

## POTENTIAL PARTICIPANT SURVEY

### Introduction

A research organization named Mathematica is working with Viability to improve the MOMS Partnership program. We are going to ask you some questions about what you just heard about the program. The answers to your questions will help improve how MOMS Partnership is described. It should take about 5 minutes to complete this survey.

You can decline to complete the survey or leave any questions blank. Your individual response will not be associated with your name. All responses will be combined; no one outside the research team will know how you responded.

The Paperwork Reduction Act Statement: This collection of information is voluntary and will be used to gather information for the purpose of rapid-cycle learning activities to strengthen programs.
