INTRODUCTION

Background: This publication lists the major laws relating to the Cooperative Forestry Program of the State and Private Forestry (S&PF) mission area of the Forest Service, U.S. Department of Agriculture. It incorporates amendments by Congress to these laws through 2008. In 1876, the Division of Forestry was established in the U.S. Department of Agriculture. Gifford Pinchot became Chief of the Division of Forestry in 1898 and continued its work with the State and private forest owners. In 1908, an Office of State and Private Cooperation was established within the Forest Service. Cooperative work by the Forest Service with States and other partners continued with the 1911 Weeks Act, which supported cooperative fire suppression work, and later the 1924 Clarke–McNary Act to support seedling nursery and tree distribution efforts on private lands.

These authorities have been amended and expanded numerous times including the 1937 Norris–Doxey Cooperative Farm Forestry Act and the 1950 Cooperative Forest Management Act. The 1978 Cooperative Forestry Assistance (CFA) Act repealed and replaced all earlier separate pieces of legislation by consolidating a broad range of S&PF program authorities involving fire, forest management, forest health, wood utilization, urban forestry, and organizational management assistance to State forestry agencies.

The 1990 Food, Agriculture, Conservation, and Trade Act amended the CFA Act of 1978 by adding authorities for forest land easements (Forest Legacy), broader multiple-use forest management assistance (Forest Stewardship) along with landowner incentives (Stewardship Incentives Program), and expanded authorities

for Urban and Community Forestry. The 1990 Act also contained new authorities for economic revitalization assistance to national forest-dependent rural communities.

The 1996 Federal Agriculture Improvement and Reform Act extended the Forestry Incentives Program and amended the Forest Legacy Program to allow for grants to States.

The Farm Security and Rural Reinvestment Act of 2002 modified the 1978 CFA Act by repealing the Stewardship Incentives Program and the Forest Incentives Program. This legislation replaced these two authorities with a Forest Land Enhancement Program involving education, technical assistance, and financial cost shares for working with nonindustrial private forest landowners. New authorities were also added in the area of cooperative fire to enhance community fire protection (Community and Private Land Fire Assistance Program).

The Healthy Forest Restoration Act of 2003 added a new Watershed Forestry Assistance Program as Section 6 of the 1978 CFA Act, a stand alone Tribal Watershed Forestry Assistance Program, and new S&PF authorities for Biomass Commercial Utilization Grants.

The Food, Conservation, and Energy Act of 2008 had a significant forestry title (Title VIII), as well as addressing forestry through the Conservation and Energy titles (II and IX, respectively). For the first time, national priorities for private forests were established and State forestry agencies were charged with assessing forest resources and developing strategies to address the national priorities. The Community Forest and Open Space Conservation

Program was created to promote the purchase of forest land by communities for community use.

This latest printing of the publication also properly places the Emergency Reforestation Assistance Program as Section 10(A) in Section 10 of CFA, Rural Fire Prevention and Control.

Purpose: This publication is a reference guide for those who administer,

implement, and deliver the S&PF program authorities contained in this document. It is also an essential reference for primary partners working in other Federal and State agencies, nongovernmental organizations, and the private sector that work in collaboration with the Forest Service and State agencies in the delivery of these programs.

COOPERATIVE FORESTRY ASSISTANCE ACT OF 1978

(Public Law 95-313; Approved July 1, 1978)

[As Amended Through P.L. 110-246, Effective May 22, 2008]

AN ACT To authorize the Secretary of Agriculture to provide cooperative forestry assistance to States and others, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Cooperative Forestry Assistance Act of 1978".

