

directed to the NMFS Sustainable Fisheries Division, 1201 NE Lloyd Blvd., Portland, OR 97232. The documents are also available on the internet at <https://www.fisheries.noaa.gov/action/snake-river-sockeye-salmon-production-program>.

FOR FURTHER INFORMATION CONTACT: Andreas Raisch at (503) 230-5405 or by email at andreas.raisch@noaa.gov.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

- Snake River Sockeye (*Oncorhynchus nerka*): endangered, naturally and artificially propagated.
- Chinook salmon (*O. tshawytscha*): threatened, naturally and artificially propagated;
 - Snake River Spring/Summer run: threatened, naturally and artificially propagated;
- Snake River Steelhead (*O. mykiss*): threatened, naturally and artificially propagated;

Background

Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may make exceptions to the take prohibitions in section 9 of the ESA for programs that are approved by NMFS under section 10(a)(1)(A) of the ESA (50 CFR 222.308).

The operators and funding agencies, including Idaho Department of Fish and Game, The Shoshone-Bannock Tribe, Oregon Department of Fish and Wildlife, NMFS’s Northwest Fisheries Science Center and Bonneville Power Administration (BPA), submitted a Hatchery and Genetic Management Plan to NMFS pursuant to ESA Section 10(a)(1)(A) for hatchery activities in the Snake River basin (88 FR 53477, August 8, 2023). An EA was also prepared pursuant to the National Environmental Policy Act (NEPA) by NMFS for the Snake River sockeye salmon hatchery program.

The programs are intended to contribute to the survival and recovery of Snake River Sockeye salmon in the Snake River basin. The proposed program would maintain the Snake River sockeye salmon captive broodstock, collect and spawn adult sockeye salmon returning to the Snake River basin, rear juveniles, and release eggs, juveniles, and adult fish in upper Salmon River basin lakes as well as into

Tanner Creek. The proposed continuation of the program would indicate best management practices to minimize adverse effects on the Snake River Sockeye Salmon Evolutionarily Significant Unit.

Authority: 16 U.S.C. 1531 *et seq.*

Dated: September 9, 2025.

Jennifer Quan,

Regional Administrator, West Coast Region, National Marine Fisheries Service.

BILLING CODE 3510-22-P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0054]

Agency Information Collection Activities; Extension of Collection; Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of information collection; request for comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (PRA), the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval of information collection requirements associated with the Safety Standard for Automatic Residential Garage Door Operators. OMB previously approved the collection of information under control number 3041-0125. OMB’s most recent extension of approval will expire on September 30, 2025. On June 23, 2025, CPSC published a notice in the **Federal Register** to announce the agency’s intention to seek extension of approval of the collection of information. The Commission received one, out of scope, public comment. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of that collection of information.

DATES: Submit comments on the collection of information by October 14, 2025.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202-395-6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. Written comments that are sent

to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC-2012-0054.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504-7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Standard for Automatic Residential Garage Door Operators.

OMB Number: 3041-0125.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of automatic residential garage door operators.

General Description of Collection: On December 22, 1992, the Commission issued rules prescribing requirements for a reasonable testing program to support certificates of compliance with the Safety Standard for Automatic Residential Garage Door Operators (57 FR 60449). These regulations also require manufacturers, importers, and private labelers of residential garage door operators to establish and maintain records to demonstrate compliance with the requirements for testing to support certification of compliance. 16 CFR part 1211, subparts B and C.

Estimated Number of Respondents: An estimated 17 firms that conduct performance tests and maintain records based on the test results to retain Underwriters Laboratories, Inc. (UL) certification and verify compliance with the rule.

Estimated Time per Response: Based on staff’s review of industry sources, each respondent will spend an estimated 40 hours (35 hours for PRA burden associated with testing and 5 hours for recordkeeping) annually on the collection of information related to the rule.

Total Estimated Annual Burden: 680 hours (17 firms × 40 hours).

Total Estimated Annual Cost to Respondents: Using compensation data available from the U.S. Bureau of Labor Statistics (BLS), Employer Costs for Employee Compensation (December 2024, https://www.bls.gov/news.release/archives/ecec_03142025.pdf), staff estimates that the total annual cost of the PRA burden associated with the testing requirement is estimated to be about \$45,101, based on an hourly rate of \$75.80 as total compensation for management, professional, and related occupations in goods-producing private

industries (17 firms $\times$ 35 hours $\times$ \$75.80). Staff also estimates that the total annual cost of the recordkeeping burden is estimated to be about \$3,472 based on an hourly rate of \$40.85 for sales and office workers (17 firms $\times$ 5 hours $\times$ \$40.85). Therefore, the total burden cost is about \$48,573 (\$45,101 + \$3,472). This estimate includes professional and clerical time that may be spent to retrieve product data from automated or other records systems, explain firm practices/policies intended to assure compliance with the standard, or accompany Commission personnel during inspections.

