Abstract: The Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (see 16 U.S.C. 1538(d)). The ESA also requires that fish or wildlife be imported into or exported from the United States only at a designated port, or at a nondesignated port under certain limited circumstances (see 16 U.S.C. 1538(f)). This information collection includes the following permit/license application forms:

Form 3-200-2, “Designated Port Exception Permit”

Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports other than those designated in 50 CFR 14.12, unless you qualify for an exception. The following exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

- (a) To export the wildlife or wildlife products for scientific purposes;
- (b) To minimize deterioration or loss; or
- (c) To relieve economic hardship.

To request authorization to import or export wildlife or wildlife products at nondesignated ports, applicants must complete Form 3-200-2. Designated port exception permits can be valid for up to 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

Forms 3-200-3a, “Federal Fish and Wildlife Permit Application Form: Import/Export License—U.S. Entities,” and 3-200-3b, “Federal Fish and Wildlife Permit Application Form: Import/Export License—Foreign Entities” (Paper and Electronic)

It is unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants located in the United States must complete Form 3-200-3a to request this license. Foreign applicants that reside or are located outside the United States must complete Form 3-200-3b to request this license.

We use the information collected on Forms 3–200–3a and 3–200–3b as an enforcement tool and management aid to (a) monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for up to 1 year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Form 3–200–44, “Permit Application Form: Registration of an Agent/Tannery Under the Marine Mammal Protection Act (MMPA)”

The information collected on Form 3–200–44 will be used by Service

employees to confirm that an applicant has provided a written description of the procedures that they will use to receive, store, process, and ship marine mammal parts and products. The information collected will also be used to confirm the written description system of the bookkeeping and inventory that the applicant will use to receive, store, process and ship marine mammal parts and products, from Native Alaskans to Native Alaskans.

Form 3–200–44a, “Registered Agent/Tannery Bi-Annual Inventory Report”

The information collected on Form 3–200–44a will be used by Service employees to review the activities of the

registered agent or registered tannery regarding the receipt and transfer of marine mammal parts and products from Native Alaskans to Native Alaskans.

Unless a form number is specified in the table below, we collect the following information on Forms 3–200–2, 3–200–3a, 3–200–3b, 3–200–44, and 3–200–44a:

We collect information on . . .	So that we can . . .

Name of business, tax identification number or social security number, description of business, website, and name and contact information for the principal officer.	Identify the business and the activity conducted by the applicant for which a license/permit is required.
Name, street address, and contact information for each additional partner/principal officer (3–200–3a and 3b).	Identify all individuals or businesses associated with the entity requesting a license/permit.
Whether or not applicant has or has ever had any Federal fish and wildlife permits; if yes, number of current permit or permit to be renewed/reissued.	Identify prior or current activity under Federal wildlife permits. This helps in determining their knowledge of Service laws and regulations.
U.S. address for foreign applicant	Inspect records, as necessary.
Name, physical address, and telephone number of agent or location where business records will be maintained.	Inspect records, as necessary.
Street address and contact information for location where wildlife inventories will be kept (3–200–3a and 3b).	Provide Service Officers access to their facility to examine inventories of wildlife or wildlife products imported or to be exported.
Port(s) of entry where importation/exportation is requested (3–200–2) ..	Determine if port is appropriate to be requested. Determine if additional workload can be accommodated by staff presently available at the requested port.
Valid import/export license number (for commercial shipments) (3–200–2).	Establish compliance with commercial import/export requirements.
Reason for requesting port exception (3–200–2)	Determine if there is a bona fide scientific purpose, potential deterioration or loss, or potential economic hardship that would occur from the issuance of the permit.
General description of wildlife or wildlife products	Determine workload burden.
Whether the applicant is applying for a registration under the Marine Mammal Protection Act (MMPA) as agent, tannery, or both (3–200–44).	Determine whether the business qualifies for a registration under the MMPA.
The species that the agent or tannery wishes to use in the transfer of marine mammal parts and products from Native Alaskans to Native Alaskans (3–200–44).	Determine that the species requested are eligible under the MMPA.
The procedure that the agent or tannery will use to receive, store, process, and ship marine mammal parts and products from Native Alaskans to Native Alaskans (3–200–44).	Determine that these procedures are sufficient to ensure the legitimate transfer of mammal parts and products from Native Alaskans to Native Alaskans.
The system of bookkeeping and inventory used to receive, store, process, and ship marine mammal parts and products from Native Alaskans to Native Alaskans (3–200–44).	Determine that the system of bookkeeping and inventory are sufficient to ensure the legitimate transfer of mammal parts and products from Native Alaskans to Native Alaskans.
A certification by the applicant that they will responsibly receive, store, process, and ship marine mammal parts and products from Native Alaskans to Native Alaskans to receive an exemption under the MMPA (3–200–44).	Confirm that the applicant is aware of the requirements in order to receive an exemption under the MMPA.
A description of the activities of the registered agent or registered tannery regarding the receipt and transfer of marine mammal parts and products from Native Alaskans to Native Alaskans (3–200–44a).	Confirm that the applicant is receiving, storing, processing, and shipping marine mammal parts and products from Native Alaskans to Native Alaskans.

Permittees and licensees must maintain records that accurately describe each importation or exportation of wildlife or wildlife products under the permit/license, and

any subsequent sale or transfer of the wildlife or wildlife products. In addition, licensees must make these records and the corresponding inventory of wildlife or wildlife

products available for our inspection at reasonable times, subject to applicable limitations of law. Any live wildlife possessed under a Service permit/license must be maintained under

humane and healthful conditions. We believe the burden associated with these recordkeeping requirements is minimal because the records already exist.

Importers and exporters must complete Form 3–177 (Declaration for Importation or Exportation of Fish or Wildlife) for all imports or exports of wildlife or wildlife products. This form provides an accurate description of the imports and exports. OMB has approved the information collection for Form 3–177 and assigned OMB Control Number 1018–0012. Normal business practices should produce records (e.g., invoices or bills of sale) needed to document additional sales or transfers of the wildlife or wildlife products.

Generally, we do not require individuals and government entities to submit a report on activities conducted under the authority of a designated port exception permit. On an occasional basis, we may require entities to provide a report on activities conducted under a designated port exception permit or an import/export license.