SEC. 2. [16 U.S.C. 2101] FINDINGS, PURPOSE, AND POLICY

(a) FINDINGS.—Congress finds that—

- (1) most of the productive forest land of the United States is in private, State, and local governmental ownership, and the capacity of the United States to produce renewable forest resources is significantly dependent on such non-Federal forest lands;
- (2) adequate supplies of timber and other forest resources are essential to the United States, and adequate supplies are dependent on efficient methods for establishing, managing, and harvesting trees and processing, marketing, and using wood and wood products;
- (3) nearly one-half of the wood supply of the United States comes from nonindustrial private timberlands and such percentage could rise with expanded assistance programs;
- (4) managed forest lands provide habitats for fish and wildlife, as well as aesthetics, outdoor recreation opportunities, and other forest resources;
- (5) the soil, water, and air quality of the United States can be maintained and improved through good stewardship of privately held forest resources;
- (6) insects and diseases affecting trees occur and sometimes create emergency conditions on all land, whether Federal or non-Federal, and efforts to prevent and control such insects and diseases often require coordinated action by both Federal and non-Federal land managers;
- (7) fires in rural areas threaten human lives, property, forests and other resources, and Federal-State cooperation in forest fire protection has proven effective and valuable;
- (8) trees and forests are of great environmental and economic value to urban areas;
- (9) managed forests contribute to improving the quality, quantity, and timing of water yields that are of broad benefit to society;
- (10) over half the forest lands of the United States are in need of some type of conservation treatment;
- (11) forest landowners are being faced with increased pressure to convert their forest land to development and other purposes;
- (12) increased population pressures and user demands are being placed on private, as well as public, land-holders to provide a wide variety of products and services, including fish and wildlife habitat, aesthetic quality, and recreational opportunities;
- (13) stewardship of privately held forest resources requires a long-term commitment that can be

fostered through local, State, and Federal governmental actions;

(14) the Department of Agriculture, through the coordinated efforts of its agencies with forestry responsibilities, cooperating with other Federal agencies, State foresters, and State political subdivisions, has the expertise and experience to assist private landowners in achieving individual goals and public benefits regarding forestry;

(15) the products and services resulting from nonindustrial private forest land stewardship provide income and employment that contribute to the economic health and diversity of rural communities;

(16) sustainable agroforestry systems and tree planting in semiarid lands can improve environmental quality and maintain farm yields and income; and

[(18)¹ the same forest resource supply, protection, and management issues that exist in the United States are also present on an international scale, and the forest and rangeland renewable resources of the world are threatened by deforestation due to conversion to agriculture of lands better suited to other purposes, over-grazing, over-harvesting, and other causes which pose a direct adverse threat to people, the global environment, and the world economy.]

(b) PURPOSE.—It is the purpose of this Act to authorize the Secretary of Agriculture (hereafter in this Act referred to as the “Secretary”), with respect to non-Federal forest lands² of the United States, to assist in—

(1) the establishment of a coordinated and cooperative Federal, State, and local forest stewardship program for management of the non-Federal forest lands;

(2) the encouragement of the production of timber;

(3) the prevention and control of insects and diseases affecting trees and forests;

(4) the prevention and control of rural fires;

(5) the efficient utilization of wood and wood residues, including the recycling of wood fiber;

(6) the improvement and maintenance of fish and wildlife habitat;

(7) the planning and conduct of urban forestry programs;

(8) broadening existing forest management, fire protection, and insect and disease protection programs on non-Federal forest lands to meet the multiple use objectives of landowners in an environmentally sensitive manner;

(9) providing opportunities to private landowners to protect ecologically valuable and threatened non-Federal forest lands; and

¹ There is no paragraph (17). Section 607(b)(1)(C) of Public Law 101–513 (104 Stat. 2072) amended section 2(a) of the Cooperative Forestry Assistance Act of 1978 by adding at the end paragraph (18). Public Law 101–513, also known as the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1991, was approved on November 5, 1990. On November 28, 1990, section 1212 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3521) amended section 2 in its entirety without taking into account the recent amendments made by Public Law 101–513. Consequently, paragraph (18) no longer appears in the text of section 2(a).

² Note regarding subsection (b): Section 607(b)(2) of Public Law 101–513 (104 Stat. 2072, approved November 5, 1990) attempted to amend section 2(b) of the Cooperative Forestry Assistance Act of 1978 by inserting “in the United States, and forest lands in foreign countries,” after “non-Federal forest lands,” the first place it appears and in paragraph (10). Two problems prevent execution of the amendment. First, a comma does not appear in the phrase “non-Federal forest lands”. Second, even if the comma appeared, section 1212 of the Food, Agriculture, Conservation, and Trade Act of 1990 (104 Stat. 3521) amended section 2 in its entirety on November 28, 1990, without taking into account the recent amendments made by Public Law 101–513.

