PURPOSE AND USE. The Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems grant (OE22-2203) provides funding to support the critical public health infrastructure needs of jurisdictions across the United States. Funding was awarded to 107 state, local, and territorial/freely associated states public health agencies to strengthen the public health workforce and infrastructure in three strategy areas:

1. Workforce: Recruit, retain, support, and train the public health workforce
2. Foundational Capabilities: Strengthen systems, processes, and policies
3. Data Modernization: Deploy scalable, flexible, and sustainable technologies

The performance measures provide critical information to CDC about the progress of recipients on priority outcomes, inform technical assistance activities, and performance improvements over time.
