Centennial Challenges Deep Space Food Challenge: Mars to Table Registration

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice, correction.

SUMMARY: Deep Space Food Challenge: Mars to Table is open, and teams that wish to compete may now register. NASA initiated Centennial Challenges in 2005 to create public prize competitions that stimulate revolutionary research, technology development, and prototype demonstrations. These challenges strive to be audacious and inspirational with a focus on long-range NASA goals while addressing complex mission needs. Challenges also encourage hands-on, grassroots approaches to identifying and cultivating communities of innovators,

including small businesses, student groups, and individuals. Centennial Challenges are part of NASA's Prizes, Challenges, and Crowdsourcing program with the agency's Space Technology Mission Directorate. NASA's Deep Space Food Challenge: Mars to Table is a prize competition with a total prize purse of \$750,000 USD, (seven hundred and fifty thousand United States dollars) to be awarded to competitor teams that develop a complete space food system for a planetary surface that integrates a variety of food sources and associated technologies, and that meets 100% of the crew's variable nutritional needs within the constraints of a Martian habitat.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “Cooperation With States at Commercial Nuclear Power Plants and Other Nuclear Production and Utilization Facilities.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on September 25, 2025, 90 FR 46268.

1. *The title of the information collection:* Cooperation With States at Commercial Nuclear Power Plants and Other Nuclear Production and Utilization Facilities.

2. *OMB approval number:* 3150-0163.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* On occasion, when a State or Federally recognized Indian Tribe wishes to observe NRC inspections or perform inspections with the NRC or when a State or Federally recognized Indian Tribe wishes to negotiate an agreement to observe or perform inspections. States with an instrument of cooperation or a State Resident Engineer have both regular reporting and occasion-specific reporting.

6. *Who will be required or asked to respond:* States and Federally recognized Tribes interested in observing or performing inspections.

7. *The estimated number of annual responses:* 203.

8. *The estimated number of annual respondents:* 30.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 1,255.

10. *Abstract:* States and Federally recognized Indian Tribes are involved and interested in monitoring the safety status of nuclear power plants and other nuclear production and utilization facilities. This involvement is, in part, in response to the States' and Tribes' public health and safety responsibilities and, in part, in response to their citizens' desire to become more knowledgeable about the safety of nuclear power plants and other nuclear production and utilization facilities. States and Tribes have identified NRC inspections as one possible source of knowledge for their personnel regarding NRC licensee activities, and the NRC, through the policy statement, “Cooperation with States at Commercial Nuclear Power Plants and Other Nuclear Production or Utilization Facilities” (57 FR 6462; February 25, 1992), has been amenable to accommodating States' and Tribes' needs in this regard. The NRC uses the information collected under this information collection requirement to allow States and Federally recognized Indian Tribes to participate in or observe inspections at NRC-licensed facilities. The types of information collected include written requests identifying specific inspections States and Tribes wish to observe; identification-related information required for site access to NRC-licensed facilities; training and qualifications of State and Tribal personnel participating in inspections; information required to define inspection roles for States and Tribes; and information to coordinate NRC and State and Tribal inspections.

Dated: January 14, 2026.

 Chief Information Officer.*