(10) strengthening educational, technical, and financial assistance programs that provide assistance to owners of non-Federal forest lands.

(c) PRIORITIES.—In allocating funds appropriated or otherwise made available under this Act, the Secretary shall focus on the following national private forest conservation priorities, notwithstanding other priorities specified elsewhere in this Act:

- (1) Conserving and managing working forest landscapes for multiple values and uses.
- (2) Protecting forests from threats, including catastrophic wildfires, hurricanes, tornados, windstorms, snow or ice storms, flooding, drought, invasive species, insect or disease outbreak, or development, and restoring appropriate forest types in response to such threats.
- (3) Enhancing public benefits from private forests, including air and water quality, soil conservation, biological diversity, carbon storage, forest products, forestry-related jobs, production of renewable energy, wildlife, wildlife corridors and wildlife habitat, and recreation.

(d) REPORTING REQUIREMENT.—Not later than September 30, 2011, the Secretary shall submit to Congress a report describing how funds were used under this Act, and through other programs administered by the Secretary, to address the national priorities specified in subsection (c) and the outcomes achieved in meeting the national priorities.

(e) POLICY.—It is the policy of Congress that it is in the national interest for the Secretary to work through and in cooperation with State foresters, or equivalent State officials, nongovernmental organizations, and the private sector in implementing Federal programs affecting non-Federal forest lands.

(f) CONSTRUCTION.—This Act shall be construed to complement the poli-

cies and direction under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.).

SEC. 2A. [16 U.S.C. 2101a] STATE-WIDE ASSESSMENT AND STRATEGIES FOR FOREST RESOURCES.

(a) ASSESSMENT AND STRATEGIES FOR FOREST RESOURCES.—For a State to be eligible to receive funds under the authorities of this Act, the State forester of that State or equivalent State official shall develop and submit to the Secretary, not later than two years after the date of enactment of the Food, Conservation, and Energy Act of 2008, the following:

- (1) A State-wide assessment of forest resource conditions, including—
 - (A) the conditions and trends of forest resources in that State;
 - (B) the threats to forest lands and resources in that State consistent with the national priorities specified in section 2(c);
 - (C) any areas or regions of that State that are a priority; and
 - (D) any multi-State areas that are a regional priority.
- (2) A long-term State-wide forest resource strategy, including—
 - (A) strategies for addressing threats to forest resources in the State outlined in the assessment required by paragraph (1); and
 - (B) a description of the resources necessary for the State forester or equivalent State official from all sources to address the State-wide strategy.
- (b) UPDATING.—At such times as the Secretary determines to be necessary, the State forester or equivalent State official shall update and resubmit to the Secretary the State-wide assessment and State-wide strategy required by subsection (a).
- (c) COORDINATION.—In developing or updating the State-wide assessment

and State-wide strategy required by subsection (a), the State Forester or equivalent State official shall coordinate with—

- (1) the State Forest Stewardship Coordinating Committee established for the State under section 19(b);
- (2) the State wildlife agency, with respect to strategies contained in the State wildlife action plans;
- (3) the State Technical Committee;

(2) ADDITIONAL FUNDING SOURCES.—In addition to the funds appropriated for a fiscal year pursuant to the authorization of appropriations in paragraph (1) to carry out this section, the Secretary may use any other funds made available for planning under this Act to carry out this section, except that the total amount of combined funding used to carry out this section

may not exceed \$10,000,000 in any fiscal year.

(g) ANNUAL REPORT ON USE OF FUNDS.—The State forester or equivalent State official shall submit to the Secretary an annual report detailing how funds made available to the State under this Act are being used.

