

### ICR Summary Information

Hours per Response	65
Number of Respondents	535
Total Estimated Burden Hours	69,100
Total Estimated Costs	\$9,930,000
Annualized Capital O&M	\$0
Total Annual Responses	1,070
Form Number	Not Applicable

**Table 1: Annual Respondent Burden and Cost – NSPS for Stationary Gas Turbines (40 CFR Pa**

Burden item	(A) Person hours per occurrence	(B) No. of occurrences per respondent per year	(C) Person hours per respondent per year (C=AxB)
1. Applications	N/A		
2. Surveys and studies	N/A		
3. Reporting requirements			
A. Familiarize with regulatory requirements <sup>c</sup>	1	1	1
B. Required activities <sup>d</sup>			
Initial performance test	110	1	110
Repeat performance test <sup>e</sup>	110	0.2	22
C. Create information	See 3B		
D. Gather existing information	See 3E		
E. Write report			
Notification of construction/reconstruction <sup>d</sup>	2	1	2
Notification of actual startup <sup>d</sup>	2	1	2
Notification of initial performance test <sup>d</sup>	2	1.2	2.4
Notification of demonstration of CMS <sup>d</sup>	2	1	2
Report of performance test	See 3B		
Excess emission and exemption reports <sup>f</sup>	10	2	20
<b>Subtotal for Reporting Requirements</b>			
4. Recordkeeping Requirements			
A. Familiarize with regulatory requirements <sup>c</sup>	See 3A		
B. Plan activities	See 4C		
Implement activities	See 3		
Develop record system	N/A		
C. Time to check computer system and calibrate continuous monitor <sup>g</sup>	0.25	365	91.25
D. Train personnel	N/A		
E. Audits	N/A		
<b>Subtotal for Recordkeeping Requirements</b>

<b>TOTAL CAPITAL AND O&amp;M COST (rounded) <sup>h</sup></b>			
<b>GRAND TOTAL (rounded) <sup>h</sup></b>			

**Assumptions:**

<sup>a</sup> We have assumed that the average number of respondents that will be subject to the rule will be 535 existing sources. TI

<sup>b</sup> This ICR uses the following labor rates: Managerial \$184.86 (\$88.03+ 110%); Technical \$148.45 (\$70.69 + 110%); and Department of Labor, Bureau of Labor Statistics, March 2025, “Table 2. Civilian workers by occupational and industry group increased by 110 percent to account for varying industry wage rates and the additional overhead business costs of employment associated with hiring, training, and equipping their employees.

<sup>c</sup> We have assumed that all respondents will have to familiarize with the regulatory requirements each year.

<sup>d</sup> We have assumed that there will be no new sources expected over the three-year period of this ICR.

<sup>e</sup> We have assumed that 20 percent of respondents will have to repeat initial performance test due to failure.

- <sup>f</sup> We have assumed that each respondent will take 10 hours two times per year to write the excess emissions and exemption
- <sup>g</sup> We have assumed that it will take each respondent 15 minutes 365 days per year to check computer system and calibrate
- <sup>h</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.

Notification of CMS demonstration <sup>c</sup>	0.5	1	0.5	0
3. Semiannual reports				
Excess emissions and exemption reports <sup>d</sup>	4	2	8	535
<b>TOTAL (rounded) <sup>e</sup></b>				

**Assumptions:**

<sup>a</sup> We have assumed that the average number of respondents that will be subject to the rule will be 535 existing sources per year period of this ICR.

<sup>b</sup> This cost is based on the average hourly labor rate as follows: Managerial \$78.22 (GS-13, Step 5, \$48.89 + 60% Clerical \$31.41 (GS-6, Step 3, \$19.63+ 60%). This ICR assumes that Managerial hours are 5 percent of Technical hours. These rates are from the Office of Personnel Management (OPM), 2025 General Schedule, which excludes 10 percent to account for the benefit packages available to government employees.

<sup>c</sup> We have assumed that there will be no new sources expected over the three-year period of this ICR.

<sup>d</sup> We have assumed that it will take 4 hours two times per year to review the excess emissions and exemption reports.

<sup>e</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
