Setting:
- Drug store purchase

Scenario:

Imagine *that on the way home today, your <u><fill in with an actual member, e.g., daughter></u> stopped by a CVS store and bought a toothbrush and a small bag of tortilla chips. Also* **imagine** *that the toothbrush costed $0.99 and the chips $1.97. your <u><fill in with an actual member, e.g., daughter></u> paid cash at self-checkout, but forgot to take the receipt.* **Imagine** *that your <u><fill in with an actual member, e.g., daughter></u> doesn't know the exact address of the store, but remember that the store is at the* **intersection** *of* **S Charles St** *and* **W Hamburg St** *in Baltimore City. Based on these pieces of information, please report the food your family member got in the Food Log.*
