Nonprofit Organizations: Research Performed and/or Funded by Your Organization Instructions

The next questions ask about research performed and/or funded by your organization. Please read the information below before continuing. By research we mean... For the purposes of this survey, research includes research and experiment development

Research and experimental development: complex, creative and systematic work to:

- Increase the stock of knowledge, including knowledge of fundamental, culture, and society (R)
- Develop new approaches of fundamental knowledge (including materials, biological, social, economic, systems, or business)

Research activities involve:

- Novel projects that advance current knowledge or create new knowledge
- Unrelated projects focused on original concepts and hypotheses
- Breakable project outcomes are uncertain to the complete a researcher or the user
- Systematic approach planned and designed
- Transferrable/replicable project methodology and results are made/able to produce in other chapters and sections

Most likely to describe your research

- Experiments or trials studies
- Clinical trials
- Primary development
- Outcome research
- Development of new methods to detect measure, modify, and/or prevent
- Other research
- Humanities research
- Research management
- Other non-traditional studies

Most likely to describe your research

- Internal program monitoring or evaluation
- Public or quasi-public program
- Evaluation or training programs
- Quality control issues
- Market research
- Management studies and related programs
- Evaluation of social and public policy as a form of research or policy and other programs
- Data for research or other studies as part of an overall research project

Nonprofit Organizations: Funding for Research Performed by this Organization**E.7** In FY 2023, how much was spent on research performed within your organization?

Report to the nearest one thousand dollars. If none, report zero.

Include:

- Direct costs, such as salaries and wages, travel, equipment, supplies, consulting, and other expenditures directly supporting your organization's research project.
- Indirect costs associated with research, such as overhead and administrative overhead costs, for space rent, facility costs, depreciation, etc. These should be calculated using your organization's applicable fringe overhead and General and Administrative (G&A) or Facilities and Administrative (F&A) rates.

Exclude:

- Capital expenditures (i.e., costs for construction or renovation of facilities). Report capital expenditures in upcoming questions E.10 - E.20.
- Payments made in excess of the actual cost of the research work performed (e.g., fees).
- Payments made by your organization to subcontractors or subawardees performing research outside your organization.

OMB No. 3045-0047 OMB Exp. date: 10/31/2022

 ABS 

Main Menu Save and Logout

Nonprofit Organizations: Research Full-time equivalents for Nonprofit Organizations

E.14 How many full-time equivalents (FTEs) worked on *research activities* in FY 2023?

FTE research personnel are calculated as the total working (paid) hours spent working on research during a specific reference period (usually a calendar year) divided by the number of hours representing a full-time schedule within the same period. Include only your organization's paid employees. For example, if you have three people working 20, 30, and 40 hours in a week on research activities and a full-time schedule is 40 hours a week at your organization, your research FTE calculation is $(20 + 30 + 40)/40 = 2.25$ FTE.

a. Researchers (including scientists, engineers, and their managers): Professionals engaged in the conception or creation of new knowledge.	
b. Research technicians: Staff who work under the supervision of researchers to conduct research activities.	
c. Other support personnel (clerical and other): Staff who provide direct support services for the research project.