SEC. 4. [16 U.S.C. 2103] FOREST LAND ENHANCEMENT PROGRAM.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary of Agriculture shall establish a forest land enhancement program—

(A) to provide financial assistance to State foresters; and

(B) to encourage the long-term sustainability of nonindustrial

private forest lands in the United States by assisting the owners of nonindustrial private forest lands, through State foresters, in more actively managing the nonindustrial private forest lands and related resources of those owners through the use of State, Federal, and private sector resource management expertise, financial assistance, and educational programs.

(2) COORDINATION AND CONSULTATION.—The Secretary, acting through State foresters, shall implement the program—

- (A) in coordination with the State Forest Stewardship Coordinating Committees; and
- (B) in consultation with other Federal, State, and local natural resource management agencies, institutions of higher education, and a broad range of private sector interests.

(b) PROGRAM OBJECTIVES.—In implementing the program, the Secretary shall target resources to achieve the following objectives:

- (1) Investing in practices to establish, restore, protect, manage, maintain, and enhance the health and productivity of the nonindustrial private forest lands in the United States for timber, habitat for flora and fauna, soil, water, and air quality, wetlands, and riparian buffers.
- (2) Ensuring that afforestation, reforestation, improvement of poorly stocked stands, timber stand improvement, practices necessary to improve seedling growth and survival, and growth enhancement practices occur where needed to enhance and sustain the long-term productivity of timber and nontimber forest resources to help meet future public demand for all forest resources and provide environmental benefits.

(3) Reducing the risks and helping restore, recover, and mitigate the damage to forests caused by fire, insects, invasive species, disease, and damaging weather.

(4) Increasing and enhancing carbon sequestration opportunities.

(5) Enhancing implementation of agroforestry practices.

(6) Maintaining and enhancing the forest landbase and leverage State and local financial and technical assistance to owners that promote the same conservation and environmental values.

(7) Preserving the aesthetic quality of nonindustrial private forest lands and providing opportunities for outdoor recreation.

(c) STATE PRIORITY PLAN.—

(1) DEVELOPMENT.—The State Forester and State Forest Stewardship Coordinating Committee of a State shall jointly develop and submit to the Secretary a State priority plan that is intended to promote forest management objectives in that State.

(2) REPORT.—Not later than September 30, 2006, each State that implemented a State priority plan shall submit to the Secretary a report describing the status of all activities and practices funded under the program as of that date.

(d) OWNER ELIGIBILITY FOR ASSISTANCE.—

(1) ELIGIBILITY CRITERIA.—To be eligible for cost-share assistance under the program, an owner of nonindustrial private forest lands shall agree—

(A) to develop and implement, in cooperation with a State forester, another State official, or a professional resources manager, a management plan that—

(i) except as provided in paragraph (2) or (3), provides

for the treatment of not more than 1,000 acres of nonindustrial private forest lands; (ii) is approved by the State forester; and

(iii) addresses site specific activities and practices; and

(B) to implement approved activities and practices in a manner consistent with the management plan for a period of not less than 10 years, unless the State forester approves a modification to the plan.

(2) PUBLIC BENEFIT EXCEPTION.—The Secretary may increase the acreage limitation specified in paragraph (1)(A)(i) to not more than 5,000 acres for an owner of nonindustrial private forest lands if the Secretary, in consultation with the State forester, determines that significant public benefits will accrue as a result of the provision of cost-share assistance under the program for the treatment of the additional acreage.

(3) PLAN DEVELOPMENT EXCEPTION.—An owner may receive cost-share assistance under the program for the purpose of developing a management plan under subsection (e) of this section that provides for the treatment of acreage in excess of the acreage limitations specified in paragraphs (1)(A)(i) and (2), except that the owner's eligibility for cost-share assistance to implement approved activities and practices under the management plan remains subject to the acreage limitation specified in paragraph (1)(A)(i) or, if the Secretary makes the determination described in paragraph (2), the acreage limitation specified in that paragraph.

(e) MANAGEMENT PLAN.—

(1) SUBMISSION AND CONTENT.—An owner of nonindustrial

private forest lands that seeks to participate in the program shall submit to the State forester of the State in which the lands are located a management plan that—

(A) identifies and describes projects and activities to be carried out by the owner to protect or enhance soil, water, air, range and aesthetic quality, recreation, timber, water, wetland, or fish and wildlife resources on the lands in a manner that is compatible with the objectives of the owner; (B) addresses any criteria established by the State and the applicable Committee; and (C) meets the other requirements of this section.

