Subject: Comments on Federal Register: Title: National Medical Support Notice Part A

This submission is in response to the Federal Register, Vol. 90, No. 177, dated Tuesday, September 16, 2025 under Notices. Provided below is Tennessee's response to the request for public comments regarding the National Medical Support Notice (NMSN), Part A.

Comment: Tennessee would specifically like to comment on the unnecessary data collection elements on Page 4 of the NMSN Part A. The completed by section has additional data elements that cause an undue burden to our costs here in Tennessee as having to include all of these lines leads to the addition of another page on our current version of the NMSN. We had recently asked if we had to include all data elements and were told yes. We suggest the following:

- Remove the line that requests the middle name or initial and suffix name under the employer company name and plan administrator name sections
- Put the information side by side to save space and avoid additional pages needing to be mailed to employers as this increases cost to the agency.
