Addendum A: Commitment Guarantees

NOTES ON THE USE OF COMMITMENTS GUARANTEES

In certain limited situations, SBA will allow an Applicant to use a guarantee commitment arrangement so the Applicant can include in its Regulatory Capital the Commitments of non-Institutional Investors. The circumstances under which SBA will permit the use of a guarantee and the requirements for using a guarantee are described below.

Guarantees for IRAs, Keoghs, Individual Investor Account, Family Trusts and Family Investment Partnerships

An IRA, Keogh, individual investor account, family trust or family investment partnership that does not qualify as an Entity Institutional Investor may use a guarantee to have its Commitment included as part of Regulatory Capital. Adverse tax consequences may result for the IRA or Keogh, however, so SBICs and investors are cautioned to consult with legal counsel before using a guarantee in this situation.

How Does it Work. The IRA, Keogh, individual investor account, family trust or family investment partnership obtains a guarantee from an Institutional Investor (which could be a letter of credit from a state or national bank or a guarantee agreement) for the full amount of its Unfunded Commitment. For example, for IRAs and Keoghs, if the individual who created the retirement account qualifies as an Institutional Investor, that individual can guarantee the full amount of the Unfunded Commitment of the IRA or Keogh to the Applicant. If the amount of the Unfunded Commitment is to be included in Regulatory Capital, the guarantee must be in the SBA approved Guarantee form approved by SBA (see Addendum C) and the guarantee must be executed and a copy submitted to SBA before the licensing approval process can be finalized. SBA regulations limit the size of an unfunded commitment that can be guaranteed by an Institutional Investor with net worth of less than \$10 million (see 13 CFR §107.230(b)(4) and paragraph (2)(i)(B) of the Institutional Investor definition).

How is this Reflected on the Capital Certificate. The Investor should mark the "All Investors" tab, including the following prompts: "Guaranteed Commitment?; Guarantor Name; and Approved Guarantee Form Executed."

Applicants and their counsel should note that the guarantee approach does not automatically qualify Unfunded Commitments from investors that do not qualify as Institutional Investors as part of Regulatory Capital, and in every instance, a guarantee is subject to SBA's approval.

Addendum B: Drop-Down Fund Instructions

CAPITAL CERTIFICATE PRESENTATION FOR DROP-DOWN FUNDS

Applicants that are “drop-down funds” (i.e., funded by one or more parent investment funds) should use the standard Capital Certificate, following these presentation guidelines:

1. SBA requires each parent fund to be a primary investor in the Applicant (“Class A investor”) and each parent fund’s investors to become stand-by investors (“Class B investors”) in the Applicant, except as noted below in item 3.

2. The names and addresses of all the Applicant’s Class B investors, along with their respective capital commitments, paid-in capital and unfunded commitments (all three amounts that would flow from the Parent Level to the Applicant Level), must be listed in the "All Investors" tab as appropriate. The amount in the “Paid-in Capital” column will increase as either the Class A investor contributes capital to the Applicant or the Class B investor contributes capital directly to the Applicant, thereby reducing the amount in the “Unfunded Commitment” column.

3. A Class A investor (the "Parent Fund") may or may not be an "Institutional Investor". Any Class A investor that does not meet the definition of "Institutional Investor" in § 107.50 and does not meet the requirements of § 107.230(b)(4) should select "Entity Non-Institutional" under 'Investor Segment' on the "All Investors" tab. The amounts in the “Capital Commitment”, “Paid-in Capital”, and “Unfunded Commitment” columns for the Class A Investor should all be shown in brackets to offset the dollar amounts from the related Class B Investors.

If the Class A Investor meets the definition and requirements of an "Institutional Investor" and the requirements of § 107.230, the Parent Fund should be listed as an "Entity Institutional Investor", its commitment should not be bracketed, and no Class B investors will be listed on the Capital Certificate. This same presentation applies if the Parent Fund is a publicly traded Business Development Company (BDC).

4. The capital commitments made by the Applicant’s Class B investors at the parent fund level should be shown on the Capital Certificate.
