

relationships and engagements with CISA. The survey is designed so that each sector has a customized link with specific questions for that sector to account for some minor differences in the convenings, products, and services that each sector provides. This will help ensure that the members of each sector are asked questions that are most relevant to them.

Interviews. The study team will also conduct a series of virtual interviews with up to 75 participants who complete the online survey and agree to participate in the interview. The study team plans to conduct the in-depth interviews by telephone or via a web-based conference call platform, such as Microsoft Teams. This format should be less burdensome to study participants than in-person interviews since they do not have to host study team members.

The interviews will ask more in-depth information about representatives' reasons for satisfaction or dissatisfaction with CISA's convening activities, products, and services; types of organizational changes made as a result of CISA's convening activities, products, and services; and the quality of relationships with CISA.

Without collecting this information, CISA will not meet the requirements of the Evidence Act to conduct program evaluations—particularly, this SED Convenings Evaluation, which was included in the Department of Homeland Security FY 2023 Annual Evaluation Plan as a “significant” evaluation. In addition, without collecting this information, SED, other CISA stakeholder engagement programs, and CISA-at-large will not be able to understand whether and how CISA's convening activities, products, and services provide value and utility for stakeholders to enhance their decision-making and risk reduction. Thus, CISA will not have the information needed to learn how to improve the planning, execution, and delivery of the convenings, products, and services so that they are more meaningful, relevant, timely, and actionable for stakeholders. Without collecting this information, CISA will also not be able to assess how to best engage and build trusted relationships with stakeholders, which is needed to identify areas for improvement in how CISA collaborates and interacts with stakeholders to support information exchange within and across sectors.

Analysis

Agency: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

Title: Program Analysis and Evaluation (PA&E) Office, Stakeholder Engagement Division (SED) Convenings Evaluation.

OMB Number: 1670–NEW.

Frequency: Once.

Affected Public: General and operations managers of public and private sectors (e.g., cyber and physical security, emergency, and business continuity managers).

Number of Respondents: 1,000.

Estimated Time per Respondent: 0.17 hrs for 925 respondents (survey only); 1.17 hrs. for 75 respondents (survey and interview).

Total Burden Hours: 242.

Total Annual Burden Cost: \$21,858.07.

Total Government Burden Cost: \$327,510.00.

Robert J. Costello,

Chief Information Officer, Department of Homeland Security, Cybersecurity and Infrastructure Security Agency.

[Docket No. USGS–2025–0015; OMB Control Number 1028–0085/Reinstatement; GX21EB00A181100]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; National Land Remote Sensing Education, Outreach and Research Activity

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the U.S. Geological Survey (USGS, we) proposes to reinstate an information collection.

DATES: Interested persons are invited to submit comments on or before January 21, 2026.

ADDRESSES: You may submit comments by one of the following methods:

■ **Internet:** <https://www.regulations.gov>. Search for and submit comments on Docket No. USGS–2025–0015.

■ **U.S. Mail:** USGS, Information Collections Clearance Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192.

FOR FURTHER INFORMATION CONTACT: Curtis Watts by email at cwatts@usgs.gov

usgs.gov, or by telephone at 703–648–7819. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the information collection request (ICR) at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA of 1995 (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on August 12, 2025 (90 FR 38796). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address,

or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The National Land Remote Sensing Education, Outreach and Research Activity is an effort that involves the development of a U.S. national consortium in building the capability to receive, process and archive remotely sensed data. The purposes are to provide university and State organizations with access to data in a ready-to-use format and to expand the science of remote sensing through education, research, applications development, and outreach in areas such as water availability (or lack thereof), phenology, natural resource management and disaster analysis.

Respondents submit proposals to acquire funding for a national (U.S.) program to promote the uses of space-based land remote sensing data and technologies through education and outreach at the State and local level and through university-based and collaborative research projects. The information collected will ensure that sufficient and relevant information is available to evaluate and select a proposal for funding. A panel of USGS Core Science Systems Mission Area managers and scientists will review each proposal to evaluate the technical merit, requirements, and priorities identified in the call for proposals.

This notice concerns the collection of information that is sufficient and relevant to evaluate and select proposals for funding. We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552), its implementing regulations (43 CFR part 2), and 30 CFR 250.197, “Data and information to be made available to the public or for limited inspection.” Responses are voluntary. No questions of a “sensitive” nature are asked. We intend to release the project abstracts and primary investigators for awarded/funded projects only.

Title of Collection: National Land Remote Sensing Education, Outreach and Research Activity.

Office of Management and Budget Control Number: 1028–0085.

Form Number: None.

Type of Review: Reinstatement of an information collection.

Respondents/Affected Public: Public or private institutions of higher education including universities; State

and local governments (including county, city township or special district governments), independent school districts, Native American Tribal governments or organizations, nonprofit organizations (with or without 501(c)(3) status).

Total Estimated Number of Annual Responses: Approximately 5 respondents.

Total Estimated Number of Annual Responses: Approximately 5 responses or applications.

Estimated Completion Time per Response: We expect to receive approximately 5 applications per year, taking each applicant approximately 24 hours to complete, totaling 120 burden hours. We anticipate awarding one (1) grant per year. The grantee will be required to submit an interim annual progress report to the designated USGS project officer within 90 days of the end of the project period and a final report on or before 90 working days after the expiration of the agreement.

Total Estimated Number of Annual Burden Hours: 120 hours per year.

Respondent's Obligation: Required to obtain a benefit.

Frequency of Collection: Annually.

Total Estimated Annual Nonhour Burden Cost: There are no “non-hour-cost” burdens associated with this information collection.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

Curtis Watts,

Intelligence Operations Specialist, USGS Core Science Systems.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[A2407–014–004–065516, #O2509–014–004–125222]

Decision Declining To Adopt Proposed Notice to Lessees No. 5

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of decision.

SUMMARY: After reconsidering proposed Notice to Lessees No. 5 (NTL–5) based on the Executive Order 14154, “Unleashing American Energy” (Jan. 20, 2025), and additional direction from the Secretary of the Interior, the Bureau of Land Management (BLM) has decided

not to publish a final NTL–5 as was first proposed in the **Federal Register** on November 14, 2024.

DATES: This decision takes effect on December 22, 2025.

FOR FURTHER INFORMATION CONTACT: John Ajak, Acting Division Chief, Fluid Minerals Division, telephone: (505) 549–9654, email: jajak@blm.gov, or by mail to Bureau of Land Management, 1849 C St. NW, Room 5633, Washington, DC 20240.

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: On November 14, 2024, the BLM published proposed NTL–5, “Clarifying the Implementation of Certain BLM Oil and Gas Measurement Regulations” (89 FR 90037). Proposed NTL–5 would have clarified when and how operators are expected to comply with certain requirements in the oil and gas measurement regulations in 43 CFR part 3170, which became effective in January 2017. The BLM issued the proposed NTL–5 pursuant to 43 CFR 3164.2, which authorizes the BLM to issue notices to lessees when necessary to implement the BLM’s oil and gas regulations.

However, in compliance with Executive Order 14154, “Unleashing American Energy,” which directs Federal agencies to identify any rules or other actions that “impose an undue burden on the identification, development, or use of domestic energy resources,” and in compliance with additional direction from the Secretary of the Interior, the BLM has reconsidered the proposed notice and now declines to publish a final version of NTL–5. This withdrawal decision is being issued to reduce compliance burdens for operators.

(Authority: 43 CFR 3164.2.)

Tina Roberts-Ashby,

Acting Assistant Director, Energy, Minerals, and Realty Management.
