Introduction

Section 1857(e)(1) of the Social Security Act (the Act) provides broad authority for the Secretary to add terms to the contracts with Medicare Advantage Organizations (MAOs), including terms that require the sponsor to provide the Secretary with information as the Secretary may find necessary and appropriate. Pursuant to our statutory authority, we codified these information collection requirements for MAOs in regulation at 42 CFR § 422.516.

42 CFR § 422.516(a) requires each MAO to have a procedure to develop, compile, evaluate, and report to the Centers for Medicare & Medicaid Services (CMS), to its enrollees, and to the general public, at the times and in the manner that CMS requires, statistics indicating the following:

- 1) The cost of its operations.
- 2) The procedures related to and utilization of its services and items.
- 3) The availability, accessibility, and acceptability of its services.
- 4) To the extent practical, developments in the health status of its enrollees.
- 5) Information demonstrating that the MAO has a fiscally sound operation.
- 6) Other matters that CMS may require.

This document lists data elements for each reporting section, reporting timeframes, deadlines, and required levels of reporting.

Timely Submission of Data

Most reporting sections will be reported annually. Reporting deadlines often occur in the subsequent calendar year. Reporting deadlines and frequencies are listed in the Reporting Requirement sections below. Data submissions are due by 11:59 p.m. Pacific Time on the date of the reporting deadline.

MAOs must report all data based on the most current Reporting Requirements documentation as of the reporting deadline. MAOs should be able to support the accuracy of their data submissions based on their understanding of the Reporting Requirements documentation. MAOs should retain documentation supporting their Health Plan Management System (HPMS) data submissions and resubmissions. MAOs must retain this complete archive for the 10-year retention period required per federal regulations and be prepared to provide the archive to CMS upon request.

Level of Data Reported

Data elements may be reported at the Plan-level, or the individual Contract-level. Contract-level reporting indicates data should be entered at the H#, S#, R#, or E# level. Plan-level reporting indicates data should be entered at the Plan Benefit Package (PBP) level (e.g., Plan 001 for contract H#, R#, S#, or E#). Plan-level reporting is necessary to conduct appropriate oversight and monitoring of some

areas. Level of reporting is listed in the Reporting Requirement sections below.

Inclusions and Exclusions from Reporting

Organization types required to report data are listed in the Reporting Requirements sections below. The following organization types are excluded from reporting all Part C Reporting Requirements:

1. Demonstration Plans
2. Healthcare Prepayment Plan (HCPP) – 1833 Cost Plans
3. National PACE Plans
4. Prescription Drug Plans (PDPs)¹
5. Fallback Plans
6. Employer/Union Only Direct Contract PDPs¹
7. LI NET Sponsor Plans

Terminations

If a contract terminates before July 1 in the following year after the CY reporting period, the contract must not report data for the respective two years – the CY reporting period, and the following year.

- Example: Contract terminates June 20XX. The contract must not report CY 20XX - 1 (“CY reporting period”) or CY 20XX data (“following year”).

If a PBP (Plan) under a contract terminates at any time in the CY reporting period and the contract remains active through July 1 of the following year, the contract must report data for all PBPs, including the terminated PBP.

No Enrollment Contracts and Plans

Contracts or plans with no enrollment must not report data for any reporting section. No enrollment signifies that the contract has no enrollees for all the months within the reporting period.

Data Validation

CMS requires that sponsoring organizations (SOs) contracted to offer Medicare Part C and/or Part D benefits be subject to an independent yearly audit to validate certain data reported to CMS to determine its reliability, validity, completeness, and comparability in accordance with specifications developed by CMS.²

Reporting Sections requiring data validation are indicated in the Reporting Requirement sections below. More information about data validation can be found at <https://www.cms.gov/medicare/coverage/prescription-drug-coverage-contracting/part-c-and-part-d-data-validation>.

¹ Denotes that these the plans are required to report the Employer Group Plan Sponsors reporting section, because this section is reported by both Part C and Part D plans.

² See 42 CFR § 422.516(g) and § 423.514(j)

Reporting Requirements Data Analysis and Limited Data Set

CMS analyzes data submitted for accuracy and trends. In addition, certain data reported by MAOs are published annually in a Limited Data Set (LDS). More information on this LDS can be found at <https://www.cms.gov/data-research/files-order/limited-data-set-lds-files/parts-c-and-d-reporting-requirements-limited-data-set>.

Questions

Questions about Part C Reporting Requirements should be sent via email to PartsCDPlanReportingAndDV@cms.hhs.gov.

Section V. Enrollment and Disenrollment

Enrollment and disenrollment requirements for Medicare Advantage (MA) and Part D plan elections are outlined at 42 CFR Part 422 Subpart B and 42 CFR Part 423 Subpart B, respectively.

For Part C reporting, MAOs offering MA-only plans (i.e., no Part D benefit) are to report enrollment, disenrollment, and reinstatement activity for these plans in this reporting section. Similarly, 1876 Cost plans are to report enrollment, disenrollment, and reinstatement activity for PBPs that do not include a Part D optional supplemental benefit. Enrollment, disenrollment, and reinstatement activity for MA prescription drug plans (MA-PDs) and 1876 Cost plan PBPs that include a Part D optional supplemental benefit must report under the appropriate section in the Part D Reporting Requirements.

For more information on these requirements, refer to the MA and Part D Enrollment and Disenrollment Guidance, available at: <https://www.cms.gov/medicare/enrollment-renewal/part-d-enrollment-eligibility>.

Section VII. Payments to Providers

The Department of Health and Human Services (HHS) developed the four categories of value-based payments: fee-for-service with no link to quality (Category 1); fee-for-service with a link to quality (Category 2); alternative payment models built on fee-for-service architecture (Category 3); and population-based payment (Category 4). These groupings conform to the Health Care Payment Learning & Action Network (HCPLAN) Alternative Payment Models (APM) Framework categories. For more detailed information, please refer to the LAN [APM Framework](https://hcp-lan.org/apmframework/) (<https://hcp-lan.org/apmframework/>).

CMS will collect data from MAOs about the proportion of their payments made to contracted providers based on these four categories in order to understand the extent and use of alternate payment models in the MA industry.

Section VIII. Supplemental Benefit Utilization and Costs

42 CFR § 422.102 provides MAO requirements for mandatory and optional supplemental benefits, and special supplemental benefits for the chronically ill (SSBCI). Refer to the Technical Specifications for a list of the Supplemental Benefit PBP Category Codes. The Data Elements listed below must be reported for all PBP Category Codes.
