• Voter education, Leadership training, Citizenship classes				

(4) At your organization, are multiple customer needs assessed using a single intake process? Yes/No

(5) Is *diaper need* currently assessed at the time you assess need for other services? Yes/No

(6) Does your organization's main data system currently include the following information:

(a) Information that identifies individuals		
• Name	Yes	No
• Address	Yes	No
• Phone Number	Yes	No
• Email	Yes	No
• Date of Birth	Yes	No
• Social Security Number	Yes	No
(b) Demographic information		
• Race/ethnicity	Yes	No
• Family Size	Yes	No
• Child age(s)	Yes	No
• Employment status	Yes	No
• Gender	Yes	No
• Income	Yes	No
• Other (Please Describe)	Yes	No
(a) Assessment of service needs		
• Diaper need	Yes	No
• Need for other services provided by our organization	Yes	No
• Need for services not provided by our organization	Yes	No
(d) The services that individuals or households receive		
• Diapers/Diapering Supplies	Yes	No
• Non-diaper services provided by your organization	Yes	No
• Referrals to external service organizations	Yes	No

(7) If your organization currently stores client, assessment, or service information in more than one data system, please describe. (text)

(8) How often does your organization face the following challenges with data collection and reporting? (1= not at all, 2= some of the time, 3= regularly 0= unsure)

    a.   Inadequate technology to collect and/or report data
    b.   Inadequate training for staff or volunteers doing data entry
    c.   Insufficient staff time for data reporting
    d.   Known data quality challenges, such as incomplete or inaccurate records
    e.   Coordinating client information across the services they receive
    f.   Other (please describe)

(9) Do you currently anticipate any challenges for data collection under DDDRP? Please explain.

For example: are there data elements or data collection methods that are a consistent challenge for you and/or your partners? Are there particular types of questions that would be difficult for you to collect information on given your current data infrastructure?

(10) Please provide contact information in case we find that your responses require clarification:

- Name
- Title
- Email Address
- Phone Number
