Subject: RE: Regulatory status for EIP
Date: Tuesday, September 16, 2025 7:17:45 AM

Hello Sonja,

The purpose of this e-mail is to confirm the regulatory status of the projects funded through the EIP Cooperative Agreement. EIP is a hybrid CoAg that allows for both research and non-research activities. I generally do not know which activities are or might be research until I receive the applications.

However, I can confirm that the Core surveillance activities for each program area are non-research and do not require IRB review.

Thank you,

James
