

of delay reduction meetings pursuant to 49 U.S.C. 41722 to negotiate reductions to the 72 operations per hour target. This could be based on the approved Winter 2025/2026 baseline schedule or the FAA could roll over the agreed-upon hourly reductions from the Summer 2025 season to the Winter 2025/2026 approved baseline schedule and utilize the delay reduction meeting to reverse some of the negotiated reductions to achieve the new 72 operations per hour target. The meeting-based options may allow the FAA to take into account commercially sensitive or network-specific preferences in a more dynamic process, provided such preferences preserve competition and meet the overall public interest objective of reaching 72 operations per hour.

The FAA requests comments on these or other potential options.

SUPPLEMENTARY INFORMATION:

OMB Approval No. 2138-0006.

Title: Preservation of Air Carrier Records—14 CFR part 249.

Form No.: None.

Type Of Review: Reinstatement of an expired recordkeeping requirement.

Respondents: Certificated air carriers and charter operators.

Number of Respondents: 89 certificated air carriers, 280 charter operators.

Estimated Time per Response: 3 hours per certificated air carrier, 1 hour per charter operator.

Total Annual Burden: 547 hours.

Needs and Uses: Part 249 requires the retention of records such as: general and subsidiary ledgers, journals and journal vouchers, voucher distribution registers, accounts receivable and payable journals and ledgers, subsidy records documenting underlying financial and statistical reports to DOT, funds reports, consumer records, sales reports, auditors' and flight coupons, air waybills, etc. Depending on the nature of the document, the carrier may be required to retain the document for a period of 30 days to three years. Public charter operators and overseas military personnel charter operators must retain documents which evidence or reflect deposits made by each charter participant and commissions received by, paid to, or deducted by travel agents, and all statements, invoices, bills and receipts from suppliers or furnishers of goods and services in connection with the tour or charter. These records are retained for six months after completion of the charter program.

Not only is it imperative that carriers and charter operators retain source documentation, but it is critical that DOT has access to these records. Given DOT's established information needs for such reports, the underlying support documentation must be retained for a reasonable period of time. Absent the retention requirements, the support for such reports may or may not exist for audit/validation purposes and the relevance and usefulness of the carrier submissions would be impaired, since the data could not be verified to the source on a test basis.

The Confidential Information Protection and Statistical Efficiency Act of 2002 (44 U.S.C. 3501 note), requires a statistical agency to clearly identify information it collects for non-statistical purposes. BTS hereby notifies the respondents and the public that BTS uses the information it collects under this OMB approval for non-statistical purposes including, but not limited to, publication of both Respondent's identity and its data, submission of the information to agencies outside BTS for review, analysis and possible use in regulatory and other administrative matters.

Issued in Washington, DC, on August 07, 2025.

Rolf Schmitt,

*Acting Director, Office of Airline Information,
Bureau of Transportation Statistics.*
