Petition for Exemption

Docket No.: FAA–2024–2527.

Petitioner: Michael Gray.

Section(s) of 14 CFR Affected: § 61.160(b).

Description of Relief Sought: Michael Gray is petitioning for relief from 14 CFR 61.160(b) to allow him to use his prior training and education experience to obtain the Restricted Air Transport Pilot certificate with a minimum of 1,000 hours of total time as a pilot. Mr. Gray is basing his request on his educational studies in the field of aviation as well as his vast experience and training working for a 14 CFR part 121 Air Carrier as an aircraft mechanic.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Thy H. Nguyen, (202) 875-0520, Department of Transportation, Office of the Assistant Secretary for Research and Technology (OST-R), 1200 New Jersey Avenue SE, Washington, DC 20590. Office hours are from 7 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Strengthening Mobility and Revolutionizing Transportation (SMART) Grant Program.

OMB Control Number: 2125-0667.

Summary: The Bipartisan Infrastructure Law (BIL, also known as the Infrastructure Investment and Jobs Act), enacted on November 15, 2021 provides for significant investments in America's transportation infrastructure. A key program of the legislation is the Strengthening and Revolutionizing Transportation (SMART) Grant Program (\$100 million per year), under which "the Secretary shall provide grants to eligible entities to conduct demonstration projects focused on advanced smart city or community technologies and systems in a variety of communities to improve transportation

efficiency and safety" (BIL § 25005; 23 U.S.C. 502(b)). More specifically, SMART Grants may be used to carry out a project that demonstrates at least one of the following:

- Coordinated Automation
- Connected Vehicles
- Systems Integration
- Commerce Delivery and Logistics
- Leveraging Use of Innovative Aviation Technology
- Smart Grid
- Smart Technology Traffic Signals

U.S. DOT anticipates that this notice and any subsequent notice for this SMART grant program will be to applications for Stage Two Strengthening Mobility and Revolutionizing Transportation (SMART) grants. Stage Two SMART Grants are to be awarded on a competitive basis to existing Stage One SMART grant recipients in order to implement the plans and prototypes previously developed in Stage One that will advance smart city or community technologies and systems to improve transportation efficiency and safety.

Only recipients of SMART Stage One Planning and Prototyping Grants, or eligible entities designated by Stage One SMART recipients, awarded under previous SMART Stage One NOFOs, may apply for Stage Two Implementation Grant NOFOs.

For this competitive grant program, the Office of the Secretary will issue a Notice of Funding Opportunity (NOFO) that describes the requirements of the SMART Grant program, including the criteria that will be used to evaluate applications. The NOFO will provide a description of the application requirements. All eligible entities must submit a completed application in order to be considered for a grant award.

The applicants who are selected for a grant (*i.e.*, the grantees) will have additional reporting requirements associated with their SMART grant, outlined below.

• *Annual Implementation Reports.*

These annual reports document project progress in meeting its goals.

The first report is submitted not later than 2 years after the date on which the SMART grant is received and annually thereafter until the date on which the SMART grant is expended.

○ The Final Implementation Report will demonstrate how the deployment and operational costs of the project compared to the benefits and savings; the means by which each project has met its original expectation, including data findings on the impacts of the project (*e.g.*, safety, mobility, access, system efficiency, etc.) and lessons learned.

• *Evaluation Plan.* The evaluation plan describes how the project will be evaluated, including the anticipated impacts of the project (*e.g.*, goals), the methods that will be used to measure those impacts, and the performance measures.

• *Data Management Plan.* The data management plan provides more detailed information on the types of data being collected by the grantee and how that data will be managed and stored (*e.g.*, how privacy is protected, the entities that have access to the data, etc.).

• *Quarterly Progress Reports.* The Quarterly progress reports provide status updates, including activities accomplished during the quarter, financial and schedule reporting, and anticipated activities for the next quarter (among other updates, such as any project challenges).

