

TSCA Section 8(a) Nanoscale

EPA Form No. 9600-07

OMB Control No. 2070-0224

Expiration 11/30/2025

CHEMICAL INFORMATION SUBMISSION SYSTEM

TSCA Section 8(a) - Nanoscale Materials

OK

This form is to be used for reporting as prescribed in 40 CFR 704.20. As indicated in that regulation, definitions in TSCA and 40 CFR part 704 apply. Persons who manufacture or process a discrete form of a reportable chemical substance at any time during the three years prior to the final effective date of 40 CFR 704.20 must report to EPA within one year after the final effective date of the rule. There is also a standing one-time reporting requirement for persons who intend to manufacture or process a discrete form of a reportable chemical substance on or after the effective date of the rule. These persons must report to EPA at least 135 days before manufacture or processing of that discrete form except where the person has not formed an intent to manufacture or process a discrete form of a reportable chemical substance 135 days before such manufacturing or processing, in which case the information must be filed within 30 days of the formation of such an intent.

You must provide information requested in this form to the extent it is known to or reasonably ascertainable by you. "Known to or reasonably ascertainable by" is defined in 40 CFR Â§704.3. As much of this form is adapted from the Premanufacture Notice (PMN) form (EPA Form No. 7710-25), it may be instructive to read "Instruction Manual for Reporting Under the TSCA Â§5 New Chemicals Program" (available from the Toxic Substances Control Act (TSCA) Information Service, 202-554-1404, or 202-554-5603(fax) or at <https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/instruction-manual-reporting-under>). You may want to consult with your customers or suppliers about the confidentiality of any information you report about them on this form.

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2070-0224). Responses to this collection of information are mandatory for certain persons, as specified at 40 CFR Part 712. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be 0.4 to 107.5 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Information Engagement Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

OMB Control No. 2070-0224
Expiration 11/30/2025

Section 8(a) Information Sharing

In order to continue work on sharing available information and to inform future alignment on activities pertaining to nanoscale materials, EPA is including the option to share confidential business information (CBI) with the government of Canada. By checking the box you authorize EPA sharing all CBI with Environment and Climate Change Canada and Health Canada. EPA, Environment and Climate Change Canada, and Health Canada will share information including confidential information to better inform knowledge of nanoscale materials in commerce and any future actions. Any shared CBI would be subject to the CBI protection policies of each agency.

☐ I authorize sharing of all confidential business information with Environment and Climate Change Canada and Health Canada. Any shared confidential information would be subject to the confidential business information protection laws and policies of those agencies.

I hereby certify to the best of my knowledge and belief that all information entered on this form is complete and accurate.

I further certify that, pursuant to 15 U.S.C. § 2613(c), for all claims for protection for any confidential information made with this submission, all information submitted to substantiate such claims is true and correct, and that it is true and correct that the person submitting the claim has:

- (i) taken reasonable measures to protect the confidentiality of the information;
- (ii) determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law;
- (iii) a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of the person; and
- (iv) a reasonable basis to believe that the information is not readily discoverable through reverse engineering.

Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.