(2) LANDS COVERED.—At a minimum, the management plan shall apply to those portions of the nonindustrial private forest lands of the owner on which any project or activity funded under the program will be carried out. In a case in which a project or activity may affect acreage outside the portion of the land on which the project or activity is carried out, the management plan shall apply to all lands of the owner that are in forest cover and may be affected by the project or activity.

(f) APPROVED ACTIVITIES.—

(1) STATE LIST.—The Secretary shall develop for each State a list of approved forest activities and practices eligible for cost-share assistance that meets the purposes of the program. The Secretary shall develop the list for a State in consultation with the State forester and the Committee for that State.

(2) TYPES OF ACTIVITIES.—Approved activities and practices under paragraph (1) may consist of activities and practices for the following purposes:

- (A) The establishment, management, maintenance, and restoration of forests for shelterbelts, windbreaks, aesthetic quality, and other conservation purposes.
- (B) The sustainable growth and management of forests for timber production.
- (C) The restoration, use, and enhancement of forest wetland and riparian areas.

 - (i) the planting of trees in riparian areas; and
 - (ii) the enhanced management and maintenance of native vegetation on land vital to water quality.
- (E) The management, maintenance, restoration, or development of habitat for plants, fish, and wildlife.
- (F) The control, detection, monitoring, and prevention of the spread of invasive species and pests on nonindustrial private forest lands.
- (G) The restoration of nonindustrial private forest land affected by invasive species and pests.
- (H) The conduct of other management activities, such as the reduction of hazardous fuels, that reduce the risks to forests posed by, and that restore, recover, and mitigate the damage to forests caused by, fire or any other catastrophic event, as determined by the Secretary.
- (I) The development of management plans;
- (J) The conduct of energy conservation and carbon sequestration activities.
- (K) The conduct of other activities approved by the Secretary, in consultation with the State forester and the appropriate Committees.

(g) REIMBURSEMENT OF ELIGIBLE ACTIVITIES.—

- (1) **IN GENERAL.**—In the case of an eligible owner that has an approved management plan, the Secretary shall share the cost of implementing the approved activities and practices that the Secretary determines are appropriate.
- (2) **RATE.**—The Secretary shall determine the appropriate reimbursement rate for cost-share payments under paragraph (1) and the schedule for making those payments.
- (3) **MAXIMUM COST SHARE.**—The Secretary shall not make cost-share payments under this subsection to an owner in an amount in excess of 75 percent, or a lower percentage as determined by the State forester, of the total cost to the owner to implement the approved activities and practices under the management plan.
- (4) **AGGREGATE PAYMENT LIMIT.**—The Secretary shall determine the maximum aggregate amount of cost-share payments that an owner may receive under the program.
- (5) **CONSULTATION.**—The Secretary shall make determinations under this subsection in consultation with the State forester.

(h) RECAPTURE.—

- (1) **IN GENERAL.**—The Secretary shall establish and implement a mechanism to recapture payments made to an owner in the event that the owner fails to implement an approved activity or practice specified in the management plan for which the owner received cost-share payments.
- (2) **ADDITIONAL REMEDY.**—The remedy provided in paragraph (1) is in addition to any other remedy available to the Secretary.

(i) DISTRIBUTION OF COST-SHARE FUNDS.—The Secretary, acting through the State foresters, shall dis-

tribute funds available for cost sharing under the program only after giving appropriate consideration to the following factors:

- (1) The public benefits that would result from the distribution.
- (2) The total acreage of nonindustrial private forest lands in each State.
- (3) The potential productivity of those lands, as determined by the Secretary.
- (4) The number of owners eligible for cost sharing in each State.
- (5) The opportunities to enhance nontimber resources on those lands, including—
 - (A) the protection of riparian buffers and forest wetland;

(a) ESTABLISHMENT AND PURPOSE.—The Secretary shall establish a program, to be known as the Forest Legacy Program, in cooperation with appropriate State, regional, and other units of government for the purposes of ascertaining and protecting environmentally important forest areas that are threatened by conversion to nonforest uses and, through the use of conservation easements and other mechanisms, for promoting forest land protection and other conservation opportunities. Such purposes shall also include the protection of important scenic, cultural, fish, wildlife, and recreational resources, riparian areas, and other ecological values.

