Subject: Terms of Clearance - Census GenIC for NHIS Cog Testing - OMB Control No. 0607-0725

Hi [REDACTED],

OMB approves the Census Bureau's National Health Interview Survey (NHIS) cognitive testing GenIC (OMB Control No. 0607-0725), with the following Terms of Clearance:

Under the General Health Insurance section, question 16, please edit it from a "yes"/"no" question to an open-ended question, e.g.,

- OLD = "Do you know the difference between a deductible and copay?"
- NEW = "Please describe, to the best of your ability, the difference between deductible, copay, and coinsurance."

Please reply to this email confirming receipt, etc. I'll then upload this email exchange into ROCIS to document the Terms of Clearance and will then approve in ROCIS.

Thank you,
