

Description of the Need for the Information and Proposed Use of the Information: The COPPGP provides eligible State, local, and Tribal governments with funding to purchase and install carbon monoxide alarms and to develop training and public education programs in accordance with 15 U.S.C. 2090(e). The information collected through the application for COPPGP grants is used to determine eligibility and to provide funding to reduce deaths and injuries from carbon monoxide poisoning.

Affected Public: State, Local or Tribal or U.S. Territory Government.

Estimated Number of Respondents: CPSC expects up to 35 respondents annually.

Frequency: Annual.

Total Estimated Annual Burden: To apply for the COPPGP, in addition to completing common forms,³ an applicant would typically provide six attachments specific to the grant program.

- Attachment 1, the introduction, provides a table of contents and introduction and is estimated to take one hour to prepare, on average.
- Attachment 2, legal eligibility, provides references necessary to support that the applicant meets the legal eligibility requirements of the NZB Act and is estimated to take one hour to prepare, on average.
- Attachment 3, the work plan, provides the framework and describes all aspects of the proposed project and is estimated to take 40 hours to prepare, on average.
- Attachment 4, the budget table, provides a budget narrative and table for the 2-year project schedule and is estimated to take 10 hours to prepare, on average.
- Attachment 5, cost share, is an additional narrative documenting cost share on the budget (not required for tribal governments) and is estimated to take five hours to prepare, on average.
- Attachment 6, the indirect cost rate agreement, substantiates indirect costs that the NZB Act states may be reimbursed as permissible administrative costs and is estimated to take one hour to prepare, on average.

CPSC estimates it would take the applicant approximately 58 hours to

compile attachments 1–6, except for tribal governments which would take approximately 53 hours because attachment 5 is not required. CPSC expects to receive 35 grant applications that utilize the attachments described, for a total burden hour estimate of 2,030 hours (58 hours per application × 35 applications). The actual burden may be slightly lower depending on the number of tribal government applications. However, to estimate the maximum burden, these estimates assume all applications to be non-tribal government applications.

Total Estimated Annual Burden Cost: CPSC estimates the compensation for the creation and compilation of attachments 1–6 is \$62.92 per hour (U.S. Bureau of Labor Statistics, “Employer Costs for Employee Compensation,” September 2024, total compensation for state and local government workers: https://www.bls.gov/news.release/archives/ecec_12172024.pdf). Therefore, the estimated annual cost of the burden requirements is \$127,728 (\$62.92 per hour × 2,030 hours = \$127,727.60). Based on this analysis, the collection of information would impose a total burden to applicants of 2,030 hours at a cost of \$127,728.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2012–0056]

Agency Information Collection Activities; Extension of Collection; Comment Request; Standard for Omnidirectional CB Base Antennas

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of Information Collection; Request for Comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) requests comments on a proposed extension of approval of information collection requirements associated with the Safety Standard for Omnidirectional Citizens Band Base Station Antennas. The Office of Management and Budget (OMB) previously approved the collection of information under control number 3041–0006. OMB’s most recent extension of approval will expire on September 30, 2025. The Commission

will consider all comments received in response to this notice before requesting an extension of this collection of information from OMB.

DATES: Submit comments on the collection of information by August 12, 2025.

ADDRESSES: You may submit comments, identified by Docket No. CPSC–2012–0056, within 60 days of publication of this notice by any of the following methods:

Electronic Submissions: Submit electronic comments to the Federal eRulemaking Portal at: <https://www.regulations.gov>. Follow the instructions for submitting comments. Do not submit through this website: confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public. The Commission typically does not accept comments submitted by email, except as described below.

Mail/Hand Delivery/Courier/Written Submissions: CPSC encourages you to submit electronic comments by using the Federal eRulemaking Portal. You may, however, submit comments by mail/hand delivery/courier to: Office of the Secretary, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; telephone (301) 504–7479.

Instructions: All submissions received must include the agency name and docket number for this notice. CPSC may post all comments without change, including any personal identifiers, contact information, or other personal information provided, to: <https://www.regulations.gov>. If you wish to submit confidential business information, trade secret information, or other sensitive or protected information that you do not want to be available to the public, you may submit such comments by mail, hand delivery, or courier, or you may email them to cpsc-os@cpsc.gov.

Docket: For access to the docket to read background documents or comments received, go to: <https://www.regulations.gov>, insert docket number CPSC–2012–0056 into the “Search” box, and follow the prompts.

FOR FURTHER INFORMATION CONTACT: Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Standard for Omnidirectional CB Base Antennas.

OMB Number: 3041–0006.

