SUPPLEMENTARY INFORMATION: In accordance with the PRA of 1995 (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

Abstract: This information is being collected for the purposes of understanding 1) the continued feasibility of ShakeAlert-powered alerts through the wireless emergency alerts via the Integrated Public Alerts and Warning System (IPAWS) managed by the Federal Emergency Management Agency, and 2) the latency of transmissions in California, Oregon, and Washington. This collection is critical to determine technological latencies of ShakeAlert notifications through IPAWS. Better understanding is required to know how much time people will have to take protective actions once they receive an alert. Further, knowledge of where the

latencies exist, and why, can help us improve and streamline our systems. This involves live testing of the system with a population reporting back to us.

Title of Collection: ShakeAlert.

OMB Control Number: 1028–0132.

Form Number: None.

Type of Review: Extension of a currently approved OMB control number.

Respondents/Affected Public:

Frequency of Collection: Bi-annually.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
