Statement on SDRP Website.
- Privacy Act Statement in Geography Division Partner Portal.
- Privacy Act Statement in Geographic Update Partnership Software.
- Privacy Act Statement in Secure Web Incoming Module.

Background

The 2026 SDRP submission deadline is December 31, 2025. Participants have approximately four months to review, update, and submit changes through listings, the submission log, or the Geographic Update Partnership Software (GUPS). Please note that the release of materials to support the Annotation Phase will begin in September 2025.

In April 2026, participants will have the opportunity to verify changes submitted to the Census Bureau during the annotation phase.

There are no substantive changes to the SDRP resulting from these modifications. The finalized guides and letter do not alter the content or objective of the SDRP. The changes made were necessary to reflect the most current SDRP information or to update the style in the guides.

Burden

The respondent burden of the 2026 SDRP is unchanged by this update.
