SUPPLEMENTARY INFORMATION:

Title of Collection: ICBA Disclosure Testing: Qualitative Pre-testing of Survey (Testing) Instrument and Modified Disclosure Forms.

OMB Control Number: 3170–00XX.

Type of Review: New information collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 2,000.

Estimated Total Annual Burden Hours: 1,500.

Abstract: The central research question that ICBA will be examining in the disclosure testing is whether the modified mortgage disclosures are more effective for a sample of consumers representative of community bank members who would be likely to take out construction or construction-to-permanent loans. Effectiveness will be measured by how well a consumer can understand various dimensions of each loan by answering comprehension questions (e.g., interest rate, payment schedule, etc.) for various types of construction-to-permanent and construction loans they are presented. Per the recommendation of the CFPB, to ensure the effectiveness of both the survey instrument and the revised mortgage disclosure forms, ICBA's contractor, will conduct pre-testing (or cognitive-testing) of both.

Request for Comments: Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the CFPB, including whether the information will have practical utility; (b) The accuracy of the CFPB's estimate of the burden of the collection of information, including the validity of the methods and the assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB's approval. All comments will become a matter of public record.
