### Abstract of Information Available

Human remains representing, at least, one individual have been identified. No associated funerary objects are present. On an unknown date, the individual (OH-HA-TIN-0001) was removed from a location in the vicinity of Newtown, Hamilton County, Ohio. On an unknown date, the individual was obtained by Raymond C. Vietzen (1907-1995). Vietzen, an avocational archaeologist, collector, and author, established the Indian Ridge Museum in Elyria, Ohio, and the Archaeological Society of Ohio (formerly the Ohio Indian Relic Collectors Society). The Indian Ridge Museum, founded in the 1930s, served as Vietzen's laboratory and repository, and it remained in operation until the mid-1990s. After Vietzen's death, the facility fell into disrepair, and most of the items he had acquired and housed at the museum were sold. In 1998, the Ohio Historical Society (presently the Ohio History Connection) removed ancestral human

remains and some of the remaining items from the facility and temporarily housed them at the Ohio Historical Society. In October of 2003, these remains were transferred from the Ohio Historical Society to Mercyhurst College (presently Mercyhurst University).

While there is no record regarding potentially hazardous substances having been used to treat the human remains, an unidentified preservative coating, consolidant, or sealant may be present. It is unknown when this unidentified substance may have been applied.

### Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.

### Determinations

Mercyhurst University has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
