

Appendix P3: Quiz for Training Assessment of Round 3

Video #4

1. What will you need to enter a location in the Food Log?
 - A. Just the name of the store
 - B. All possible information
 - C. The store or restaurant name and at least one of the address details (street name, city, state, or ZIP code)
 - D. Just the ZIP code

Correct answer: C

2. What is the benefit of using the location search in the Household Survey?
 - A. It creates pre-filled options in the Food Log that make location reporting easier.
 - B. It takes me to the end of the survey.
 - C. It doesn't have any benefit.
 - D. All of the above.

Correct answer: A

3. If you get food or drinks at a location that is already prefilled, you still have to use the search box to add the location.
 - A. True
 - B. False

Correct answer: False

4. If you enter a store name and a street name, city, and ZIP code, you will get more accurate results when searching locations than entering just the store name.
 - A. True
 - B. False

Correct answer: True

5. If you order foods through a delivery service such as Grubhub, Uber Eats, or Instacart, you should:
 - A. Report the delivery service as the location.
 - B. Report the location of where the food and drinks came from, not who delivers them.
 - C. Don't report anything.
 - D. Report both the delivery service and the location.

Correct answer: B

6. You order food online today, but it will be delivered tomorrow. You should report it in the Food Log _____.
 - A. Today
 - B. Tomorrow

Correct answer: Today

7. In which situation should you enter your home address in the search box?
- A. Whenever I order online.
 - B. Whenever I make food at home.
 - C. Never, since I am only reporting items that were not already in my home.
 - D. When my neighbor brings me food.

Correct answer: C

Video #5

8. What are the three methods to report purchased food items in the Food Log?
- A. Barcode scan, PLU code entry, typing in item name and description
 - B. Typing in item name, calling support, emailing a list
 - C. PLU code entry, scanning receipt, taking a photo of the item
 - D. Barcode scan, taking a photo of the receipt, entering price manually

Correct Answer: A

9. What items are most likely to have a barcode?
- A. Fruits and veggies from the produce aisle
 - B. Pre-packaged food and drinks
 - C. Bulk items like nuts or coffee
 - D. Every food item

Correct Answer: B

10. How do you scan a barcode in the Food Log?
- A. Using your smartphone
 - B. Using a computer camera
 - C. USDA will give you a scanner for barcodes
 - D. Both A and B

Correct Answer: D

11. What items are most likely to have a PLU code?
- A. Fruits and veggies from the produce aisle
 - B. Pre-packaged food and drinks
 - C. Pre-packaged meat from the deli
 - D. Everything

Correct Answer: A

12. What way of logging items is the ONLY way to enter already prepared food?
- A. By entering an item description
 - B. By scanning the barcode
 - C. By entering the PLU number
 - D. None of the above

Correct Answer: A

Video #6

13. If the whole receipt cannot fit in one picture, I can take two pictures of the receipt, one for the upper half and the other the lower half, and then upload the two pictures.
- A. True
 - B. False

Correct Answer: A
