

Path to Excellence and Innovation Initiative Business Partner Application

The Path to Excellence and Innovation Initiative is designed to assist Historically Black Colleges and Universities in competing for, securing, and managing contracts with the National Institutes of Health. The NIH Small Business Program Office has determined that it is very valuable to involve commercial business partners (BPs) in assisting the HBCUs in reaching their desired funding goals. Whether small or large, BPs can offer invaluable business development experience to HBCUs interested in diversifying their Federal funding revenue.
