Caution: DRAFT—NOT FOR FILING

This is an early release draft of an IRS tax form, instructions, or publication, which the IRS is providing for your information. **Do not file draft forms.** We incorporate all significant changes to forms posted with this coversheet. However, unexpected issues occasionally arise, or legislation is passed—in this case, we will post a new draft of the form to alert users that changes were made to the previously posted draft. Thus, there are never any changes to the last posted draft of a form and the final revision of the form. Forms and instructions are subject to OMB approval before they can be officially released, so we post drafts of them until they are approved. Drafts of instructions and pubs usually have some additional changes before their final release. Early release drafts are at [IRS.gov/DraftForms](https://www.irs.gov/DraftForms) and remain there after the final release is posted at [IRS.gov/LatestForms](https://www.irs.gov/LatestForms). Also see [IRS.gov/Forms](https://www.irs.gov/Forms).

Most forms and publications have a page on IRS.gov: [IRS.gov/Form1040](https://www.irs.gov/Form1040) for Form 1040; [IRS.gov/Pub501](https://www.irs.gov/Pub501) for Pub. 501; [IRS.gov/W4](https://www.irs.gov/W4) for Form W-4; and [IRS.gov/ScheduleA](https://www.irs.gov/ScheduleA) for Schedule A (Form 1040), for example, and similarly for other forms, pubs, and schedules for Form 1040. When typing in a link, type it into the address bar of your browser, not a Search box on IRS.gov.

If you wish, you can submit comments to the IRS about draft or final forms, instructions, or pubs at [IRS.gov/FormsComments](https://www.irs.gov/FormsComments). Include “NTF” followed by the form or pub number (for example, “NTF1040”, “NTFW4”, “NTF501”, etc.) in the body of the message to route your message properly. We cannot respond to all comments due to the high volume we receive and may not be able to consider many suggestions until the subsequent revision of the product, but we will review each “NTF” message. If you have comments on reducing paperwork and respondent (filer) burden, with respect to draft or final forms, please respond to the relevant information collection through the Federal Register process; for more info, click [here](#).

5 Other company(ies) identified as the operator of the project for any other purpose(s) and the nature of the purpose		
6a IRS-issued registration number(s) for the geological disposal site	6b EPA e-GGRT ID number(s), if available	7 Date (MM/YYYY) on which the injection of captured carbon oxide began
8a If the EOR project was previously certified under section 43, state the name of the certified project		8b Date (MM/YYYY) of the petroleum engineer's certification
9 If the EOR project wasn't previously certified under section 43, attach a copy of a valid petroleum engineer's certification to this schedule.		
10 Is this EOR project an enhanced natural gas recovery project? ☐ Yes ☐ No		
11 If the amount of sequestered carbon oxide has been determined pursuant to 40 CFR Part 98 subpart RR, attach a copy of the approved Monitoring, Reporting, and Verification (MRV) plan or provide the URL of it on the EPA's website.		
12 If the amount of sequestered carbon oxide has been determined pursuant to ISO 27916, attach a copy of the ISO 27916 documentation for the tax year. Also attach a copy of the certification by a qualified independent engineer or geologist.		

Part II Determination of Recaptured Qualified Carbon Oxide

1 List the total metric tons of qualified carbon oxide securely stored in the geological disposal site or EOR project during the year	1	
2 Metric tons of qualified carbon oxide that, during the year, the owner, operator, or regulatory agency determined has leaked from the containment area of the reservoir during the year or previous tax years if not previously accounted for	2	
3 Metric tons of qualified carbon oxide that, during the year, the owner, operator, or regulatory agency determined has leaked from the containment area of the reservoir during the year or previous tax years if not previously accounted for, and will eventually migrate to the atmosphere	3	
4 If line 3 is less than line 2, attach a statement explaining how you determined that the qualified carbon oxide won't eventually migrate to the atmosphere.		
5 Qualified carbon oxide subject to recapture. Subtract line 1 from line 3. If greater than zero, a recapture event has occurred. See Regulations section 1.45Q-5(d). Complete the remainder of Part II. Don't complete this schedule if a recapture event didn't occur	5	
6 Attach a statement describing the cause of the leakage of qualified carbon oxide.		
7 Which regulatory agencies were made aware of the leakage of qualified carbon oxide? _____		
8 Attach a copy of Schedule B (Form 8933) or Schedule C (Form 8933) for this disposal site for each of the previous THREE tax years.		

Part II **Determination of Recaptured Qualified Carbon Oxide** *(continued)*

9 List information about stored carbon oxide subject to recapture.
