On the HUD 50059 two issues or concerns.

1. We feel it is important to have the 50059 show the current asset cap, deduction, etc. Since it is a driving force for the lease.

2. There is an issue with the 4th page for overflow. On the main 50059 page 2, 45 is race/ethnicity and 46 is date of birth. However on the overflow page 45 , shows race/ethnicity but 46 says RE: Detail and 47 is DOB. I believe this will cause data issues with over flow by software vendors.