Alberta E. Mills,
Secretary, Consumer Product Safety
Commission.

BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC-2012-0026]

Agency Information Collection Activities; Extension of Approval of Information Collection; Requirements Pertaining to Third Party Conformity Assessment Bodies

AGENCY: Consumer Product Safety
Commission.

ACTION: Notice of information collection;
request for comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for extension of approval of information collection requirements pertaining to third party conformity assessment bodies. OMB previously approved the collection of information under Control Number 3041-0156. OMB's most recent extension of approval will expire on September 30, 2025. On June 10, 2025, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek extension of approval of the collection of information. The Commission did not receive any public comments. Therefore, by publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for extension of approval of that collection of information.

DATES: Submit comments on the collection of information by October 14, 2025.

ADDRESSES: Submit comments about this request by email: [\[submission@omb.eop.gov\]\(mailto:submission@omb.eop.gov\) or fax: 202-395-6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. Written comments that are sent to OMB also should be submitted electronically at <http://www.regulations.gov>, under Docket No. CPSC-2012-0026.](mailto:OIRA_</p>

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504-7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:
Title: Requirements Pertaining to Third Party Conformity Assessment Bodies.

OMB Number: 3041-0156.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Third party conformity assessment bodies seeking acceptance of accreditation or continuing accreditation.

General Description of Collection: On March 12, 2013, the Commission issued a rule Pertaining to Third Party Conformity Assessment Bodies (78 FR 15836). The rule established the general requirements concerning third party conformity assessment bodies, such as the requirements and procedures for CPSC acceptance of the accreditation of a third party conformity assessment body, and the rule prescribed adverse actions that might be imposed against CPSC-accepted third party conformity assessment bodies. The rule also amended the audit requirements for third party conformity assessment bodies and amended the CPSC's regulation for inspections. CPSC's requirements pertaining to third party conformity assessment bodies can be found at 16 CFR part 1112.

Estimated Respondent Burden:

- *Application Burden.*

The application for CPSC acceptance of accreditation is completed by submitting a Consumer Product Conformity Assessment Body Registration Form (CPSC Form 223); an accreditation certificate for ISO/IEC 17025, *General requirements for the competence of testing and calibration laboratories*; and a statement of scope that clearly identifies each CPSC rule and/or test method for which CPSC acceptance is sought. 16 CFR 1112.13(a). For independent third party conformity assessment bodies, the estimated time to

complete the initial application materials is 75 minutes. For governmental and firewalled third party conformity assessment bodies, the estimate is longer because of their additional requirements. See 16 CFR 1112.13(b)-(c). Firewalled third party conformity assessment bodies will require an estimated 8.4 hours to develop and upload their requirements to the CPSC. Governmental third party conformity assessment bodies will require three hours to develop and upload their requirements to the CPSC.

Based on applications received from FY 2020 to FY 2024, we estimate receiving 40 new applications from independent third party conformity assessment bodies, three applications from firewalled third party conformity assessment bodies, and four applications from governmental third party conformity assessment bodies, each year.

Therefore, we estimate the total hourly burden for new applications to be 87.2 hours, comprised of 50 hours for independent bodies (75 minutes per independent application $\times$ 40 applications = 3,000 minutes or 50 hours), 25.2 hours for firewalled bodies (8.4 hours per firewalled application $\times$ 3 applications = 25.2 hours) and 12 hours for government bodies (3 hours per governmental application $\times$ 4 applications = 12 hours).

- *Updating Information Burden.*

To update the information on CPSC Form 223, third party conformity assessment bodies will not need to fill out an entirely new form to submit new information. They can access their existing CPSC Form 223 via the third party conformity assessment body application program on the CPSC's website and change only those elements that need updating. From FY 2020 through the first half of 2025, there has been a large increase in additions to scope applications submitted each year. The additions to scope applications accommodate new testing related to toys, furniture, batteries and durable nursery products. We estimate it will take a third party conformity assessment body 30 minutes to update its information to add scope items. Further, we estimate that about 20 percent of the approximately 670 third party conformity assessment bodies will do this per year, for an estimated 134 addition to scope applications annually. Therefore, we estimate the total hourly burden to update information to be 67 hours (134 applications per year $\times$ 30 minutes per application = 4,020 minutes or 67 hours per year).

- *Third Party Disclosure Burden.*
