[Docket No. IC25–15–000]

Commission Information Collection Activity (Ferc–592); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collections, FERC–592 (Standards of Conduct for

Transmission Providers and Marketing Affiliates of Interstate Pipelines).¹ There are no changes to the reporting requirements for this information collection.

DATES: Comments on the collections of information are due October 27, 2025.

ADDRESSES: Please submit comments via email to DataClearance@FERC.gov. You must specify the Docket No. (IC25–15–000) and the FERC Information Collection number (FERC–592) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

- *Mail via U.S. Postal Service only, addressed to:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

SUPPLEMENTARY INFORMATION:

Title: Standards of Conduct for Transmission Provider and Marketing Affiliates of Interstate Pipelines.

OMB Control No.: 1902–0157.

Type of Request: Three-year extension of the FERC–592 information collection requirements with no changes to the current reporting requirements.

Abstract: The Commission uses the information maintained and posted by the respondents to monitor the pipeline’s transportation, sales, and storage activities for its marketing affiliate to deter undue discrimination by pipeline companies in favor of their marketing affiliates. Non-affiliated shippers and other entities (e.g. state commissions) also use the information to determine whether they have been harmed by affiliate preference and to prepare submissions and formulate positions in rate cases and other proceedings.

¹ The Standards for Business Practices and Communications Protocols for Public Utilities, FERC–717, is reflected in a separate and currently approved information collection (OMB Control No. 1902–0173).

¹ 18 CFR 5.23(b).

¹ 18 CFR 5.23(b)(2).

18 CFR Part 358 (Standards of Conduct)

Respondents maintain and provide the information required by 18 CFR part 358 on their public websites. This requirement ensures that non-affiliated shippers obtain comparable access to non-public transportation information which allows them to compete with marketing affiliates on a more equal basis.

18 CFR 250.16, and the FERC–592 Log/Format

This form (log/format) provides the electronic formats for maintaining

information on discounted transportation transactions and capacity allocation to support monitoring of activities of interstate pipeline marketing affiliates.

- Without this information collection:
- the Commission would have difficulty effectively monitoring whether pipelines are giving discriminatory preference to their marketing affiliates; and
 - non-affiliated shippers, state commissions, and others have difficulty determining whether they have been harmed by affiliate preference,

preparing submissions for rate cases and other proceedings.

Type of Respondents: Natural gas pipelines.

Estimate of Annual Burden:² The Commission estimates the annual reporting burden and cost for the information collection as shown in the following table:

FERC–592—ESTIMATED ANNUAL BURDENS

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response ³	Total annual burden hours & total annual cost	Cost per respondent (\$)
(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
85	1	85	117 hrs.; \$12,051	9,945 hrs.; \$1,024,335	\$12,051

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
