

FEDERAL COMMUNICATIONS COMMISSION

**Instructions for
Amendment of Cable Landing License Application
Office of International Affairs
SCL-AMD**

Purpose of Form

This form is used to amend a pending application related to a cable landing license: SCL-LIC, SCL-ASG&TC, SCL-FCN, SCL-LPN, SCL-MOD, SCL-RPT, SCL-RWL, SCL-STA, SCL-AMD, and SCL-WAV. An amendment is filed when the Applicant needs to make a material change in the pending application.

Who Must File This Form and When

Every entity seeking to amend a pending cable landing license application must use this form to amend the information furnished in the pending application if such information is no longer substantially accurate and complete in all significant respects. The Applicant must file the amendment as promptly as possible and in any event within 30 days from when the change in information occurred (including 30 days from a request by Commission staff for additional information).

Description of Form

This form consists of a main form which will bring up the information filed in the application to be amended. The Applicant should make the required changes. There is an ability to file attachment(s) if the changed information pertains to a previously submitted attachment. The Applicant is encouraged to upload a single document in machine readable format, including all required information. The Applicant must fill in all required fields, upload required documents, make all required certifications, and sign the form before submitting the application.

Information Current and Complete

Information filed in the application with the Commission must be kept current and complete under [section 1.65](#) of the Commission's rules.

The Applicant can file a further amendment to a submitted application by filing a separate SCL-AMD form. Subsequent amendments should be filed as amendments to the previous amendment. For example, if an Applicant has filed an amendment to an SCL-LIC application ("Amendment 1"), and circumstances require filing a second amendment, the Applicant should file the second amendment as an amendment to Amendment 1, not as an amendment to the underlying SCL-LIC.

Applicable Rules and Regulations

[Section 1.767\(m\)](#) of the Commission's rules sets out the procedures to amend a cable landing license application.

Section 1.767(m) of the Commission's rules states that amendments to pending applications, and applications to modify a license, including amendments or applications to add a new applicant or licensee, shall be signed by each initial applicant or licensee, respectively. Joint applicants or licensees may appoint one party to act as proxy for purposes of complying with this requirement.

May 2025

47 CFR § 1.767(m)(1).

The requirements for applications related to cable landing licenses can be found in 47 CFR §§ 1.767, and 1.768.

Applicant(s) should refer to the Debt Collection Improvement Act of 1996. The Debt Collection Act requires all federal agencies ensure that no debtors to the Federal government obtain any licenses or other benefits from the FCC. To ensure this, the Commission must collect FRN information to correlate its Applicants with any outstanding Federal debt that they might have incurred in other dealings with the Federal government. For additional information, see the [FCC's Debt Collection webpage](#).

FILING INSTRUCTIONS

Remember to save your draft application periodically by clicking the save button. ICFS will time-out out after 15 minutes of no activity, and failure to save will result in loss of any information entered into the application form after the last save.

Item A1. ICFS will populate the file number of the application that is the subject of the amendment.

Item A2. Here, the applicant confirms by checking the box that it has attached a narrative statement describing the changes to the application being made in this amendment.

The system will bring up the application to be amended with each answer pre-populated from the application as it was filed, except for the (1) application description, (2) Certification Statements check boxes, and (3) signature block.

The Applicant should change any information that it needs to, and/or upload any new or revised attachments.

The Applicant will need to re-certify the application and provide the required information for signing the application.