³ The common forms include: SF–424A Budget Information—Non-Construction (OMB No. 4040–0006), SF–424B Assurances—Non-Construction Programs (OMB No. 4040–0007), Project Abstract Summary (OMB No. 4040–0019), SF–424 Application for Federal Assistance (OMB No. 4040–0020), and SF–LLL Disclosure of Lobbying Activities (OMB No. 4040–0013). To avoid double counting, the estimated burden for this collection does not include burden approved under these common forms.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Manufacturers, importers, and private labelers of omnidirectional citizens band base station antennas.

General Description of Collection: The Safety Standard for Omnidirectional Citizens Band Base Station Antennas (16 CFR part 1204, subpart A) establishes performance requirements for omnidirectional citizens band base station antennas to reduce unreasonable risks of death and injury that may result if an antenna contacts overhead power lines while being erected or removed from its site. Section 14 of the Consumer Product Safety Act, 15 U.S.C. 2063, and the regulations implementing the standard (16 CFR part 1204, subpart B) require manufacturers, importers, and private labelers of antennas, subject to the standard, to test the antennas for compliance with the standard, maintain records of that testing, and certify compliance with the standard.

Estimated Number of Respondents: Ten suppliers may respond to the collection annually by meeting the testing and certification requirements.

Estimated Time per Response: Staff estimates that the average annual recordkeeping burden imposed is approximately 220 hours.

Total Estimated Annual Burden: Based on ten respondents, at 220 hours per response, the total annual burden imposed by the certification regulations on manufacturers, importers and private labelers of omnidirectional citizens band base station antennas is about 2,200 hours.

The Commission staff estimates that the average hourly cost to reporting firms for the time required to perform the required testing and maintain the required records is about \$74.73, based on the reported total compensation for management, professional, and related employees in goods-producing private industries. This may, however, be an overestimate because respondents to this collection may be foreign manufacturers that are compensated at a lower average wage rate. Total annual cost to the industry is approximately \$164,406 (\$74.73 per hour × 2,200 hours = \$164,406).

Request for Comments:

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- whether the collection of information described above is necessary for the proper performance of

the Commission's functions, including whether the information would have practical utility;

- whether the estimated burden of the proposed collection of information is accurate;
- whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355–01–P

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2025–0003]

Agency Information Collection Activities; Proposed Collection; Pool Safely Grant Program Application

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of Information Collection; Request for Comment.

SUMMARY: As required by the Paperwork Reduction Act of 1995, the Consumer Product Safety Commission (CPSC or Commission) announces that the Commission has submitted to the Office of Management and Budget (OMB) a request for approval of a new information collection. The collection is for an application by which potential grant recipients may request funding under CPSC's Pool Safely Grant Program (PSGP). The PSGP provides funds for state, local and tribal governments for education, training and enforcement of pool safety requirements intended to save lives from drowning in swimming pools and spas. On March 11, 2025, CPSC published a notice in the **Federal Register** to announce the agency's intention to seek approval of the collection of information. The Commission received one comment in support of the collection. By publication of this notice, the Commission announces that CPSC has submitted to the OMB a request for that collection of information.

DATES: Submit comments on the collection of information by July 14, 2025.

ADDRESSES: Submit comments about this request by email: OIRA_submission@omb.eop.gov or fax: 202–

395–6881. Comments by mail should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the CPSC, Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503. Written comments that are sent to OMB also should be submitted electronically at <https://www.regulations.gov>, under Docket No. CPSC–2025–0003.

FOR FURTHER INFORMATION CONTACT:

Cynthia Gillham, Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814; (301) 504–7791, or by email to: pra@cpsc.gov.

SUPPLEMENTARY INFORMATION: CPSC seeks approval for the following collection of information.¹

Title: Pool Safely Grant Program Application.

OMB Number: New.

Type of Request: New information collection request.

Type of Review Requested: Regular.

Requested Expiration Date of Approval: Three years from date of approval.

Summary of the Collection of Information: The Virginia Graeme Baker Pool and Spa Safety Act (VGB Act) authorizes CPSC to grant funding for the PSGP. 15 U.S.C. 8004–8008. The PSGP provides two-year grants to eligible state, local or tribal governments to reduce deaths and injuries from drowning and drain entrapment incidents in swimming pools and spas. The grant awards can range from \$50,000 to \$400,000 per applicant. Prospective applicants will be able to access the grant application on [Grants.gov](https://grants.gov) and apply electronically through GrantSolutions. Applicants will be required to complete common forms² used for federal grants, as well as up to six additional attachments specific to PSGP. Awards are posted to the CPSC's website and via press release.

Description of the Need for the Information and Proposed Use of the Information: The PSGP is part of CPSC's national campaign to prevent drowning and drain entrapment. Drowning is one of the leading causes of death among young children.³ The information collected through the application for PSGP grants is used to determine

¹ On June 3, 2025, the Commission voted (2–0) to publish this notice.

² A common form is an approved information collection and can be used by two or more agencies, or government-wide, for the same purpose. See <https://pra.digital.gov/clearance-types/>.
