

CENTER FOR TOBACCO PRODUCTS

Change Request for OMB Control No. 0910-0932

National Youth Tobacco Survey (NYTS), 2026

October 2025

The Food and Drug Administration (FDA or we) is seeking OMB approval of this nonmaterial/non-substantive change request to update study documents indicating transfer of NYTS to FDA's Center for Tobacco Products and revise documentation to align with the Executive Order 14168 *Defending Women From Gender Ideology Extremism and Restoring Biological Truth to the Federal Government*.

The content of the 2026 instrument remains largely consistent with the past NYTS surveys. For 2024-2026, there are no changes to the estimated burden per response, the frequency of data collection for the survey instrument, the recruitment scripts, or the checklist used by teachers.

The overall burden is higher than the previous cycle due to the increased sample size because of declining response rates. The 2024-2026 NYTS approval was based on 30,806 annualized responses and 22,086 annualized burden hours for 2024. The 2026 NYTS is estimated to include 31,471 responses and 22,600 annualized burden hours.
