

thirty minutes will be reserved for public comments and speaking times will be assigned on a first-come, first-serve basis. The amount of time per speaker will be determined by the number of requests received but is likely to be about five minutes each. Speakers who wish to expand upon their oral statements, those who had wished to speak but could not be accommodated on the agenda, and those who were unable to participate are invited to submit written statements by email to jeffrey.brewer@nist.gov.

All in-person attendees, including NIST staff, are required to pre-register to be admitted. Please register via the ISPAB website at <https://csrc.nist.gov/Events/2026/ispab-january-2026-meeting> by 5:00 p.m. Eastern Time, January 14, 2026. There is no deadline to register for the virtual only option. For attending in person, please note that federal agencies, including NIST, can only accept a state-issued driver's license or identification card for access to federal facilities if such license or identification card is issued by a state that is compliant with the REAL ID Act of 2005 (Pub. L. 109–13), or by a state that has an extension for REAL ID compliance. NIST currently accepts other forms of federal-issued identification in lieu of a state-issued driver's license. Non-U.S. citizens must submit additional information. For detailed information please visit: http://nist.gov/public_affairs/visitor/.

Alicia Chambers,

NIST Executive Secretariat.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Alaska Chinook Salmon Economic Data Report (EDR)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize

the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 11, 2025 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Alaska Chinook Salmon Economic Data Report (EDR).

OMB Control Number: 0648–0633.

Form Number(s): None.

Type of Request: Regular submission. Extension of a current information collection.

Number of Respondents: 151.

Average Hours per Response:

Compensated Transfer Report: 40 hours; Vessel Fuel Survey: 4 hours; Vessel Master Survey: 4 hours.

Total Annual Burden Hours: 640.

Needs and Uses: The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting renewal of the currently approved information collection for the Chinook Salmon Economic Data Report (EDR) Program.

National Marine Fisheries Service (NMFS) manages the Bering Sea pollock fishery under the American Fisheries Act (AFA) (16 U.S.C. 1851). AFA fishing vessels harvest pollock in the Bering Sea pollock fishery using pelagic trawl gear, which consists of large nets towed through the water by the vessel. At times, Chinook salmon and pollock occur in the same locations in the Bering Sea; consequently, Chinook salmon are incidentally caught in the nets as pollock is harvested. This incidental catch is called bycatch and is also called prohibited species catch (PSC).

The Chinook Salmon EDR Program provides NMFS and the North Pacific Fishery Management Council (Council) with data to evaluate the effectiveness of Chinook salmon bycatch management measures for the Bering Sea pollock fishery that were implemented under Amendment 91 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (75 FR 53026, August 30, 2010). The Chinook Salmon EDR requirements were revised in 2023 to remove third party data verification audits and blind formatting of EDR data (88 FR 7586). The Chinook Salmon EDR Program provides information to the analysts and the Council and is intended to evaluate the effectiveness of the Chinook Salmon Incentive Plan Agreement (IPA) (see OMB Control No. 0648–0401). The Chinook Salmon EDR Program is intended to evaluate where, when, and how pollock fishing and salmon bycatch occur and to provide

data to study and verify conclusions drawn by industry in the IPA annual reports.

The Chinook Salmon EDR Program is managed primarily by the Alaska Fisheries Science Center, with support from NMFS Alaska Region, and is administered in collaboration with Pacific States Marine Fisheries Commission. The EDR is a mandatory reporting requirement under 50 CFR 679.65 for all entities participating in the AFA Bering Sea (BS) pollock trawl fishery, including vessel masters and businesses that own or lease one or more AFA-permitted vessels active in fishing or processing BS pollock, Western Alaska Community Development Quota groups receiving allocations of BS pollock, and representatives of sector entities receiving allocations of Chinook salmon PSC from NMFS.

The Chinook Salmon EDR Program consists of three separate forms:

- **Chinook PSC Allocation In-season Compensated Transfer Report**—Collects transfer and monetary compensation information for Chinook salmon PSC allocations.
- **Vessel Fuel Survey**—Collects fuel consumption and average fuel costs.
- **Vessel Master Survey**—Collects vessel master impressions of fishing experiences during the year and of Chinook salmon PSC avoidance efforts.

These collections are unchanged since the previous revision in 2023.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: The EDR is a mandatory reporting requirement under 50 CFR 679.65. Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* American Fisheries Act, 16 U.S.C. 1851.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and

entering either the title of the collection or the OMB Control Number 0648–0633.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to the Washington Department of Transportation Mukilteo Wingwalls Repair Project in Puget Sound, Washington

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of incidental harassment authorization.

SUMMARY: In accordance with regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an incidental harassment authorization (IHA) to Washington Department of Transportation (WSDOT) for authorization to take marine mammals incidental to the Mukilteo Wingwalls Repair Project in Puget Sound, Washington.

DATES: This authorization is effective for 1 year from the date of notification by the IHA holder, not to exceed 1 year from the date of issuance (November 21, 2025).

ADDRESSES: Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, can be obtained online at: <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities>. If you encounter any issues accessing these documents, please contact the person listed below.

FOR FURTHER INFORMATION CONTACT: Kate Fleming, Office of Protected Resources, NMFS, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

MMPA Background and Determinations

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Among the exceptions is

section 101(a)(5)(D) of the MMPA (16 U.S.C. 1361 *et seq.*) which directs the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking by harassment of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and the public has an opportunity to comment on the proposed IHA.

Specifically, NMFS will issue an IHA if it determines that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where applicable). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least [practicable] adverse impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stocks for taking for certain subsistence uses (referred to here as “mitigation”). NMFS must also prescribe requirements pertaining to the monitoring and reporting of such takings. The definitions of key terms, such as “take,” “harassment,” and “negligible impact,” can be found in the MMPA and the NMFS’ implementing regulations (see 16 U.S.C. 1362; 50 CFR 216.103).

On July 16, 2025, a notice of NMFS’ proposal to issue an IHA to WSDOT for take of marine mammals incidental to Mukilteo Wingwalls Repair Project in Puget Sound, WA was published in the **Federal Register** (90 FR 31965). In that notice, NMFS indicated the estimated numbers, type, and methods of incidental take proposed for each species or stock, as well as the mitigation, monitoring, and reporting measures that would be required should the IHA be issued. The **Federal Register** notice also included analysis to support NMFS’ preliminary conclusions and determinations that the IHA, if issued, would satisfy the requirements of section 101(a)(5)(D) of the MMPA for issuance of the IHA. The **Federal Register** notice included web links to a draft IHA for review, as well as other supporting documents.

No substantive comments were received during the public comment period. There are no changes to the specified activity, the species taken, the proposed numbers, type, or methods of take, or the mitigation, monitoring, or reporting measures in the proposed IHA notice. No new information has become

available that would substantively change any of the preliminary analyses, conclusions, or determinations in the proposed IHA notice. Therefore, the preliminary analyses, conclusions, and determinations included in the proposed IHA are considered final.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216–6A, NMFS must review our proposed action (*i.e.*, the issuance of an IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NAO 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHAs qualifies to be categorically excluded from further NEPA review.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires that each Federal agency ensures that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

No incidental take of ESA-listed species is proposed for authorization or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

Authorization

Accordingly, consistent with the requirements of section 101(a)(5)(D) of the MMPA, NMFS has issued an IHA to WSDOT for authorization to take marine mammals incidental to Mukilteo Wingwalls Repair Project in Puget Sound, WA.
