**Appendix I: Public Comment 5**

**Comment Number:** FNS-2022-0015-1424-0005

**All Sections:** 5.2.10.1.1

**Classification:** Substantive

**Commenter Type:** Individual/Private Citizen

**Commenter:** Kim Hinnenkamp

**Excerpt Text:** We have concerns with the estimated amounts of time to complete the various tasks identified in the rule. 45 minutes per vendor each year is grossly underestimated. This includes reviewing the application, making the onsite store visit, reviewing the contract with the store, and obtaining signatures which can take up to three to four hours depending on the location of the store. We also need to come back to the office and update all the information in our MIS. 20 minutes to travel to a store is grossly underestimated. 30 minutes seems more reasonable one way, so 60 minutes roundtrip is more realistic. This also does not account for stores that are an hour away from our main WIC clinic, so this total time should account for stores farther away as well. 40 hours is listed as an estimated amount for virtually monitoring online stores. Since there is no criteria or guidance given, it is difficult to estimate an amount of time needed as all of this will need to be developed.
