

Annual Evaluation and Performance Measurement Report (I.3- CANDIDA ENHANCED YEAST  
SURVEILLANCE FOR SPECIES IDENTIFICATION)

Annually, each funded laboratory is required to report to CDC evaluation and performance measures. Data are used to indicate progress made toward program outcomes. These summary reports have to be uploaded to the ELC CAMP at the end of each funding year. Required performance measures are listed below.

|                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1. Total number of yeast isolates tested for species identification, by the AR Lab Network lab.</b>                                                            |
| <b>2. Median number and range from specimen receipt at public health laboratory to communication of test result:</b><br>a. Median (in days)<br>b. Range (in days) |
