SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Standard for Omnidirectional CB Base Antennas.

OMB Number: 3041–0006.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of omnidirectional citizens band base station antennas.

General Description of Collection: The Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204, subpart A) establishes performance requirements for omnidirectional citizens band base station antennas to reduce unreasonable risks of death and injury that may result if an antenna contacts overhead power lines while being erected or removed from its site. Section 14 of the Consumer Product Safety Act, 15 U.S.C. 2063, and the regulations implementing the standard (16 CFR part 1204, subpart B) require manufacturers, importers, and private labelers of antennas, subject to the standard, to test the antennas for compliance with the standard, maintain records of that testing, and certify compliance with the standard.¹

Estimated Number of Respondents: Ten suppliers may respond to the collection annually by meeting the testing and certification requirements.

Estimated Time per Response: Staff estimates that the average annual recordkeeping burden imposed is approximately 220 hours.

Total Estimated Annual Burden: Based on ten respondents, at 220 hours per response, the total annual burden imposed by the certification regulations on manufacturers, importers and private labelers of omnidirectional citizens band base station antennas is about 2,200 hours.

The Commission staff estimates that the average hourly cost to reporting firms for the time required to perform the required testing and maintain the required records is about \$74.73, based on the reported total compensation for

management, professional, and related employees in goods-producing private industries. This may, however, be an overestimate because respondents to this collection may be foreign manufacturers that are compensated at a lower average wage rate. Total annual cost to the industry is approximately \$164,406 (\$74.73 per hour × 2,200 hours = \$164,406).

Secretary, Consumer Product Safety Commission.

[Docket No. EF25–12–000]

Southeastern Power Administration; Notice of Filing

Take notice that on September 15, 2025, Southeastern Power Administration submitted a tariff filing: Cumberland 2025 Rate Adjustment to be effective October 1, 2025.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.
