Description & Funding

Description

Priority: Standard

Date Needed: 11/11/2023

Priority Justification:

CDC Priority Area for this Project: Not selected

Determination Start Date: 11/01/23

The goal of the project is to collect data in the event of a poliovirus breach of containment - as well as to understand the biosafety Description:

practices of facilities working on poliovirus and mitigations strategies in place to reduce risks. These goals are in line with World

Health Organization#s Global Action Plan (GAP) for Poliovirus containment efforts.

IMS/CIO/Epi-Aid/Lab-Aid/Chemical Exposure

Submission:

No

IMS Activation Name: Not selected

Submitted through IMS Clearance Matrix: Not selected

Primary Scientific Priority: Not selected

Secondary Scientific Priority (s): Not selected

Task Force Responsible: Not selected

CIO Emergency Response Name:	Not selected
Epi-Aid Name:	Not selected
Lab-Aid Name:	Not selected
Assessment of Chemical Exposure Name:	Not selected
Goals/Purpose	This information will assist with meeting the goals of the Section 361 of the Public Health Service (PHS) Act (42 U.S.C. 264) and prevents the introduction, transmission, or spread of communicable diseases from foreign countries into the States or possessions or from one State or possession into any other State or possession.
Objective:	The goal of the project is to collect data in the event of a poliovirus breach of containment - as well as to understand the biosafety practices of facilities working on poliovirus and mitigations strategies in place to reduce risks. These goals are in line with World Health Organization#s Global Action Plan (GAP) for Poliovirus containment efforts.
Does your project measure health disparities among populations/groups experiencing social, economic, geographic, and/or environmental disadvantages?:	No
Does your project investigate underlying contributors to health inequities among populations /groups experiencing social, economic, geographic, and/or environmental disadvantages?:	No
Does your project propose, implement, or evaluate an action to move towards eliminating health inequities?:	No
Activities or Tasks:	New Collection of Information, Data, or Biospecimens
Target Populations to be Included/Represented:	Other - Poliovirus Essential Facilities
Tags/Keywords:	Poliovirus ; Personal Protective Equipment ; Containment of Biohazards
CDC's Role:	Activity originated and designed by CDC staff, or conducted at the specific request of CDC, or CDC staff will approve study design and data collection as a condition of any funding provided
Method Categories:	Needs Assessment; Survey
Methods:	The Facility Incident Reporting Forms for Poliovirus Release and Potential Exposure and Theft and Loss, the Global Action Plan (GAP) Poliovirus Containment Poliovirus-Essential Facility Assessment Checklist, the Global Action Plan (GAP) Poliovirus Containment Poliovirus-Essential Facility Questionnaire, and the Poliovirus Containment Sampling Points and Sanitation Assessment Form for Wastewater (WW) Systems Supporting a Poliovirus-Essential Facility (PEF) in the United States will be in a fillable form and include a paper and electronic based format. The NAC-NIOSH Personal Protective Equipment Survey for Laboratories will be a web based electronic survey using an anonymous REDCap survey.
	The Facility Incident Reporting Forms for Poliovirus Release and Potential Exposure and Theft and Loss, the Global Action Plan (GAP) Poliovirus Containment Poliovirus-Essential Facility Assessment Checklist, the Global Action Plan (GAP) Poliovirus Containment Poliovirus-Essential Facility Questionnaire, and the Poliovirus Containment Sampling Points and Sanitation

Collection of Info, Data or Biospecimen:

Assessment Form for Wastewater (WW) Systems Supporting a Poliovirus-Essential Facility (PEF) in the United States will be in a fillable form and include a paper and electronic based format. The NAC-NIOSH Personal Protective Equipment Survey for Laboratories will be a web based electronic survey using an anonymous REDCap survey.

Data captured on the Facility Incident Reporting Form for Poliovirus Release and Potential Exposure will be used in the U.S. NAC risk assessments and guide federal emergency response efforts. # Data captured on the Facility Incident Reporting Form for Poliovirus Theft and Loss will be used in the U.S. NAC risk assessments and guide federal emergency response efforts. # The information collected in the Personal Protective Equipment Survey for Laboratories will assist the Centers for Disease Control and Prevention (CDC), U.S. NAC and National Institute for Occupational Safety and Health (NIOSH) with developing guidance and recommendations for PPE selection and use in support of poliovirus containment as well as identify laboratory PPE commonly used to evaluate laboratory PPE performance characteristics in testing studies. # Information collected in the Global Action Plan (GAP) Poliovirus Containment Poliovirus-Essential Facility Assessment Checklist will aid U.S. facilities in preparing for an audit to obtain a poliovirus certificate of containment. # Data collected from the Global Action Plan (GAP) Poliovirus Containment Poliovirus-Essential Facility Questionnaire will collect additional information on poliovirus materials held by a U.S. facility, their work activities, and facility features. # The Poliovirus Containment Sampling Points and Sanitation Assessment Form for Wastewater (WW) Systems Supporting a Poliovirus-Essential Facility (PEF) in the United States will collect information to assess poliovirus essential facility#s wastewater system, the primary safeguards to reduce and control the release of poliovirus from the facility. In addition, it will verify the safeguards of local wastewater utilities that receive wastewater from the PEF.

Expected Use of Findings/Results and their impact:

Could Individuals potentially be identified based on Information Collected?

Yes

Will PII be captured (including coded data)?

Yes

Does CDC have access to the identifiers (including coded data)?:

Yes

Is this project covered by an Assurance of Confidentiality?

No

Does this activity meet the criteria for a Certificate

No

of Confidentiality (CoC)?

NO

Is there a formal written agreement prohibiting the release of identifiers?

No

Data

DMP

Proposed Data Collection Start Date: 11/1/23
Proposed Data Collection End Date: 11/1/27

Proposed Public Access Level: Non-Public

Non-Public Details:

Reason For Not Releasing Data: Other - Data is used to mitigate release of poliovirus and has no utility to the public.

Public Access Justification: Data is used to mitigate release of poliovirus and has no utility to the public.

How Access Will Be Provided for Data:

Access to the data will be protected via access to the CDC server. The U.S. NAC may share information about the incident to

poliovirus containment oversight bodies and CDC Incident Response leadership to ensure appropriate measures are implemented.

Plans for Archival and Long Term Preservation: CDC/CPR/OD/NAC is the steward for the data. Data collected will be stored on a shared drive within CDC#s secured environment

with restricted access.
