

EQRS Global App Log In Page:

The screenshot shows a web browser window with the URL <https://eqrs.cms.gov/globalapp/logout>. The browser's address bar and tabs are visible at the top. The main content area is divided into two sections. On the left, a blue banner with a geometric pattern contains text about the EQRS program. On the right, a white box titled "Sign into EQRS" contains login fields and a sign-in button. Below the sign-in button are links for help and sign-up. At the bottom, a dark blue footer contains the EQRS logo, links for accessibility, help desk, and privacy policy, and a red-bordered box containing the OMB Control Number and expiration date. A red arrow points from the "Sign Up" link in the main content area to the OMB Control Number box in the footer.

The End Stage Renal Disease Quality Reporting System (EQRS) program aims to improve healthcare outcomes for ESRD Patients by providing Dialysis Providers with a National Patient Registry & Quality Improvement Tool that utilizes current best practices to ensure the quality of care for Patients by supporting meaningful measures, reducing burden, while maintaining data accessibility & accuracy for public reporting of quality information in accordance with policy.

Add a backup facility to your facility

Please add a backup for your facility by navigating to the [Backup facility section](#).

Attention - Pain Assessment Alert

Although the Centers for Medicare and Medicaid Services (CMS) no longer requires facilities to submit Pain Assessment data starting March 1, 2019 (in accordance with the CY 2019 ESRD PPS Final Rule), the Pain Assessment screen will remain active for facilities to review previously reported data.

Add hours and shifts to your facility

Please complete hours and shifts for your facility by navigating to the [Hours and shifts section](#).

Add additional services to your facility

Please confirm if additional services are offered at your facility by navigating to the [Services section](#).

Facility Dashboard Overview

Upcoming Reminders

- 03/31/2020 - Clinical Data submission deadline for the January 2020 clinical period.
- 04/30/2020 - Clinical Data submission deadline for the February 2020 clinical period.

Feature version - 2.0.0/Build version - 3.0.0-20200218-110

System News

Welcome to CROWNWeb!

Below is a listing of the CROWNWeb features in this release. The production environment contains startup data copied from SIMS, the ESKD Patient Registry maintained by the ESKD Networks.

- Users will be able to search, add, save, edit, submit, and print facility records.
- Users will be able to search, add, edit, submit, and print facility personnel records.
- Users will be able to admit to and discharge patients from a facility.
- Users will be able to add, edit, and submit patient treatment records.
- Users will be able to search, edit, and submit a patient record.
- Users will be able to enter information associated with the 2728 form for Initial, Supplemental, and Re-entitlement patients (including Initial Dialysis, Initial Transplant, Supplemental Training, Supplemental Transplant, and Re-entitlement forms).
- Users will be able to enter a 2744 form for a patient.
- Users will be able to print blank 2728 and 2746 forms, along with pre-populated 2728 and 2746 forms for patients.
- Users will be able to verify patients and patient data using the PART feature.
- Users will be able to search, add, edit, and submit clinical lab test results and vascular access information for patients.
- Users will be able to add, edit, and submit facility preferences for clinical data.
- Users will be able to create and print a patient roster for a facility.
- Users will be able to run Audit reports for all data added, updated, or deleted in CROWNWeb.

Internet Explorer 7 users should verify the following setting before using CROWNWeb. Close all Internet Explorer windows and open a new Internet Explorer browser window. Then go to Tools -> Internet Options, select the Advanced tab, scroll to the Security section and ensure the "Enable Native XMLHttpRequest support" option is NOT selected. If the option is selected, apply this change, then return to the application.

CROWNWeb Reports Module:

Facility Reports

[Mailing Labels Report](#)

This report identifies and sorts patient, facility and personnel address information to create mailing labels.

[Personnel Data Report](#)

This report identifies facility contact information.

Annual Reports

[ESRD Incidence \(formerly Table 1\)](#)

This report is a count of new to ESRD patients.

[ESRD Dialysis Prevalence \(formerly Table 2\)](#)

This report is a count of all ESRD dialysis patients.

[Dialysis Patients Modality and Setting - In Home Report \(formerly Table 3\)](#)

This report is a count of all patients receiving Self-Care Home Dialysis Treatment.

[Dialysis Patients Modality and Setting - In Center Report \(formerly Table 4\)](#)

This report is a count of all patients receiving In-Center Dialysis Treatment.

[All Renal Transplant Patients Report \(formerly Table 5\)](#)

This report is a count of all renal transplants performed.

[Renal Transplant Recipient Report \(formerly Table 6\)](#)

This report is a count of renal transplant recipient patients.

[Dialysis Death Report \(formerly Table 7\)](#)

This report is a count of dialysis death patients.

[Vocational Rehabilitation Report \(formerly Table 8\)](#)

This report is a count of all vocational rehabilitations performed.

Vascular Access Reports

[Network Vascular Accesses in Use Report](#)

The Network Vascular Accesses in Use Report displays the count and percentage of each type of vascular access used in a Network for a user-defined date range. The user has the ability to select various report layouts to compare data by either Month, Facility/Network/Nation or States within the Network. In addition, the report provides the user with the ability to view a summary of facility data, as well as the patient information included in the facility level data.

[Network Accesses in Use by Affiliation Report](#)

The Network Accesses in Use by Affiliation Report displays the count and percentage of each type of vascular access used in a Network by Affiliation for a user-defined date range. In addition, the report provides the user with the ability to view a summary of facility data, as well as the patient information included in the facility level data.

[Accesses in Use for All States Report](#)

The Accesses in Use for All States Report displays the percentage of each type of vascular access in use for every state and territory for a user-defined date range.

[Accesses in Use for All Networks Report](#)

The Accesses in Use for All Networks Report displays the percentage of each type of vascular access in use for every Network for a user-defined date range.