(b) STATE AND REGIONAL FOREST LEGACY PROGRAMS.—The Secretary shall exercise the authority under subsection (a) of this section in conjunction with State or regional programs that the Secretary deems consistent with this section.

(c) INTERESTS IN LAND.—In addition to the authorities granted under 16 U.S.C. 515 and 17 U.S.C. 428a (a), the Secretary may acquire from willing landowners lands and interests therein, including conservation easements and rights of public access, for Forest Legacy Program purposes. The Secretary shall not acquire conservation easements with title held in common ownership with any other entity.

- (2) forest lands, shade trees, and open spaces in urban areas and communities improve the quality of life for residents;
- (3) forest lands and associated natural resources enhance the economic value of residential and commercial property in urban and community settings;
- (4) urban trees are 15 times more effective than forest trees at reducing the buildup of carbon dioxide and aid in promoting energy conservation through mitigation of the heat island effect in urban areas;
- (5) tree plantings and ground covers such as low growing dense perennial turfgrass sod in urban areas and communities can aid in reducing carbon dioxide emissions, mitigating the heat island effect, and reducing energy consumption, thus contributing to efforts to reduce global warming trends;
- (6) efforts to encourage tree plantings and protect existing open spaces in urban areas and communities can contribute to the social well-being and promote a sense of community in these areas; and
- (7) strengthened research, education, technical assistance, and public information and participation in tree planting and maintenance programs for trees and complementary

ground covers for urban and community forests are needed to provide for the protection and expansion of tree cover and open space in urban areas and communities.

(b) PURPOSES.—The purposes of this section are to—

- (6) promote the establishment of demonstration projects in selected urban and community settings to illustrate the benefits of maintaining and creating forest cover and trees;
- (7) enhance the technical skills and understanding of sound tree maintenance and arboricultural practices including practices involving the

cultivation of trees, shrubs and complementary ground covers, of individuals involved in the planning, development, and maintenance of urban and community forests and trees; and

(8) expand existing research and educational efforts intended to improve understanding of—

The amendment was drafted in anticipation of amendments to the Cooperative Forestry Assistance Act of 1978 to be made by the Food, Agriculture, Conservation, and Trade Act of 1990 (Public Law 101-624; 104 Stat. 3525). Two problems arose. The anticipated amendments were changed somewhat so that the amendatory language in Public Law 101-513 refers to the wrong section and Public Law 101-624 was enacted on November 28, 1990, after the date of the enactment of Public Law 101-513. Consequently, subsection (h) does not appear in the law. The cross references in subsection (h) to other provisions of the Cooperative Forestry Assistance Act of 1978 are also wrong because of the redesignations actually made by Public Law 101-624. Paragraphs (1) through (10) of section 3(b) do not exist as section 3(b) now has only six paragraphs. Paragraphs (1) through (5) of section 7(b) probably refer to paragraphs (1) through (5) of section 8(b), or possibly to all seven paragraphs of section 8(b). Paragraphs (1) through (3) of section 9(b) either refer to section 9(b), which actually has eight paragraphs, or to section 10(b), which has four paragraphs. The former is the choice of the Law Revision Counsel while the latter is the choice of the Legislative Counsel.

⁵ Section 8004 of Public Law 110-246 amended the “Cooperative Forestry Act of 1978”. The amendment instruction should have referred to the “Cooperative Forestry Assistance Act of 1978” and was executed to reflect the probable intent of Congress.

Federal officials, departments, agencies, or international organizations, as the President may direct. The references to "State foresters or equivalent State officials" in this Act shall not apply to the assistance provided by the Secretary to other countries under this subsection.]