Respondents: Only recipients of SMART Stage One Planning and Prototyping Grants, or eligible entities designated by Stage One SMART recipients, awarded under previous SMART Stage One NOFOs, may apply for Stage Two Implementation Grant NOFOs.

Eligible entities that may apply for the grant if they have previously been awarded a Stage One Grant include: (A) a State; (B) a political subdivision of a State; (C) a Tribal government; (D) a public transit agency or authority; (E) a public toll authority; (F) a metropolitan planning organization; and (G) a group of 2 or more eligible entities (A through F) applying through a single lead applicant.

We anticipate up to 100 applicants per Stage 1 NOFO, and approximately 30 will be awarded.

We anticipate up to 80 applicants per Stage 2 NOFO, and approximately 12 will be awarded.

Estimated Average Burden per Response: The estimated reporting burden per response is 100 hours for each entity that submits an application. For the subset of applicants who are selected to receive a grant, they have an additional estimated 79 hours of average annual burden associated with the grant award.

Estimated Total Annual Burden: The estimated total annual burden is up to 12033 hours, which consists of 5333 hours for 80 Stage 1 applications, and 6700 hours for 100 Stage 2 applications. The subset of applicants who receive an award, approximately 30 Stage 1 and 12 Stage 2 per year, will have an additional total average annual burden of 3967.5 hours and 1,587 hours, respectively.

Public Comments Invited

You are asked to comment on any aspect of these information collections, including: (1) Whether the proposed collections are necessary for the OST's performance; (2) the accuracy of the estimated burdens; (3) ways for the OST to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burdens could be minimized, including use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of these information collections.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Ch. 35, as amended; and 49 CFR 1.48.

Issued on: May 7, 2025.

Jazmyne Lewis,

Information Collection Officer.

BILLING CODE P

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration**

[Docket Number FRA-2025-0035]

Notice of Petition for Waiver of Compliance

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This document provides the public notice that New Hope and Ivyland Railroad (NHRR) petitioned FRA for relief from certain regulations concerning steam locomotive inspections.

DATES: FRA must receive comments on the petition by June 12, 2025. FRA will consider comments received after that date to the extent practicable.

ADDRESSES:

Comments: Comments related to this docket may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and docket number. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information. Please see the Privacy Act heading in the **SUPPLEMENTARY INFORMATION** section of this document for Privacy Act information related to any submitted comments or materials.

Docket: For access to the docket to read background documents or comments received, go to <https://www.regulations.gov> and follow the online instructions for accessing the docket.

FOR FURTHER INFORMATION CONTACT:

Michael Barron, Railroad Safety Specialist, FRA Motive Power & Equipment Division, telephone: 202-366-7117, email: michael.barron@dot.gov.

SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter received March 3, 2025, NHRR petitioned FRA for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230 (Steam Locomotive Inspection and Maintenance Standards). FRA assigned the petition Docket Number FRA-2025-0035.

Specifically, NHRR seeks relief from § 230.17(a), *One thousand four hundred seventy-two (1,472) service day inspection*, which requires a steam locomotive's "entire boiler" to be inspected after 1,472 service days or 15 years, whichever is earlier. NHRR, a tourist railroad, seeks to extend for twenty calendar days the deadline for its 15-year inspection, from December 7, 2026, to December 27, 2026, which would allow locomotive NHRR 40 to operate Santa Trains through the end of the 2026 holiday season. In its petition, NHRR explains that the twenty-day extension is a "period critical to [NHRR's] financial stability" and that the absence of NHRR 40 would be "detrimental to [its] operations." The requested deadline extension, which would include 18 planned service days, would enable NHRR to fund the expense of the 15-year inspection, which would be completed after December 27, 2026, and before the next planned operation in 2027.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by June 12, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Privacy Act

Anyone can search the electronic form of any written communications and comments received into any of FRA's dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of [regulations.gov](https://www.regulations.gov).

Issued in Washington, DC.

John Karl Alexy,

Associate Administrator for Railroad Safety, Chief Safety Officer.
